(Obsoleted 4-21-97, Type D) Not available for new installations or moves of service to a different premises. No additions or rearrangements to existing service allowed. Upon expiration of existing contracts MegaLink ISDN service can only be retained on a month-to-month payment plan basis.

B107.5.1 General

- A.** MegaLink ISDN service is an intraLATA group of offerings supported by the Integrated Services Digital Network (ISDN) architecture.
- B.** MegaLink ISDN service provides a method of access to the telephone network called Primary Rate Access. Primary Rate Access is an ISDN based, DS1 access link to the telecommunications network and provides integration of multiple voice and data transmission channels on the same line. The service will initially provide connectivity between an ISDN PBX or other ISDN compatible CPE and a serving central office. The basic channel structure for Primary Rate Access is twenty-three 64 Kbps (B) channels and one 64 Kbps (D) channel. Options are available for plus or minus 23 B channels. These B channels may be used to connect the customer's CPE to the Public Circuit Switched Network (e.g. outward, inward and two-way trunks, and WATS/800 Service access lines).
- C.** MegaLink ISDN service is a service for the transmission of digital signals only. Clear Channel Capability and Extended Superframe Format are inherent to the service.
- D.** Unless specified following, the terms and conditions for MegaLink ISDN service specified herein apply in addition to the terms and conditions set forth in Section B2.
- E.** MegaLink ISDN service is provided within a LATA from wire centers where appropriate ISDN facilities are available as determined by the Company. In addition, when exchange services are desired, wire centers must offer usage based pricing. Service inquiries will be necessary to determine availability. Special Construction charges will apply as specified in B7.1.

B107. OBSOLETE SERVICE OFFERING - DIGITAL NETWORK SERVICE**B107.5 MegaLink ISDN Service (Cont'd)****B107.5.2 Terms and Conditions**

- B.** The Company shall not be responsible if changes in any of the equipment, operations, or procedures of the Company utilized in the provision of Primary Rate MegaLink ISDN service render any facilities provided by the customer obsolete or require modification or alteration of such equipment or system or otherwise affect its use or performance.
- C.** Digital transmission rates at speeds less than those indicated may be accomplished as a function of the particular CPE furnished by the user.
- D.** Suspension of service is not allowed.
- E.** Terms and conditions for Allowance of Interruptions apply as specified in Section A2. of the General Exchange Guidebook and Section B2.
- F.** Minimum subscription period for which month-to-month Primary Rate services are furnished and for which charges are applicable is one month.
- G.** In addition to month-to-month rates, MegaLink ISDN service is available under contractual rate periods based on lengths of twenty-four to forty-eight months, forty-nine to seventy-two months, or seventy-three to ninety-six months.
- H.** Local exchange services utilizing the MegaLink ISDN service Primary Rate Interface are only available with Network Access Service located in Section A3. of the General Exchange Guidebook.
- I.** WATS/800 services utilizing the MegaLink ISDN service Primary Rate Interface are available in Section A19. of the General Exchange Guidebook.
- J. (DELETED)**
- K.** Upgrades, from a MegaLink service and/or a MegaLink channel service contract arrangement, are permitted with no Termination Liability charges when:
 - 1. a new contract is selected for the MegaLink service equal to or greater than the arrangement being terminated, and
 - 2. the service orders to disconnect the MegaLink service and/or the MegaLink channel service arrangement and to install the MegaLink ISDN service are related together and received by the Company at the same time with no lapse of service.
- L.** Telephone numbers transmitted via the Optional Incoming Call Identification feature are intended solely for the use of the MegaLink ISDN service subscriber. Resale of this information is prohibited by this Guidebook, except the callers' numbers may be provided to the subscriber's client for those calls sponsored or provided by that client where the client's identity is disclosed to the caller and the client agrees not to distribute such information to others.
- M.** Non-facility associated signaling (NFAS) provides the capability to serve multiple DS1's a single D-channel (NB+D). This feature can be ordered where switch capabilities exist as stipulated in the vendor technical documentation and where switch capacity exists. When NFAS is selected, the customer will order one MegaLink ISDN service arrangement with 23 B-channels and 1 D-channel. Additional MegaLink ISDN service arrangements are ordered with 24 B-channels at rates and charges provided in B107.5.6.D. The D-channel activated on the initial arrangement serves the additional MegaLink ISDN arrangements. If the customer desires, he may also request a back-up D-channel with the NFAS option (NB + 2D).

B107.5.5 Service Components

- A. The customer may choose any number of channels up to twenty-three per Primary Rate Access to be active with a corresponding number of services (e.g. inward/outward trunks, WATS Lines, 800 Service) selected. The customer may also choose to have more services selected than channels available for specific applications. The total number of communication paths may not exceed the number of channels subscribed.
- B. The required components for MegaLink ISDN service will be as follows:
 - Primary Rate Access Line
 - Primary Rate Interface
 - Primary Rate Channels
 - Call-by-Call/Integrated Service Access Feature Capability
 - Network Access and Usage Charges where applicable

 2. Interoffice Channels - will provide for the transmission facilities between Company serving wire centers within a LATA
 3. Primary Rate Interface - provides multiplexing to support up to twenty-three B channels at 64 Kbps and one D channel for signaling also at 64 Kbps. When Non-Facility Associated Signaling (NFAS) is ordered, the Primary Rate Interface can provide up to twenty-four B-channels at 64 Kbps.
 4. Primary Rate B Channels - will provide a usage sensitive circuit switched service that will allow either voice or data transmission at up to 64 Kbps.
 - a. Monthly rates for Primary Rate B Channels will be billed for local exchange service in accordance with Network Access Service (NAS) rates and charges found in Section A3. of the General *Exchange Guidebook* for all ISDN and non-ISDN facilities terminated at the same premises. Primary rate channels associated with this option are designated as NAS Channels in B7.5.6.D.
 - b. Voice calls may be completed to both ISDN and non-ISDN lines.
 - c. Data Transmission on the B channel will be circuit switched at 64 Kbps within the switch and between ISDN compatible central offices. ISDN interconnection to non-ISDN equipped central offices may be potentially subjected to analog transmission or sub-rated to 56 Kbps.
 - d. The customer may choose to subscribe to additional non-exchange based services. Initial choices for these services will be WATS and 800 Service. The subscription to these services is in addition to the charges for MegaLink ISDN
 5. Call-by-Call/Integrated Service Access Feature Capability - This feature will allow the customer to dynamically allocate the use of channels for the Primary Rate Access service. The customer may also choose voice or data transmission on a per call basis. In addition, the customer may also choose to subscribe to more services than channels and dynamically change the services in use.
 6. Network Access and Usage Charges - Network Access for Primary Rate Access is based upon the type of service the customer desires. Exchange access is provided through the use of Network Access Service found in Section A3. of the General *Exchange Guidebook*. Customers electing WATS or 800 service will obtain service access in Section A19. of the General *Exchange Guidebook*.
