

**OPTIONAL CALLING PLAN****A. Extended Community Saver**

1. This option provides for one-way originating calling to a designated exchange or zone consisting of a single toll rate center located within a 41 mile radius of the originating exchange or zone. Calling under this option would be limited to the target exchange or zone and would not include exchanges or zones having EAS to or from the target exchange or zone. Each LEC will have the option of determining 1 or 2 designated scopes (extended communities). Those LEC's that determine 2 designated scopes will offer the customer the option to choose one of the two designated scopes as their extended community.

For the purpose of this paragraph A.1., "extended community" includes all extended communities listed in part *E.*, following and any calling point listed in Part 9, Section 3, *E.*, unless that calling point is a designated reciprocal route.
