CONTINUOUS PROPERTY

1. Continuous Property is land which is

- (a) wholly owned by a single individual or entity, regardless of whether the owner leases¹ all or a portion(s) of the property to another and
- (b) which contains, or will contain, multiple buildings where all portions of the property may be served without crossing a public thoroughfare² or the property of another.

2. There are three basic types of Continuous Properties:

- (a) Single-tenant commercial in which one owner or tenant occupies all buildings.
- (b) Mixed commercial and residential (e.g., buildings with both commercial and residential space or campus-type configurations such as colleges and military bases) in which a mixture of business and residential uses exists.
- (c) Multi-tenant commercial and/or residential in which several tenants occupy a building individually on a per-floor or per-section basis.

Single-family homes and properties within which a portion(s) of the land is owned by separate entities and a portion(s) is owned by the entities in common³ do not constitute Continuous Property.

NOTE 1: The property retains its character as Continuous Property regardless of whether the owner or a lessee (who wholly leases the property from the owner) sublets a portion(s) of the property to another, e.g., apartment buildings or complexes. Condominiums also are Continuous Property.

NOTE 2: For the purpose of Continuous Property, a "public thoroughfare" is a street, road or other means of passage across property which is not subject to restrictions on ingress, egress or boundaries.

NOTE 3: Such as townhomes and homes in gated communities.

A completed call or telephonic communication between a calling station and any other station within the local service area of the calling station.

LOCAL LOOP DEMARCATION POINT (SEE SCHEDULE CAL.P.U.C. NO. A2.1.20.)

The physical location that separates the responsibility for installation and repair of telecommunications facilities between the Company, building/property owner/landlord/agent, and the end-user customer. The local loop demarcation point is generally located at the first point of entry to a single or multi-story building and includes the main entrance facility. The Company is responsible for the installation and maintenance of its facilities up to and including those located at the Company 's local loop demarcation point. This point may also be referred to as the Minimum Point of Entry (MPOE) or the Minimum Point of Presence (MPOP). Installation and maintenance of facilities and equipment beyond the Company 's local loop demarcation point is the responsibility of the building/property owner/landlord/agent, or end-user customer. Where a local loop demarcation point lacks sufficient power and/or space to support provisioning of new service, such service will be provisioned as close as practicable to the existing demarcation point.

A. GENERAL

1. Applications for service covered by the filed schedule of rates will be accepted by the Company. An applicant for service agrees to pay all exchange, toll and other charges against such service made in accordance with the provisions of the tariffs and Guidebook.
2. Applicant(s) will be required to provide their legal surname(s), middle name(s) or initial(s) and first name(s). The information may be verified by the Company. The application will be considered complete (unless otherwise specified in Schedule Cal.P.U.C. No. A2.1.3) when at least one of the following valid identification items has been provided by the applicant(s):
 - a. California Driver's License number.
 - b. California Identification Card number.
 - c. Social Security Card number.
 - d. Immigration and Naturalization Service Identification number.
 - e. United States passport number.
 - f. Other item of identification acceptable to the Company.

The Company may request the applicant(s) to voluntarily provide their Social Security number for identification purposes. Refusal to provide this will not result in denial of service. Prior to the request for identification information, the Company will inform each applicant that (1) provision of their Social Security Number (SSN) is strictly voluntary; if the applicant voluntarily provides the SSN without even being asked to do so, the following two points need not be covered. Otherwise, the Company will inform the applicant that (2) if another acceptable item of identification is provided, their application cannot be denied because they choose not to provide their SSN; and (3) no record will be made of their choice not to provide their SSN.

The Company may request an applicant(s) to visit an approved agency location for the purpose of completing a service application and/or to provide approved picture identification as designed by the Company.

A. GENERAL (Cont'd)

3. The Company shall require each applicant for election service, and may require each other applicant, to sign an application for the service desired, on a filed form provided by the Company, as a condition precedent to the initial establishment of such service.

For nonelection services, the Company may utilize an "on line" authorization service for verifying changes or additions to listings as they are to appear in the Company's telephone directory.

4. The Company will generally accept oral application(s) from a customer for new service, transfers of service, additions to or changes in the existing service of such customer during normal business hours, except that third party authorization will be required where joint user service or directory listings in connection with business service are requested.

5. Customers shall notify the Company when they re-terminate service that is on their side of the demarcation point to another part of a building or to another building on continuous property. Once notified, the Company will update the customer's directory listing. Charges as set forth in Guidebook Part 3, Section 1 shall apply.

6. In order to prevent the fraudulent establishment of business telephone service, the Company may request an applicant for business service to provide proof of doing business at the service location and/or permission from the property owner for the applicant to establish a business telephone service at the location.

7. In addition to the regulations contained in A., herein, the following applies to OPT-E-MAN, Customized Switched Metro Ethernet (CSME) Service², Centrex, Electronic Information Services, Inside Wire Repair Services, Integrated Pathway Service, Message Telecommunications Service, Operator and Directory Services, Pacific Bell/ SBC Calling Service, Remote LAN (Local Area Network) Service, Toll-Free Services and Voice-Based Information Services¹, AT&T Switched Ethernet Service^{SM3} and NG 9-1-1 High Capacity Service³: (N)

A. GENERAL (Cont'd)

8. An application is merely a request for service and by itself does not (T)
bind the Company to provide service except under reasonable conditions, (T)
or bind the applicant to take service.

9. An application for service that extends into high voltage environments, (T)
such as power generating stations, co-generating stations, substations,
and switchyards, may require special high voltage protection equipment as
set forth in Guidebook, Part 8-Section 8 and Part 2, Section 7, to
protect against the effects of Ground Potential Rise (GPR) and/or
induction caused by faults in the customer's electric power system.

As a condition of service, the applicant for such service shall provide
the Company, in writing, the technical data needed to determine the (T)
special protection requirements as set forth under Regulations in (D)
Guidebook Part 8, Section 8 and Part 2, Section 7 at the time of (T)
application for initial service or where additions or changes are made to (T)
existing service. (T)

B. APPLICATION CANCELLED, MODIFIED OR DEFERRED BY CUSTOMER OR APPLICANT

When an applicant/customer cancels, modifies or defers an order for service
or facilities before the service is connected, a charge applies to allow
the Company to recover the nonrecoverable costs of engineering, labor, (T)
material, equipment and other related expenses. The applicant/customer
must be notified in writing at the time the initial order is taken that
should the applicant/customer cancel, modify or delay the order, charges
will apply.

Unless otherwise provided, the following conditions apply to applications
for exchange, intrastate private line and other special services such as:
IOD, Farmer Line, Billing Services, etc., except service and facilities as
set forth in A2.1.13, A2.1.15¹, A2.1.16² and A2.1.32 of this schedule and (T)

1. Cancellation or modification by an applicant/customer of an application
for new or additional service, equipment or facilities.

a. Prior to "start of installation" (as defined in Schedule Cal.P.U.C. No.
A2.1.1): No charge.

b. Between start and completion of installation:

Charge the estimated cost incurred less the estimated net salvage value,
not to exceed the total regular nonrecurring charges, including
termination charges, applicable to the entire service, equipment and
facilities ordered.

c. After completion of installation but prior to connection for service:

Charge the sum of the charges applicable as if the items involved were
actually connected for service and immediately ordered disconnected,
including:

1) All regularly applicable service connection and nonrecurring charges
and

(2) All regularly applicable basic termination charges in full, and

(3) All regularly applicable minimum service charges, and

(4) Such other amounts as may be specified in the schedules covering the
items involved, and

(5) Such other amounts that were incurred as a result of expedited orders,
or as a result of the cancellation, modification or deferral at the
applicant/customer's request, and

(6) Such charges, as set forth for tariffed services in Schedule Cal.P.U.C. (N)
No. A2.1.36 Special Construction of Exchange Facilities.¹ (T)
For detariffed services, see Guidebook, Part 2, Section 5. (N)

d. In the case of modification, charges for the subsequent order are in
addition to the charges for costs incurred before the customer/applicant
changed the original order.

D. SPECIAL CONSTRUCTION OF FACILITIES

Where special (or in some cases, regular) construction of facilities is required to provide the requested services, construction charges may apply. The regulations under which charges are applicable for tariffed services are specified in Schedule Cal.P.U.C. Nos. A2.1.13 Temporary Service¹; A2.1.15 Line Extensions¹; A2.1.16 Service Connection Facilities¹; A2.1.36 Special Construction of Exchange Facilities; A2.1.32 Replacement of Aerial With Underground Facilities; and Guidebook, Part 4, Section 5 for Line Extensions in Suburban Areas; and Schedule Cal.P.U.C. No. B2 for Private Line Services. (N)

When the required facilities are not available and the Company constructs temporary underground facilities to provide service for the period during which the permanent facilities are under construction, at the request of the applicant or customer, provisions of Schedule Cal.P.U.C. No. A2.1.15, I. General, Paragraph 10. and/or A2.1.16, Part 1, A. General, Paragraph J; are applicable. (T)

When special construction is required to provide temporary service¹ or speculative projects and risk services¹ conditions outlined in Schedule Cal.P.U.C. No. A2.1.6 apply in addition to A2.1.15 and A2.1.16.

Unless otherwise provided, when orders for special construction of facilities are cancelled, modified or deferred Schedule Cal.P.U.C. No. A2.2.1.3.B. is applicable.

1. Income Tax

Contributions in Aid of Construction have been made taxable to the Company by the Tax Reform Act of 1986 for Federal purposes and conformed to by the Franchise Tax Board for purposes of California Corporate Franchise Tax. Therefore, the Company shall bill an additional fee to the customer to cover the cost of additional income taxes that have resulted from payments that defray the cost of construction, other contributions, and the fair market value of property contributions received in aid of construction, and the prior nonrecurring rates which will remain in effect. 2. Definitions

a. Contributions: Contributions shall include, but are not limited to, cash, services, facilities, labor property, and income taxes there on provided by a person or agency to the Company. The value of all contributions shall be based on the Company's estimates. Contributions shall consist of two components for purposes of recording transactions as follows:

- (1) Income Tax Component of Contribution (ITCC), and
- (2) The balance of the contribution, excluding income taxes (Balance of Contribution).

b. Government Agency: For the purposes of administration a government agency shall include a Federal, California state, county, or local government agency.

c. Public Benefit: Where, in the opinion of the Company, a benefit to the public as a whole is clearly shown by the government agency making the Contribution for a project.

3. Determination of ITCC:

- a. The ITCC shall be calculated by multiplying the Balance of the Contribution by the tax factor of 0.23 (23%) beginning September 6, 2017, (C) through December 31, 2018. Beginning January 1, 2019, the tax factor of 0.26 (26%) shall be calculated. The tax factor from June 1, 2013, through September 5, 2017, was 0.21 (21%). (C)

The Company will file an advice letter to reflect any changes in the tax factor which would cause an increase or decrease of five percentage points or more.

- b. The tax factor is established by using Method 5 as set forth in Decision No. 87-09-026 and modified by Decision No. 87-12-028 in OII 86-11-019. The formula used to compute Method 5 includes the following factors:

- (1) Corporate Tax rate of 35%, California Corporate Franchise Tax rate of 8.84%, and the effect of deducting state income taxes on the Federal Income Tax Return of 3.09%.
- (2) A discount rate of 12% and a pre-tax rate of return of 18% for 1987 and 17% for 1988 and forward.

5. State Taxes: Should any California state tax be imposed on Contributions in aid of Construction or other Contributions, it shall be collected in accordance with Ordering Paragraph 6 of Decision No. 87-09-026.

6. Internal Revenue Service: The Company shall recover through rates and penalties, interest, or taxes incurred if the Internal Revenue Service deems the method of tax collection authorized by Decision No. 87-09-026 a violation of the tax normalization rules and imposes additional taxes, penalties and interest. (T)

7. Government Agencies: The Company may accept a contractual promise to pay the ITCC, including interest thereon, (using an agreement form filed with and approved by the Commission) from a government agency required to make a Contribution pursuant to the tariffs or Guidebook where its project: (N)

a. Provides public benefit as defined above, or

- b. Results from condemnation of the Company's facilities, or the threat or imminence thereof, which is supported by evidence provided by the government agency which is acceptable to the Company. (T)

Unless a determination acceptable to the Company is issued by the Internal Revenue Service (IRS) that there is no tax liability to the Company on the Contribution for which the promise to pay was made, the ITCC, including interest thereon, shall be due and payable no later than September 10, 1989. If the IRS makes a determination that the Contribution (or a contribution of that type) is taxable prior to September 10, 1989, the payment becomes due at that time. (T)

The government agency shall also pay, upon the Company's demand, any expense associated with, or incurred by the Company related to the promise to pay, such as, but not limited to, administrative and legal costs and/or IRS penalties. (T)

In the event that the Company sustains a loss due to failure of a government agency to pay an ITCC and Interest pursuant to a contractual promise to pay, such a loss may be recovered in rates by using method 3 as set forth in Decision No. 87-09-026. (T)

D. PAYMENT OF BILLS

Bills are due and payable on date of presentation, including closing bills, special bills, bills rendered on vacation of premises or bills rendered to persons discontinuing exchange service.

Payment of bills for telephone service shall be made by mail or at an authorized payment location of the Company. Regular business hours at the Company's payment processing centers, which receives mailed payments, are Monday through Friday, 9:00 a.m. to 4:00 p.m. (Central Time). Payments received by the Company after regular business hours will be credited to the customer's account as of the following business day. Electronic and credit card payments are processed out of the Company's corporate datacenters in St. Louis, MO and Dallas, TX and are processed until 4:00 p.m. daily (Central Time). Payments received after 4:00 p.m. (Central Time) are credited the following business day. (T)

All charges for exchange and toll services are payable only in lawful money of the United States, by checks drawn or payable from United States banks or checks preprinted in U.S. dollars from Canadian Banks, authorized credit cards, debit cards, authorized Gift Certificates, or AT&T accepted digital cryptocurrencies¹ that are converted to and posted to AT&T accounts in U.S. dollars. (T) (T) (N)

Customers who choose to use cryptocurrency authorized by AT&T where that option appears as a payment option to pay AT&T billed service charges on their myAT&T (online) account, must accept user terms for the service, including any fees or charges associated with the cryptocurrency. (N)

A Returned Check Charge, as set forth in Guidebook, Part 3, Section 1. is applicable to each check, which is dishonored for any reason when used as a payment, deposit or advance payment.

NOTE 1: Cryptocurrency generally refers to a digital representation of value that functions as an electronic medium of exchange, a unit of account, or stored value that has an equivalent value in U.S. currency and that can be used to pay for goods and services, but does not have legal tender status in the U.S. (N)

NOTE 2: Credits and debits posted to AT&T accounts will be in U.S. Dollars. Automatic payment option is not available with cryptocurrencies. (N)

Late payment Charge - Also see Definition of Terms as shown in Schedule (L)
Cal.P.U.C. No. A2.1.1.

A Late Payment Charge as set forth in the Guidebook, Part 3, Section 1. is applicable if payment is not received at the Company or one of its authorized payment locations by the date shown in the bottom portion of the bill in the "LATE: After" section. The late payment charge date will not be less than twenty-two (22) days from the date the bill is mailed by the Company. When a customer claims that the late payment charge date was less than twenty-two (22) days from the date of mailing, the Company will research and determine the actual date of mailing from its internal records. If the late payment date printed on the bill is less than twenty-two (22) days from the date of mailing, the customer will be allowed at least twenty-two (22) days from the date of actual mailing in which to make payment before a late payment charge is imposed.

NOTE 1: If a late payment charge appears on a customer's bill even though the payment was received by the Company or an authorized payment location prior to or on the late payment date, the charge will be reversed and a credit will appear on the customer's next bill. This provision may be applicable to payments that are received but cannot be processed in a timely manner due to the lack of customer information being submitted with the payment. (L)

D. PAYMENT OF BILLS (Cont'd)

(L)

Upon notification of disputed charges on the bill, the Company will temporarily suspend the application of the late payment charge to the disputed portions of the bill that are unpaid. If the Company resolves the billing dispute in favor of the customer, no late payment charge will apply to the disputed amount. If the Company resolves the billing dispute in favor of the Company and payment of the disputed amount has been withheld, the Company will notify the customer and payment of the disputed amount is due by the due date of the next rendered bill. Failure to pay the disputed amount will result in a late payment charge being assessed as set forth in this tariff.

In the event the Company determines that the customer's billing claim was made in bad faith, the Company reserves the right to reinstate any appropriate late payment charge from the original late payment charge date.

Except as otherwise provided, service connection, in place connection, installation and nonrecurring charges are payable at the time application for the particular service and equipment is made. Charges for moves and changes are billed upon completion of the work. See Advance Payments in Schedule Cal.P.U.C. No. A2.1.7.

2.1.9 RULE NO. 9 - RENDERING AND PAYMENT OF BILLS (Cont'd)

E. PRORATING OF BILLS

For the purpose of administering this Rule with respect to the determination of charges for a fractional part of a month, every month is considered to have thirty (30) days.

1. Monthly Bills

Opening and closing bills, except those involving the minimum billing period, and monthly bills for telephone service normally furnished on a monthly basis, rendered for periods in excess of or less than a billing month, will be prorated on the basis of the number of days in the period in question to thirty (30) days in the billing month. In the case of measured rate service, the local message unit allowance or Zone Usage Measurement Service allowance for a fraction of a month will also be prorated as above.

2. Annual Bills

Bills for telephone service normally furnished on an annual basis, rendered for periods of less than one year will be prorated on the basis of one-twelfth of the annual rate for each full month of service and for a fractional portion of a month on the same basis as for monthly billing.

3. Basic Termination Charges

If at any time during the specified period following the installation of equipment subject to a basic termination charge, such equipment is disconnected as a result of a request of the customer or disconnection of the customer's telephone service in accordance with Company's applicable (T) tariff or Guidebook rules, the customer shall pay to the Company, upon (N) demand, the basic termination charge specified for said equipment, less a credit for each full month between the date on which said equipment was installed and the date on which it was so disconnected. For the purposes of computing basic termination charges, the last equipment installed shall be considered to be the first equipment removed.

Basic termination charges for fractional portions of a month shall be prorated on the same basis as for monthly billing.

H. CREDIT CARD BILLING

1. Payment with an authorized credit card is conditional.

If all or any portion of an amount to be paid by an authorized credit card of an applicant or customer is not honored, the Company may bill the unpaid amount to the applicant's subsequent service or to the customer's present service. Such applicant or customer shall be deemed to have consented to such billing. Nonpayment of the amount so billed shall constitute nonpayment of the monthly telephone bill and will be subject to the provision for discontinuance of service as set forth in Schedule Cal.P.U.C. No. A2.1.11.

2. If all or any portion of an amount paid with an authorized credit card must be refunded by the Company, such refund may be made at the Company's option by check or draft, as credit on the customer's monthly telephone bill or as credit to the credit card account. See M., following (N) for refunds on final bills. (N)

I. UNDER AND OVERCHARGES

1. A bill shall not include any previously unbilled charge for exchange service furnished prior to three months immediately preceding the date of the bill.

2. A detailed statement showing each item comprising a total charge on a monthly bill will be furnished to business customers upon request.

3. A bill shall not include any charges for service, equipment, or facilities not ordered by the customer or furnished after the effective date of a customer's service discontinuance.

4. When discrepancies exist between customer's service and Company's billing for exchange service, such discrepancies shall be adjusted in accordance with the following:

a. Each item of overcharge (except those covered in 3. above) and each item of undercharge shall be determined separately during the period of time the discrepancy occurred.

b. If the discrepancy results in overcharges, the overcharged amount shall be credited to the customer's bill.

with the following: (Cont'd)

c. If the discrepancy results in undercharges, the customer will be billed
the lesser of:

(1) The total net undercharge or

(2) Monthly net undercharge for a period of three months preceding the
date of the bill.

d. Separate adjustments shall be made for each class of service separately
served and billed.

5. The correctness of message toll billing shall be determined separately for
each toll message. Each overcharged message shall be credited to a
customer's bill. A bill shall not include any charges for service
furnished prior to three months preceding the date of the bill; except, a
bill may include charges for collect, calling card and third number
calls placed within a period of five months preceding the date of the
bill.

6. Overcharge Penalty¹

a. Where a customer disputes a current bill or bills dated one month
immediately preceding the date of the current bill, the Company will (T)
apply a monthly 1.5% overcharge credit to the overcharged amount at the
time the amount appears as a credit or is refunded pursuant to b.
following, provided each of the following conditions is met:

(1) The overcharge amount is subject to a Late Payment Charge as set forth
in Schedule Cal.P.U.C. No. A2.1.9 and Guidebook Part 3, Section 1; (N)

(2) The customer pays the total amount of the disputed bill;

and

(3) The dispute is resolved in favor of the customer.

b. The Overcharge Penalty shall be credited to the customer's account,
unless the customer requests that it be remitted by check. The customer
shall be informed of this option promptly upon recognition of the error.

to A., following.

For Asynchronous Transfer Mode (ATM) Service and Frame Relay Service,
see AT&T Guidebook, Part 2, Section 2, Rule No. 10. (N)

A. DISPUTED BILLS

In case of a dispute between the customer and the Company as to the correct amount of a bill rendered by the Company for service furnished to the customer, which cannot be adjusted with mutual satisfaction, the customer can make the following arrangements:

1. First, the customer may make a request, and the Company will comply with the request, for an investigation and review of the disputed amount. The Company will reach a determination and communicate it to the customer within 30 days. During the pending investigation, no late charges or penalties may be collected on the disputed amount. The disputed amount may not be sent to collection and no adverse credit report may be made based on non-payment of the disputed amount.
2. The undisputed portion of the bill and subsequent bills, other than the disputed amount, must be paid by the Due By Date shown on the bill or the service will be subject to disconnection if the Company has notified the customer by written notice of such delinquency and impending termination at least 7 calendar days prior to the proposed termination as set forth in Schedule Cal.P.U.C. No. A2.1.11.
3. If there is still disagreement about the disputed amount after the investigation and review by a manager of the Company, the customer may appeal to the CPUC for their investigation and decision. To avoid disconnection of service, the customer must submit the claim and, if the bill has not been paid, deposit the amount in dispute with the CPUC within 7 calendar days after the date the Company notifies the customer that the investigation and review are completed and that such deposit must be made or service will be interrupted. However, the service will not be disconnected prior to the Due By Date shown on the bill. The amount in dispute must be deposited with the Commission in the form either of U.S. currency, or a check or money order made payable to the Commission.
4. The Company will not disconnect the customer's service for nonpayment as long as the customer complies with 2. and 3. preceding.

During the time any Commission review is pending, no late charges or penalties may be collected on the disputed amount. The disputed amount may not be sent to collection, and no adverse credit report may be made based on non-payment of the disputed amount. (T)
6. After the investigation and review are completed by the Company and the customer elects not to deposit the amount in dispute with the Commission, such amount becomes due and payable at once. In order to avoid disconnection of service, such amount must be paid within 7 calendar days after the date the Company notifies the customer that the investigation and review are completed and that such payment must be made or service will be interrupted. j. Prior Customer Disconnected for Nonpayment of Bills

(1) Residence Service¹

The Company may not discontinue existing service or deny requests for new service at an address where services provided to a prior residence or business customer were disconnected for nonpayment, except where it is found that the delinquent customer still occupies that same address. (Except as provided in Paragraph 5. following.) (T)

The Company may require a written statement from a newly connecting customer stating that the former customer no longer occupies this address, provided: (T)

- (a) There have been at least two terminations of service at the same address, within the preceding twelve (12) months, without full payment of delinquent bills, or

- (b) The Company secures evidence from an external source that a fraudulent pattern of nonpayment is probable. (T)

In the event that the statement is falsified, the new customer will be held liable for the entire delinquent bill owed the Company by the previous customer and shall also be liable for a deposit. (T)

NOTE 1: Service shall not be partially, temporarily or permanently discontinued except upon written notification of at least seven (7) days. See other applicable notice requirements in D. following.

5. Fraud (Cont'd)

c. Reasons for refusal, suspension, discontinuance, or restriction of service due to fraud may include, but are not limited to, the following:

- Abuse or fraudulent use of the telephone service or service arrangements.
- The fraudulent use of another's identity.
- The furnishing of false credit information, including but not limited to, using a false billing name to establish telephone service.
- Providing false information regarding the applicant's identity, address, credit worthiness, past or current use of communications services or its planned use of the services.
- Use of any fraudulent means or device whatsoever.

d. The Company will attempt to contact the customer by telephone prior to toll restricting, suspending, or discontinuing their service or service arrangements due to suspected fraud. If the Company is unable to reach the customer by telephone, a letter will be mailed to the customer on the same date their service or service arrangement is toll restricted, suspended, or discontinued explaining the reasons for such action and their right to dispute such action in accordance with Schedule Cal.P.U.C. No. A2.1.10, preceding. (T)

The toll restriction, suspension, or discontinuance of service may be rescinded if the customer meets the criteria set forth by the Company's Fraud Center, including validation of identification (e.g., proof of business documentation), brings the account current and if applicable pays a security deposit as provided by Schedule Cal.P.U.C. 5. Fraud (Cont'd)

- e. Regardless of the class of service, a business or residence service or service arrangement may be disconnected without prior notice if the Company finds that the previous service was disconnected for fraud and the same individual still resides at or occupies the premises. Proof of business documentation, customer identification, and payment of the outstanding debt and a security deposit in accordance with Schedule Cal.P.U.C. No. A2.1.7,B, preceding, may be required to rescind the action of the Company. This provision will not apply to existing services billed to other customers at the location, when the existing services have run concurrently with the fraudulent service, unless the existing services are part of the fraudulent service. (T)
- f. If the customer's service or service arrangement is discontinued, the customer will continue to have access to 911 (Emergency Service) to the extent permitted by existing technology or facilities and where such access would not preclude providing service to subscribers of residential telephone service. (T)

The customer will continue to receive dial tone but attempts to place calls to any seven digit, area code + seven digit, 1 + area code + seven digit or 0 + area code + seven digit telephone number will be prohibited.

- g. The Company will take the following safeguards to ensure that a service or service arrangement is appropriately discontinued: (T)
- Ascertain the validity of the customer's identity.
 - Verify the credit information used to establish the account.
 - Confirm the customer's payment history.
 - Review the customer's calling patterns and compare them to known fraudulent patterns. Examples of calling patterns include:
 - the volume of calls,
 - the methods used to place and receive calls,
 - the destination of the calls
 - the duration of the calls and
 - use of service arrangements.

12. Impairment of Service

- a. If a customer uses their service or equipment in connection with a plan which causes an unusually large volume of calls to be made to such customer at or about the same time with the result that the service to others is interfered with, the Company will notify in writing said (T) customer of the problem and the customer shall then take action to modify such plan so that the problem will be eliminated, or the customer may subscribe to such additional service and equipment as necessary to handle the unusual volume of calls. Such notice shall indicate the customer's right to submit the matter to the Public Utilities Commission for review. Should the customer not take remedial action within five (5) days, and a second impaired service condition arises, the Company may discontinue the (T) service without further notice. A service may be discontinued without advance notice if the plan creates a call blockage in a Company switching (T) office resulting in preventing, obstructing or delaying the telephone service of others.
- b. The Company has the right to refuse telephone service to any premises and (T) at any time to discontinue telephone service, if it finds it necessary to do so to protect itself against intentional abuse. Intentional abuse of service includes, without limiting the generality of the foregoing; the use of service or facilities of the Company to transmit a message or to (T) locate a person or otherwise to give or obtain information, without payment of a message toll charge or an exchange service charge. Another form of such abuse is an intentional uninterrupted connection of one exchange station to another station, excluding those connections charged for on an elapsed time basis, which permits the use of the facilities in a manner similar to private line service. It also includes intentional receiver off hook conditions.

13. Discontinuance of Services Terminating on Equipment Furnished to Another Customer.

When a customer, whose service includes equipment on which other customer services terminate, has been given notice of permanent discontinuance of service, such other customers shall be notified of the possible cessation of their service arrangements not less than three days prior to actual discontinuance of such service.

1. An Automatic Dialing-Announcing Device (ADAD) is any automatic terminal equipment which incorporates the following features:¹

a. (1) Storage capability of numbers to be called, or

(2) A random or sequential number generator that produces numbers to be called; and

(3) An ability to dial a call; and

b. Has the capability, working alone or in conjunction with other equipment, of disseminating a prerecorded message to the number called.

2. An ADAD may not be operated while connected to the telephone network, except under the following conditions:

a. An ADAD may be used pursuant to a prior agreement from the called party that they desire to receive such telephone communication; or

b. An ADAD may be used to contact a person who is an established business associate, customer, or other persons having an established relationship with the person using the ADAD to transmit the message; or

c. An ADAD may be used if the recorded message is preceded by an announcement made by a human operator who:

(1) States the nature and length in minutes of the recorded message; and

(2) Identifies by name the individual, business, group, or organization calling including address and telephone number; and

(3) Asks the called party whether they are willing to listen to the recorded message; and

(4) Disconnects from the called party's line if the called party is unwilling to listen to the recorded message.

d. An ADAD shall only be operated between the hours of 9:00 a.m. and 9:00 p.m. (unless it is being used consistent with paragraph b. above)

3. Before an ADAD may be operated while connected to the telephone network, the potential user of such device shall notify the telephone Company in writing of the intended use of the ADAD equipment. The written notice shall contain a statement of the calendar days and clock hours during which the ADAD(s) will be used and include an estimate of the expected traffic volume in terms of message attempts per hour and average length of completed message. (T)

The telephone Company shall review the statement of intended use of ADAD equipment to determine whether there is a reasonable probability that use of the equipment will cause overload of the Company's facilities. If the Company finds that a reasonable probability exists that the ADAD operation will overload its network, the Company may refuse to provide connections for the ADAD(s) or provide them subject to conditions necessary to prevent an overload. (T)

If, after service has been established, it is determined that the volume of calling originated by the ADAD is degrading the service furnished to others below the standard level set forth in General Order No. 133 of the California Public Utilities Commission, the Company may discontinue the service after five days' notice to the customer. If use of the ADAD creates a call blockage in a telephone company switching office, the Company may disconnect the service with no prior notice. (T)

The telephone customer who uses ADAD equipment shall notify the Company in writing within 30 days of any changes in the ADAD operation which result in either an increase or decrease in traffic volume. (T)

No ADAD shall be connected to the network until the telephone Company has determined that the equipment can effectively preclude calls to any number or series of telephone numbers on a list of telephone subscribers who may be in the future designated by the Company, by regulation or by statute, as customers who are not to receive ADAD calls. (T)

4. The telephone Company may discontinue the telephone service of any customer who uses an ADAD in violation of the provisions of this rule provided that the customer is given five days' notice or with no prior notice if use of the ADAD creates a call blockage in a telephone company switching office. D. NOTICE TO CUSTOMER

Except as provided by these rules or regulations, the Company will not (T)
partially, temporarily or permanently discontinue telephone service to any
customer except upon written notice of at least 5 days, advising the
customer of the intention to discontinue, the reasons for the
discontinuance, and the steps which must be taken to avoid discontinuance.
Such notice shall also advise the customer of the provisions of Schedule

The rates and charges billed by and paid to the Company for telephone service shall be the rates and charges legally in effect and on file with the Public Utilities Commission of the State of California. Schedules of rates and charges for services in effect in a particular territory will be kept at all times at a point within that territory where such schedules will be available for public inspection during regular business office hours.

Before the Company's customer service representative offers a bundle to a customer requesting new telephone service, the Company's customer service representative shall explain to the customer the difference between flat rate service and measured rate service and shall disclose to the customer the monthly charges for flat-rate and measured rate stand-alone telephone service, except where the customer specifically calls to inquire only about bundles or affiliate services.

The Company, or its authorized employees, must provide each new applicant requesting new telephone service at the time application for service is made, with a full explanation of California LifeLine.

The Company shall provide a quotation of the applicable recurring rates and non-recurring charges applicable to each service designated by the customer.

The Company shall post on its website an explanation of the difference between flat rate service and measured rate service and the monthly charges for flat rate and measured rate stand-alone services. Such information shall be on the same web page as the descriptions of the Company's bundled service offering and shall be displayed no less prominently than the bundled service offering descriptions.

For Asynchronous Transfer Mode (ATM) Service and Frame Relay Service, see AT&T Guidebook, Part 2, Section 2, Rule No. 13. (N)

A. GENERAL

1. The Company will, if no undue service impairment to its existing customers will result there from, furnish temporary service or services to speculative projects and risk services under the following conditions:

- a. The applicant shall pay in advance or otherwise as required by the Company, estimated cost installed plus estimated cost of removal, less the estimated salvage of the equipment and facilities necessary for furnishing service.¹
- b. The applicant shall establish or reestablish credit as required by Schedule Cal.P.U.C. No. A.2.1.6, A.1 or A.3 except that the amount of deposit prescribed in Schedule Cal.P.U.C. No. A2.1.7,B.4 shall not exceed the estimated bill for the duration of service.

2. Change to Permanent Status²

- a. If temporary telephone service is provided to a customer on a continuous, intermittent or seasonal basis for a period of 36 consecutive months from the date telephone service was first provided under this rule, the service shall be classified as permanent and the payment made in excess of that required for permanent service or under Guidebook Part 4, Section 5 for permanent service shall be refunded. Speculative and risk services, as defined in A2.1.1 of this schedule, will not be changed to permanent status.
- b. If at any time the character of a customer's operation changes so that in the opinion of the Company the customer's service, excluding election service, may be classified as permanent, the amount of payment made in excess of that required for permanent service shall be refunded to the customer immediately.

2.1.14 RULE NO. 14 - LIMITATION OF LIABILITY

A. LIMITATIONS

1. The provisions of this rule do not apply to errors and omissions caused by willful misconduct, fraudulent conduct or violations of law.
2. In the event an error or omission is caused by the gross negligence of the Company, the liability of the Company shall be limited to and in no event exceed the sum of \$10,000. (T)
3. The Company will not provide a credit allowance for interruptions of service caused by the customer's facilities, equipment, or systems. (T)
4. Except as provided in A3. of this rule, the liability of the Company for damages arising out of mistakes, omissions, interruptions, delays, errors or defects in any of the services or facilities furnished by the Company up to and including its local loop demarcation point, including tariffed exchange, private line, supplemental equipment, alphabetical directory listings (excluding the use of bold face type) and all other tariffed services, shall in no event exceed an amount equal to the pro rata charges to the customer for the period during which the services or facilities are affected by the mistake, omission, interruption, delay, error or defect, provided, however, that where any mistake, omission, interruption, delay, error or defect in any one service or facility affects or diminishes the value of any other service said liability shall include such diminution, but in no event shall the liability exceed the total amount of the charges to the customer for all tariffed services or facilities for the period affected by the mistake, omission, interruption, delay, error or defect. (N)
5. Whenever commercial power or its equivalent is required to operate services or facilities provided by the Company at the customer's premises, the customer shall:
 - a. Furnish such power which shall be suitable for the purpose;
 - b. Provide and maintain all necessary power wiring and power outlets in a suitable location and in a safe fashion; and
 - c. Allow the Company access to the power supply, if necessary. (T)

In the event of a power failure, no allowance is made for interruption of service, and the Company shall not be held liable for such an interruption of service. Nor shall the Company be liable for any property damage or personal injury, or any other alleged damage or injury, caused by any customer-provided power supply, wiring, or power outlet. (T)

(2) Credit Allowances for Interruptions

For the purpose of determining the amount of allowance every month is considered to have 30 days and only those stations on the interrupted portions of a service shall be considered in determining the number of stations affected.

- An interruption credit allowance is determined by (i) calculating the Average Station Value for one full day [Average Station Value divided by 30 (days)]; (ii) multiplying the result of (i) by the "credit" as specified following then; (iii) multiplying the result of (ii) by the number of stations affected.

- Interruptions of 24 Hours or Less

Length of Interruption	Credit
Less than 30 minutes	None
30 minutes up to but not including 3 hours	1/10 day

For Remote LAN (Local Area Network) Service, Asynchronous Transfer Mode (ATM) Service and Frame Relay Service, see AT&T Guidebook, Part 2, Section 2, Rule No. 15.

A. GENERAL

1. Except as otherwise provided in these rules and as otherwise required by federal law for facilities placed on U.S. Government land, the Company will construct, own and maintain line extensions along dedicated streets and acceptable easements which can be obtained without charge or condition or condemnation.
2. Where the applicant requests a route or type of construction which is feasible but differs from that determined by the Company, the applicant will be required to pay the estimated additional cost involved.¹
3. In lieu of all or part of the payment in 2. above, the applicant may furnish such materials or perform such work as may be mutually agreed between the Company and the applicant. Upon acceptance by the Company, ownership of any material so furnished shall vest in the Company.¹
4. In suburban areas, charges beyond the free allowance of 300 feet of line extension facilities and 50 feet of service connection facilities apply as set forth in Guidebook Part 4, Section 5. (C)
5. Line extensions to serve temporary or speculative projects are subject to provisions of A2.1.13. (C)
6. Where its own operating conditions warrant, the Company will construct and maintain its facilities underground at its expense.

Only underground line extensions and service connections will be constructed to and within the following types of new subdivisions¹; or new real estate developments, i.e., projects which do not satisfy the density requirement for a subdivision: (See 8. and 9. following for exemptions to this requirement.) (L)

a. Five or more lots for single-family and/or multi-family dwellings; unless:

(1) The lots within the residential subdivision or real estate development existed as legally described parcels prior to May 5, 1970, and an agreement has been entered into prior to May 5, 1972, with the electric utility for aerial service; or (L)

(2) The minimum parcel size within the new residential subdivision or real estate development, identifiable by a map filed with the local governmental authority, is 3 acres and the applicant for the extension shows that all of the following conditions exist:

Local ordinances do not require underground construction.

Local ordinances or land use policies do not permit further division of the parcels involved so that parcel sizes less than 3 acres can be formed.

Local ordinances or deed restrictions do not allow more than one single-family dwelling or accommodation on each parcel, or any portion of a parcel, of less than 3 acres.

New aerial line extensions and service connections constructed to or within a residential subdivision or real estate development would not be in proximity to¹ and visible from¹ a designated scenic highway, state or national park, or other area determined by a governmental agency to be of unusual scenic interest to the general public.

Exceptional circumstances do not exist which in the Utility's opinion warrant the installation of underground line extension or service connection facilities. Whenever the Utility invokes this provision the circumstances shall be described promptly in a letter to the Commission, with a copy to the applicant for the extension.

unless:

(a) The lots within the residential subdivision or real estate
development existed as legally described parcels prior to May 5,
1970, and an agreement has been entered into prior to May 5, 1972,
with the electric Company for aerial service, or: (T)

(b) The minimum parcel size within the new residential subdivision or
real estate development, identifiable by a map filed with the local
governmental authority, is 3 acres and the applicant for the
extension shows that all of the following conditions exist:

Local ordinances do not require underground construction.

Local ordinances or land use policies do not permit further division of
the parcels involved so that parcel sizes less than 3 acres can be
formed.

Local ordinances or deed restrictions do not allow more than one
single-family dwelling or accommodation on each parcel, or any portion
of a parcel, of less than 3 acres.

New aerial service connections constructed to or within a residential
subdivision or real estate development would not be in proximity to¹
and visible from¹ a designated scenic highway, state or national park,
or other area determined by a governmental agency to be of unusual
scenic interest to the general public.

Exceptional circumstances do not exist which in the Company's opinion (T)
warrant the installation of underground service connection facilities.
Whenever the Company invokes this provision the circumstances shall be (T)
described promptly in a letter to the Commission, with a copy to the
applicant for the extension.

- k. The Company will determine serving arrangements for properties under development according to the intended use of the property immediately following completion of construction. Continuous property which is divided into parcels may be served as if the parcels were individually owned properties as follows: On commercial property, additional local loop demarcation points may be constructed at Company expense to each parcel or building on a parcel if the building is leased for a minimum of three years. The applicant must provide to the Company a copy of the lease or a notarized statement describing the term of the lease. If the same tenant leases other buildings on the parcels, requests for additional local loop demarcation points will be provided under Special Construction charges as set forth in Schedule Cal.P.U.C. No. A2.1.36. This rule provision does not apply to fiber, residential or agricultural property, tenant spaces within a commercial multi-story or multi-unit building, buildings on commercial continuous property that are currently served or were designed to be served through an existing Local Loop Demarcation Point on the property, or to property outside the Base Rate Area. (T)

Where the immediate intended use of parceled Continuous Property is not clear, the Company may provision each parcel under special construction arrangements. If, within three years after the special construction billing date, the subdivided properties have been sold or held under separate ownership, the Company will reimburse any special construction charges previously paid in connection with such properties. If the subdivided properties have not been sold or held under separate ownership within such three-year period, the Company will not reimburse any special construction charges previously paid in connection with such properties. (T)

Where a local loop demarcation point lacks sufficient power and/or space to support provisioning of new service, such service will be provisioned as close as practicable to the existing demarcation point.

2. Continuous Property Service Connection Facilities

Where an applicant requests service connection facilities on continuous property, the following will apply:

- a. The Company will provide a primary service connection facility on a customer's continuous property to the main distribution terminal at a single location determined by the Company and the property owner. Where no agreement can be reached, the Company will designate the location of the demarcation point. (T)

b. On the property to be served¹- Residential

For the purpose of this rule: (i) A service connection facility (or a branch thereof) intended to serve all or a portion of one building is denoted as being separate. (ii) Where a service connection facility is intended to serve two or more buildings on one continuous property, the section extending from the property line and excluding the separate branches to individual buildings is denoted as the common portion.

(1) Except as provided in d. following, the trench or underground supporting structure for a "separate" service connection facility and for any "common portion" for which an easement acceptable to the Utility is not obtainable without charge or condemnation, or where an easement is not accepted as set forth in (2) following, will be provided as follows: (N)

(a) Where the Utility determines that buried wire or cable is to be used for the service connection facilities, the applicant or customer will provide the trench or pay the trenching costs. Such trench will be to the Utility's plans and specifications between designated points on the building served and the boundary of the common portion easement, Utility easement or dedicated street, as required.

(b) Where the Utility determines that conduit is to be used for the service connection facilities, the applicant or customer will construct, own and maintain at his expense the underground supporting structure. Such underground supporting structure will be to the Utility's plans and specifications between designated points on the building served and the boundary of the common portion easement, Utility easement or dedicated street, as required.

NOTE 1: The applicant will provide or arrange for the rights necessary for the Utility to place service connection facilities on the parcel of property occupied by the applicant and/or to cross an intervening parcel or parcels of property except where the applicant is located on U.S. Government land or on private property surrounded by U.S. Government land. Then, the Utility shall obtain the rights necessary to place such facilities on or across such U.S. Government land as required by federal law. These access rights are considered as part of the applicants' continuous property.

2.1.18 RULE NO. 18 - CUSTOMERS' PRIVATE SERVICE NOT FOR PUBLIC USE/RESALE OF SERVICES

A. CUSTOMERS' PRIVATE SERVICE NOT FOR PUBLIC USE

Telephone service, other than "Public" and "Semipublic" service, is furnished for the use of the customer, their family and persons residing in their home or their employees or representatives, except as service may be extended to "Joint Users" and "Centrex Service - Primary Stations - Dormitory", and except as use of the service may be extended for switched data (nonvoice) communications relating directly to the business of a composite data service vendor's "patrons", and except as noted in B., below.

Unless otherwise indicated in the tariff schedules or Guidebook of the Company, the use of the service is restricted to the customer, their agents and representatives and no service, furnished under the Rules and Regulations contained in the tariff schedules or Guidebook, shall in any case be resold. This prohibition shall not apply to a composite data service vendor in the provision of composite data service to its patrons, to a communications common carrier in the provision of public telegram message service or overseas data message service, to hotel-motel service customers, nor to Customer-Owned Pay Telephone (COPT) service or to the services listed in B., below. (N) (T) (T) (N)

Flat rate service, and measured rate service (except in connection with customer-provided building entry systems) are not installed on premises of a public or semipublic character in a location where the telephone would be accessible for use by the patrons of the customer or the public in general.

If it is found that the customer is permitting public use of service furnished them for private use, the Company will thereafter provide "Public" or "Semipublic" service, except where the customer consents to the facilities being so located as to be inaccessible to the public or permits no further public use after the matter has been called to their attention. 2.1 RULES (Cont'd)

2.1.20 RULE NO. 20 - DEMARCATION POINT

A. RESPONSIBILITIES

The Company will provide facilities, equipment, and services to its local loop demarcation point. The Company is responsible for the provisioning and maintenance of its facilities, equipment, and services to the local loop demarcation point, including those located at that point. The customer is responsible for the completion of services beyond the Company's local loop demarcation point.¹ (T)

Customer requested services beyond the local loop demarcation point may be provided by the Company at the customer's expense. (T)

B. LOCAL LOOP DEMARCATION POINT

1. The Company's local loop demarcation point separates the Company's network responsibility for its facilities, equipment and services from that of the building owner or end-user customer. This demarcation point designates the end of the Company's network facilities (local loop) and the beginning of the intrabuilding network cable (INC), if any, provided by the building owner. Where a local loop demarcation point lacks sufficient power and/or space to support provisioning of new service, such service will be provisioned as close as practicable to the existing demarcation point. (T)
2. The local loop demarcation point may also be referred to as the Minimum Point of Entry (MPOE) or Minimum Point of Presence (MPOP) for the purpose of defining the end of the Company's network facilities. (T)
3. The local loop demarcation point is located at the MPOE/MPOP to any single or multi-story building, and includes the Company's entrance facility, except as set forth in 4. following. The Company will not be required to place its demarcation point on more than one floor of a multi-story building. (T)

NOTE 1: Network Terminating Wire (NTW) is wiring on the Company's side of the demarcation point at the minimum point of entry and is the responsibility of the Company, as described in C5. following. (T)

- b. Disabled Services: The demarcation point is at the Company provided terminal equipment. The Company's responsibility includes the terminal equipment where the equipment has been provided by the Company. (T)
- c. If a property owner desires an additional Local Loop Demarcation Point(s) at a specified location on a customer's premises for purposes of providing service assurance, safety, security and privacy of data communications over the cable (generally known as "Direct Feed"), the owner will be required to pay for additional network cable and network facilities through special construction arrangements. 1. Definition: There are two types of cross-connects.

- a. Wires that connect the Company's building entrance terminal to the Company's network access termination point, e.g., ready access terminals (RATs) or Network Interface Units (NIUs). (These configurations comprise a small portion of the Company's network.) Such cross-connects do not connect directly to the building owner's access terminal. They need not be altered in order for another utility to provide service to customers. Therefore, they need not be accessible to other utilities or the building owner. As a result, such cross-connects are part of the Company's network. These cross-connects will be identified as Utility Network Cross-Connects (UNCs). (T)
 - b. Wires that connect the Company's network access termination point to the building owner's access terminal. These are the cross-connects that may be removed or changed when a customer switches from one provider to another. These cross-connects will be identified as Service Provisioning Cross-Connects (SPCs). Bridge clips that connect the Company's network to the building owner's wiring are also SPCs. (T)
 - c. There are configurations that have no building owner's access terminals. In these cases, the inside wire runs from the customer's equipment directly to the utility network access termination point. No SPC is utilized. Such configurations are beyond the scope of these rules.
2. SPCs shall be owned by the facilities-based carrier that provides service to the customer.
 3. In the case of customers served by resellers, the underlying facilities-based carrier shall own the SPCs.
 4. Utilities shall not remove or disconnect SPCs if it will result in a violation of Public Utilities Code Section 2883.

2. The inside wire demarcation point separates the inside wire vendor's responsibility from that of the CPE vendor. This demarcation point, where the Company is the vendor of choice for inside wire repair and CPE trouble (T) isolation, begins where the customer's inside wire connects to the INC. Where there is no INC, the inside wire demarcation point is the minimum point of entry.

F. CONTINUOUS PROPERTY

1. Continuous Property is land which is
 - a. wholly owned by a single individual or entity, regardless of whether the owner leases¹ all or a portion(s) of the property to another and
 - b. which contains, or will contain, multiple buildings where all portions of the property may be served without crossing a public thoroughfare² or the property of another.
2. There are three basic types of Continuous Properties:
 - a. Single-tenant commercial in which one owner or tenant occupies all buildings.
 - b. Mixed commercial and residential (e.g., buildings with both commercial and residential space or campus-type configurations such as colleges and military bases) in which a mixture of business and residential uses exists.

NOTE 1: The property retains its character as Continuous Property regardless of whether the owner or a tenant (who wholly leases the property from the owner) sublets a portion(s) of the property to another, e.g., apartment buildings or complexes. Condominiums are Continuous Property, unless the condominium project is constructed where each condominium building is on land held in separate ownership from the common areas. Ownership may be defined as the vertical limits of ownership interest that include the airspace above and the earth below the building.

NOTE 2: A "public thoroughfare" is a street, road or other means of passage across property which is not subject to restrictions on ingress, egress or boundaries.

F. CONTINUOUS PROPERTY (Cont'd)

2. There are three basic types of Continuous Properties: (Cont'd)

- c. Multi-tenant commercial and/or residential in which several tenants occupy a building individually on a per-floor or per-section basis.

Single-family homes and properties within which a portion(s) of the land is owned by separate entities and a portion(s) is owned by the entities in common¹ do not constitute Continuous Property.

3. Existing Continuous Property

- a. For existing continuous property the Company will designate the main distribution terminal which is the Local Loop Demarcation Point, for each local loop serving the property, for purposes of the unbundling of INC in each building. Where there is not a main distribution terminal on existing Continuous Property, the current serving arrangements will not change unless and until such time as a rearrangement or reinforcement of serving arrangement and/or additional plant is required after August 8, 1993. At that time, the utilities will treat such property as New Continuous Property under Schedule CAL.P.U.C. No. A2.1.20, F.4 (T)

The utilities will have until August 31, 1998 to designate the primary INC Demarcation Points in at least the majority (51%) of the buildings and properties with respect to which construction or renovation has been completed prior to August 8, 1993. In the interim, the utilities will assist building owners, at no charge, to designate the primary Demarcation Point. The utilities will designate the primary Demarcation Point for new or renovated buildings or properties upon completion of construction.

- b. INC within building (riser and lateral) that was in place prior to August 8, 1993 will be the responsibility of the continuous property owner after that date. All rearrangements and/or maintenance of the INC will be the responsibility of the continuous property owner.

- (1) Company owned plant facilities (Non INC) between buildings on existing continuous property may be purchased by the property owner as set forth in Schedule Cal.P.U.C. No. A2.8 or when relocation of the MPOE results in transfer of utility property as set forth in 3.d. following. (T)

b. (Cont'd)

(2) The Company is responsible for the investment and its maintenance where (T)
the Company retains ownership of plant facilities between buildings on (T)
an existing continuous property. The Company's responsibility (T)
applies to all investments, excluding INC.

(3) Where the Company does not retain ownership of INC cable infrastructure (T)
located on the customer's side of the Local Loop Demarcation Point, the
property owner assumes all responsibility as of August 8, 1993.

c. The Company will provide to building/property owners and/or their agent¹ (T)
upon request and for a charge,² such INC charts or diagrams (i.e., cable
location maps) as may be in existence. See Guidebook Part 8, Section 8 (T)
for new INC cable location map requirements. (T)

Until August 8, 1998, the Company's shareholders will assume the costs (T)
for repairs to the INC not caused by willful misuse or negligence of
continuous property owners who have requested INC information (i.e.,
cable location maps) from the Company but do not receive it within 90 (T)
days of the request, for an owner of continuous property. This
obligation shall apply to existing continuous property in which the
Company installed INC prior to August 8, 1993 and shall continue until (T)
the date the property receives the information.

The Company's liability for repairs under this paragraph shall begin no (T)
sooner than 90 days from August 4, 1993 for continuous property not

(1) The property owner agrees, and has the ability to pay for all relocation expenses reasonably incurred.

(a) Special construction charges for design and construction will be collected in advance as set forth in Schedule Cal.P.U.C. No. A.2.1.36 for the relocation of the MPOE/LLDP.¹

(b) The property owner or customer is responsible to schedule and pay for the move of existing services to the new MPOE as set forth in the Guidebook Part 3, Section 1 and Schedule Cal.P.U.C. No. 175-T, and FCC No. 1. (N)

(2) Relocation is technically feasible. (The Company bears the burden of proving technical infeasibility.) (T)

(3) Relocation is not prohibited by applicable local, state or federal laws, rules or regulations.

(4) The relocation of the MPOE/LLDP will be negotiated between the property owner and the Company. Where an agreement cannot be reached, the Company will designate the new location for the local loop demarcation point. (T)

2.1.22 RULE NO. 22 - BUSINESS AND RESIDENCE SERVICE

A. USE OF SERVICE

1. Business and Residence Service¹

(T)

The applicability of business and residence rates is governed by the actual or obvious use made of the service. The use which is to be made of the service will be ascertained from the applicant at the time of application for service or from the listing requested or from evidence of usage, once the service is established.

a. Business rates apply at the following locations:

- (1) In offices, stores, factories and all other premises of a business nature and at any other premises where the substantial and predominant use of the service is professional, occupational or administrative in nature, rather than social or domestic.
- (2) In boarding houses and rooming houses with more than five rooms available for rent (except as noted in b. following), colleges, clubs, lodges, schools, libraries, churches, lobbies and halls of hotels, apartment buildings, hospitals and private and public institutions, and where the service is not subject to semi-public or public use.
- (3) At any location when the listing of "office" is provided, or where any title indicating a trade, occupation or profession is listed (except as modified under the directory listing tariff schedule).
- (4) At residence locations when the customer has no regular business telephone service and the use of the service by the customer, members of the customer's household, or the customer's guests is more of a business than residence nature as might be indicated by advertising through newspapers, handbills, billboards, circulars, business cards or otherwise.
- (5) At a residence location regardless of the form of listing furnished, where service is provided at a location which is not part of a domestic household.

B. SUPERSEDURE AND CHANGE IN BILLING¹

An arrangement for supersedure or change in billing of a working service may be made under the following conditions:

The applicant qualifies for the establishment of service under these Rules and other applicable tariff schedules. Verbal approval is required from the outgoing customer and the applicant for business and residence service.²

The outgoing customer shall be notified of the effective date of supersedure or change in billing and shall be responsible for charges for the service and other obligations such as contracts and basic termination charges through the effective date. The Company may refuse a request for supersedure or change in billing when the outgoing customer does not provide a final bill address (other than the service address) and a telephone number where they can be reached. The applicant is responsible for charges for the service beginning the day after the effective date of supersedure or change in billing. Continuing obligations, such as contracts or basic termination charges become the obligation of the incoming customer at the same time.³

NOTE 1: Refer to Guidebook Part 3, Section 1, for application of charges and Schedule Cal.P.U.C. No. A2.1.1 for definitions.

NOTE 2: The requirements for verbal approvals from the outgoing customer may be waived if the outgoing customer cannot be reached and the incoming customer can present evidence to the Company of their responsibility for the account.

NOTE 3: If the applicant is not eligible for an existing product and/or service, the Company may remove the product and/or service at the time the order for the supersedure or change in billing is taken. These products and/or services are Concession, California LifeLine, (T)

Part 6, Section 9. For Asynchronous Transfer Mode (ATM) Service and
Frame Relay Service, see AT&T Guidebook Part 20, Section 6. (N)

A. DAMAGE TO PREMISES OR CUSTOMER PROVIDED EQUIPMENT

The same network facility service will be re-established on a one-time, temporary or permanent, basis as a maintenance provision and without charge, in the same or different location and within a period of time that would normally be required to repair or reconstruct the damaged premises or customer provided equipment (CPE).

This provision does not include wire or equipment on the customer's side of the local loop demarcation point except as set forth in Guidebook Part 8, Section 8.

B. DIFFERENT SERVICE

If the service as re-established is different from that which was disconnected, the subscriber will be charged the difference between the current total nonrecurring charges originally applicable to establish the new service and the current nonrecurring charges which would be applicable to re-establish the old service. (No credit will be given if the current total nonrecurring charges originally applicable to establish the new service is less than the current nonrecurring charges which would be applicable to re-establish the old service.)

C. TEMPORARY SERVICE NEW LOCATION

When service is re-established on a temporary basis at a new location and later permanently established at the former location, the practice set forth in A. and B. above may be applied to either service as elected by the subscriber and regular charges, without allowances, will be applied to the re-establishment of the other service.

A. EMERGENCY MEASURES TAKEN PURSUANT TO A "STATE OF EXTREME EMERGENCY".

Whenever there exists a "state of extreme emergency," as now or hereafter defined in the California Disaster Act and Civil Defense Act of 1950, the Company shall take such emergency measures as ordered or (T)
directed from time to time by the California Public Utilities Commission.
In the absence of such order or direction by the Commission, the Company may (T)
take any and all such emergency measures as it may within its discretion
deem necessary in the public interest for the preservation and maintenance
of service to the Company's local loop demarcation point for (T)
all essential users. In the event that emergency measures are initiated by
the Company in the absence of an order or direction by the Commission, the (T)
Company shall, wherever practicable, notify the Commission in advance of the (T)
action which it proposes to take. Any action thus proposed by the Company (T)
shall be subject to review by the Commission. Should conditions make
advance notification impracticable, the Company shall notify the Commission (T)
of the emergency action which it has taken as soon as possible thereafter.

As restoration becomes possible of any service which has been discontinued pursuant to any of the emergency measures taken in accordance with this rule, the priority of such restoration shall be determined in accordance (T)
with the Company's Rule A2.1.23.

Each and every service furnished by the Company shall be subject to this (T)
rule and the Company shall in no event be liable for any damage resulting (T)
from measures taken pursuant to this rule except in the case of willful
misconduct.

B. TELECOMMUNICATIONS SERVICE PRIORITY (TSP) SYSTEM

The TSP System is a service, developed to meet the requirements of the Federal Government, which provides the regulatory, administrative and operational framework for the priority installation and/or restoration of National Security Emergency Preparedness (NSEP) telecommunications services. These include any exchange and/or Private Line services associated with NSEP services. The TSP System applies only to NSEP telecommunications services, and requires and authorizes priority action by the Telephone Company providing such services.
The installation, use and restoration of TSP System service shall be subject to the regulations, rates and charges as set forth in Schedule Cal.P.U.C. No. 175-T Section 10.

A. ADEQUATE NOTICE

Any telephone service furnished under the Company's tariffs and used by a customer, their employee or agent, to overhear or observe any telephone conversation, to which they are not a party, over any part of the exchange and toll network, requires that adequate notice be given to all parties to the telephone conversation that the conversation is being overheard, observed, or recorded. Such adequate notice shall be given by: (T)

1. A tone warning device known as "beep tone" which automatically produces a distinct signal audible to all parties to a telephone conversation; or
2. By verbal announcement by the operator of monitoring equipment to the parties to a communication that their communication is being monitored; or
3. By a telephone instrument transmitter which is operationally connected to the communication circuit being monitored and which acoustically, mechanically, electrically or otherwise has not been designed, modified, desensitized or located with the intent of eliminating notice or monitoring or interception, with the exception that minimization of transmission losses will be permitted; or
4. By an Interactive Voice Recording (IVR) message when a customer calls the Company's customer service office. The IVR message will inform customers that the call may be monitored or recorded for quality assurance purposes and will allow a customer to opt-out of having the call monitored or recorded. (T)

B. CUSTOMER NOTIFICATION

The Company shall notify the customer when it has learned of monitoring which does not use one of the authorized methods of providing notice. (T)
Unless the customer will discontinue such use, the Company shall discontinue service for noncompliance with this rule if, after written notice of at least five (5) days, the customer has not initiated compliance with such notice. (T)
The written notice shall advise the customer of the intention to discontinue, the reasons for the discontinuance, and the steps which must be taken to avoid discontinuance. The written notice shall also advise the customer of the provision in C. following.

2.1.31 RULE NO. 31 - LEGAL REQUIREMENTS FOR REFUSAL OR DISCONTINUANCE OF SERVICE

- A. California Public Utilities Commission's Decision No. 91188, in Case No. 4930, requires that each communications Utility, operating under the jurisdiction of the Commission, include the provisions of the rule set forth in Appendix "B" of that decision as a part of the rules in the Utility's tariff schedules. Accordingly, Appendix "B" of Decision No. 91188, Case No. 4930, is quoted herein:

"APPENDIX" 'B'

- "1. Any communications utility operating under the jurisdiction of this Commission shall refuse service to a new applicant and shall disconnect existing service to a customer upon receipt from any authorized official of a law enforcement agency of a writing, signed by a magistrate, as defined by Penal Code Sections 807 and 808, finding that probable cause exists to believe that the use made or to be made of the service is prohibited by law, or that the service is being or is to be used as an instrumentality, directly or indirectly, to violate or to assist in the violation of the law. Included in the magistrate's writing shall be a finding that there is probable cause to believe not only that the subject telephone facilities have been or are to be used in the commission or facilitation of illegal acts, but that the character of such acts is such that, absent immediate and summary action in the premises, significant dangers to public health, safety, or welfare will result.
- "2. Any person aggrieved by any action taken or threatened to be taken pursuant to this rule shall have the right to file a complaint with the Commission and may include therein a request for interim relief. The Commission shall schedule a public hearing on the complaint to be held within 20 calendar days of the filing of the complaint. The remedy provided by this rule shall be exclusive. No other action at law or in equity shall accrue against any communications utility because of, or as a result of, any matter or thing done or threatened to be done pursuant to the provisions of this rule.
- "3. If communications facilities have been physically disconnected by law enforcement officials at the premises where located, without central office disconnection, and if there is not presented to the communications utility the written finding of a magistrate, as specified in paragraph 1 of this rule, then upon written request of the subscriber the communications utility shall promptly restore such service.

A. REPLACEMENT OF AERIAL WITH UNDERGROUND FACILITIES

1. In Areas Affected By General Public Interest.

The Company will, at its expense, replace its existing aerial facilities (T)
with underground facilities along public streets and roads and on public
lands and private property across which rights-of-way satisfactory to the
Company have been obtained or may be obtained without cost or (T)
condemnation, by the Company, provided that the governing body of the (T)
city or county in which such facilities are located has:

a. Determined after consultation with the Company and after holding public (T)
hearings on the subject, that undergrounding is in the general public
interest in a specified area for one or more of the following reasons:

- (1) Such undergrounding will avoid or eliminate an unusually heavy
concentration of aerial facilities;
- (2) Said street, or road or right-of-way is in an area extensively used by
the general public and carries a heavy volume of pedestrian or
vehicular traffic;
- (3) Said street, road or right-of-way adjoins or passes through a civic
area or public recreation area or an area of unusual scenic interest to
the general public.

b. Adopted an ordinance creating an underground district in the area
requiring, among other things:

- (1) That all existing and future electric and communication distribution
facilities will be placed underground, and
- (2) That each property owner will provide and maintain the underground
supporting structure needed on their property to furnish service to

A. RELEASE OF INFORMATION

1. Nonpublished Service

California Public Utilities Commission's Decision Nos. 92860 and 93361, in Case No. 10206, requires that each communications Utility, operating under the jurisdiction of the Commission, include the provisions of the rule set forth in Appendix "A" of that decision as a part of the rules in the Utility's tariff schedules. Accordingly, Appendix "A" of Decision Nos. 92860 and 93361, Case No. 10206 is quoted herein:

APPENDIX 'A'

Nonpublished Service

- a. Definition of nonpublished service: Upon a customer's request, customer name, address, and telephone number are not listed in any telephone directory, street address directory, or in the directory assistance records available to the general public. This information, as well as call-forwarding information from such unlisted telephone numbers, shall be released by telephone utilities in response to legal process or to certain authorized governmental agencies provided the requesting agency complies with the rules herein established for the release of nonpublished information.

A. RELEASE OF INFORMATION (Cont'd)

1. Nonpublished Service (Cont'd)

c. Procedure for release of nonpublished information to authorized agencies.

(1) A telephone utility shall only provide nonpublished information to persons within authorized agencies who are either

- Peace officers pursuant to California Penal Code Section 830 and all subsections thereof and who are lawfully engaged in a criminal investigation in their official capacity, or
- Health officers who are acting in their official capacity and are lawfully investigating a matter involving a serious communicable disease or life-threatening situation, or
- Employees of an authorized federal agency acting in an official capacity pursuant to a responsibility enumerated in b.(2) preceding, or
- Employees of a county or city 911 project when acting in an official capacity, or
- Employees of an agency listed in b.(5) preceding when engaged in an investigation involving arson or when engaged in firefighting duties in which there is immediate peril to life or property.

(2) Nonpublished information shall be released by a telephone utility to an authorized agency upon the agency's written request provided that the agency has previously furnished the utility with a statement, signed by the head of the agency, requesting that nonpublished information be provided to the agency upon its written request, and listing designated persons, by name, and title, who are authorized to request, in writing, nonpublished information. The written request for the nonpublished information must be signed by the head of the agency or by a previously designated person and the request must state that the nonpublished information is necessary for a lawful investigation being conducted by the agency pursuant to its responsibilities.

A. RELEASE OF INFORMATION (Cont'd)

1. Nonpublished Service (Cont'd)

- c. Procedures for release of nonpublished information to authorized agencies. (Cont'd)

- (3) Nonpublished information shall also be released by a telephone utility to an authorized agency upon the agency's telephonic request, provided the agency has previously furnished the utility with a statement. It must be signed by the head of the agency, requesting that nonpublished information be provided to the agency upon telephonic request and listing designated persons, by name, title, and telephone number, who are authorized to request, by telephone, nonpublished information. The telephonic request for nonpublished information must be made by the head of the agency or by one of the previously designated persons.

The nonpublished information requested by telephone shall be provided by the utility only on a call-back verification basis.

The requesting agency shall, within five working days after making the telephonic request, mail the utility a letter confirming the request.

d. Notification to Customer

- (1) The telephone utility shall not notify a customer regarding the release of customer's nonpublished information unless the customer contacts the utility and specifically requests to know whether their nonpublished information has been released.
- (2) When a customer inquires of the utility whether their nonpublished information has been released, the customer shall be informed that if information has been released they will be notified by mail about what information was released and which agency requested the information. If there was no release of nonpublished information, the customer will receive no communication from the utility.
- (3) If requesting agency certifies that disclosure to a customer about the release of his or her nonpublished information to that agency could impede an ongoing criminal investigation, the telephone utility shall withhold notice to the customer for a period of one year from the date of release of the information to the agency.

(4) The one-year period of nondisclosure shall be extended for successive one-year periods upon new written certification by the agency in each instance.

(5) If no request has been made for nondisclosure to the customer, the customer who inquires shall be notified in writing as to the identity of the agency which requested the nonpublished information and the information released.

If there has been a request for nondisclosure within 25 working days after the expiration of any outstanding certification for nondisclosure, or any renewal of such certification, a customer who has previously inquired, at any time during the period of nondisclosure, whether their nonpublished information was released, shall automatically be notified in writing by the utility that such information was released and which agency received this information.

e. Exception for Health Officers

No notification shall ever be made to a customer that nonpublished information was released to an authorized public health agency provided the chief health officer or designated health officer from the agency certifies that disclosure to the customer could violate a client's or contact's right of privacy and confidentiality.

f. Release of Information to Interexchange Carriers

California Public Utilities Commission's Decision Nos. 92860 and 93361, in Case No. 10206, requires that each communications Utility, operating under the jurisdiction of the Commission, include the provisions of the rule set forth in Appendix "B" of that decision as a part of the rules in the Utility's tariff schedules. Accordingly, Appendix "B" of Decision Nos. 92860 and 93361, Case No. 10206 is quoted herein, except as modified by Decision Nos. 83-06-066, 83-06-073 and 83-09-061.

"APPENDIX" "B"

Release of Credit Information and Calling Records

a. Definitions

(1) Credit Information

A customer's credit information is the information contained in the customer's utility account record, including but not limited to: account established date, "can-be-reached" number, name of employer, employer's address, customer's social security and/or driver's license number, billing name, location of previous service. Not included in customer credit information for purposes of these rules are: non-published customer information, or customer's name, address, and telephone number as listed in the telephone directory.

(2) Calling Records

Calling records are the records of calls made from a customer's telephone no matter how recorded and regardless of whether such information appears in the customer's monthly telephone service bill. Toll records, the name and address of the called party, and pen registers are examples of calling records.

A customer's credit information and/or calling records shall be released by a telephone utility only under the following circumstances:

- (1) Upon receipt of a search warrant obtained pursuant to California or federal law, or of a Federal Grand Jury Subpoena or a Federal Agency Subpoena; or
- (2) Upon making return to a subpoena or subpoena duces tecum, when it reasonably appears to the telephone utility that the procedures set out in Code of Civil Procedures Section 1985.3, or successor provisions, as they then exist, have been followed. The utility shall not produce the records if there has not been compliance with CCP Section 1985.3. The utility shall abide by all orders to quash, protective orders and similar court orders which may be issued with regard to the subpoenaed credit information and calling records.

c. Deferral of Notification

- (1) Notification to the customer will be deferred, and no disclosure made for a period of 90 days if there is a certification for nondisclosure in the body of a subpoena or search warrant. The certification for nondisclosure must contain a statement that there is sufficient reason to believe that such notification would impede the investigation in which the request is made. Upon making return to the court to a subpoena, the telephone utility shall request instruction from the court whether it should notify the customer of its receipt of the subpoena before divulging the information or records requested.
- (2) The 90-day period can be extended for successive 90-day periods upon a new written certification in each instance that there is probable cause to believe notification to the customer would impede the investigation of an offense pursuant to which the subpoena or warrant was issued.
- (3) Successive new written certifications shall be made by the individual who procured the issuance of the subpoena or warrant or, if that person is unavailable, by another member of the authorized agency who also certifies that he or she has been assigned to handle the matter for which the credit information or calling records has been obtained.
- (4) Within five working days of the expiration of any outstanding certification, or any renewal of such certification, the deferred notification shall be given in writing to the customer.

d. Exception to Procedure for Release or Credit and Calling Records

The procedure set forth above does not apply where the requester is a collection agency working for the utility on the customer's account.

2.1.36 RULE NO. 36 - SPECIAL CONSTRUCTION OF EXCHANGE FACILITIES

A. GENERAL

1. Normal Provision of Facilities and Service.

Facilities to provide exchange service to applicants/customers are furnished in accordance with the Company's standards up to and including its local loop demarcation point as set forth in Schedule Cal.P.U.C. No. A2.1.2. It is contemplated that facilities are available or will be made available as part of a telephone plant designed and constructed to meet the service requirements usually encountered in the localities or areas served. (T)

2. Special Provision of Facilities and Service.

- a. Line extensions, Service Connections and Facilities on Customer's Premises or new facilities to provide exchange telephone service to applicants/customers will be furnished up to and including the Company's local loop demarcation point as set forth in Schedule Cal.P.U.C. No. A2.1.15, A2.1.16, and Guidebook Part 8, Section 8. Where the new facilities are in suburban areas, charges for line extensions and service connection facilities are set forth in Guidebook Part 4, Section 5. (T)

2. Special Provision of Facilities and Service (Cont'd)

- c. Applicants/customers may desire service arrangements or facilities in the provision of their service which is beyond that normally provided by the Company. When such an applicant/customer requirement exists, the Company may furnish where operating conditions permit up to and including its local loop demarcation point, such other arrangements as the applicant/customer requests, at charges based on the costs of providing such additional service or facility arrangements, see C. charges following.¹ (T)

B. APPLICATION OF SPECIAL PROVISION OF FACILITIES AND SERVICE

1. Facilities and services provided under special construction will be provided as set forth in 2.a. preceding and the following:

- a. At the request of the applicant/customer, the Company may construct additional facilities, including additional entrance facilities to other buildings on continuous property, of a type or in a location other than that which the Company would otherwise utilize in order to provide service for the applicant/customer. (T)
- b. In order to comply with requirements specified by the applicant/customer, construction by the Company involves a routing of facilities other than that which the Company would normally utilize in order to provide services for the applicant/customer. See 2.b. following. (T)
- c. At the request of the applicant/customer, the Company constructs a greater quantity of facilities than that which the Company would otherwise construct in order to fulfill the applicant's/customer's initial requirements for services. See 2.c. following. (T)
- d. The facilities to provide services are not available and at the request of the applicant/customer, the Company constructs temporary facilities to provide services for the period during which the permanent facilities are under construction. (T)

B. APPLICATION OF SPECIAL PROVISION OF FACILITIES AND SERVICE (Cont'd)

1. Facilities and services provided under special construction will be provided as set forth in 2.a. preceding and the following: (Cont'd)

- e. Except as covered in Schedule Cal.P.U.C. No. A2.1.15, A.10 and A2.1.16, A.1.j, the facilities to provide services are not available and at the request of the applicant/customer, the Company constructs temporary facilities to provide services for the period during which the permanent facilities are under construction. (T)

The provision of any of the above listed special construction shall be entirely at the option of the Company¹. (T)

2. Alternate Routing or Standby Facilities for Exchange Service

Normally, facility arrangements between a serving central office and a customer are furnished over the most economical route as determined by the Company up to and including its local loop demarcation point. Where an applicant/customer requests a serving arrangement furnished in a manner other than the most economical route as determined by the Company, the arrangements requested are generally one of the following: (T)

- a. Furnish facilities over the same physical route but in two or more different cables. Generally, the cables would be separated but share common poles, manholes or duct runs.
- b. Facilities furnished over two or more separate routes. This would be alternate routing, i.e. facilities would be furnished in separate cables, separate routes and not share common pole line, ducts or manholes in any part of the route. The facilities could be used to separate services between the central office and the Company's local loop demarcation point on the customer's premises over the two or more routes, possibly providing a better opportunity for continuity of service of the communications services provided. (T)
- c. Standby facilities are those furnished to provide redundancy for all or a portion of the services furnished between a central office and a customer's premises. Such redundancy could be provided over an alternate route or in the same route via a different cable. In addition, equipment, that is under the operational control of the customer located at the customer's premises is the customer's responsibility. The Company is responsible only up to and including its local loop demarcation point for the provision of such service. (T)

C. CHARGES FOR SPECIAL PROVISION OF FACILITIES AND SERVICE

1. Charges based on costs are applicable to special provision of facilities and service. An advance payment of 100% of estimated cost will be required by the Company to protect its investment. The amount of the advance payment will be credited to the customer's account upon completion of the construction and the billing for the service arrangement.¹ (T)
2. Charges may be quoted based on the material used and labor required that the Company may provide in connection with the outside plant and central office facilities to provide the arrangement requested. (T)
3. Application of Charges
 - a. Additional cable may be required, which may not be reusable in place when the customer disconnects such a service arrangement. This could include portions of cable facilities along existing rights-of-way or dedicated streets where such cable was furnished for the use of one customer. Charges applicable to the facilities furnished are reflective of the material furnished. In addition, labor is required to place and terminate the facilities placed. Additional labor may be required to rearrange existing facilities to accommodate the additional facilities placed. Service connections may also be affected and may require additions and rearrangements to which charges would apply.
 - b. Furnishing facilities over the same route but in two or more different cables.
 - (1) Where distribution facilities are installed with possibility of reuse, the charges for the additional cable will be based on the facilities furnished.
 - (2) If rearrangement of existing outside plant facilities may accommodate the applicant/customer's request without the addition of new plant, such costs will be the applicable charge to the applicant/customer for the furnishing of separate outside plant facilities.
 - (3) Facilities requiring the reinforcement of an existing route and which would not be constructed by the Company except to provide the facility arrangement requested by the customer will be charged to the customer based on cost to provide the reinforcement. (T)

2.1.37 RULE NO. 37 - SURCHARGE TO FUND CALIFORNIA PUBLIC UTILITIES COMMISSION
REIMBURSEMENT FEE

APPLICABILITY

This surcharge is for the purpose of funding the California Public Utilities Commission and applies to the aggregate amount of customer billings associated with intrastate billings which appear on customers' bills.

TERRITORY

Within the exchange areas of all exchanges as these areas are defined on maps filed as part of the tariff schedules.

RATES

SURCHARGE¹

In accordance with the ordering paragraph of Resolution M-4841, (C)
a 0.52% surcharge shall be applied to all intrastate customer billings (C)
excluding yellow page directory revenues and direct sales and its
associated provisions as they appear on the customer's bill. The
surcharge will be applied to the customer's bill for intrastate
services for all such services that appear on that particular bill,
exclusive of federal and local excise taxes².

The Utility shall not be liable for any and all penalties, losses or
damages sustained by any carrier, or its customers, as a result of its
use and concurrence of the Public Program Surcharge rates and the
Commission Reimbursement Fee rate contained in the Utility's tariffs
under Resolution T-16901.

NOTE 1: In 1983 the Legislature established the Public Utilities Commission
Reimbursement Fee to be paid by Utilities to fund their regulation by
the Commission (Public Utilities (PU) Code Section 401-443). The
surcharge to recover the cost of that fee is ordered by the Commission
under authority granted by PU Code Section 433. On July 16, 2020, (C)
Resolution M-4841 increased the fee from 0.340% to 0.52%, effective |
October 1, 2020. (C)

NOTE 2: In accordance with Resolution T-17321 and Decision 10-11-033,
effective December 1, 2011, this surcharge is no longer applied to
customer billings for services provided under the California LifeLine
program.

A. AVAILABILITY OF DISCOUNTS UNDER CTF

In Decision 96-10-066, and subsequent decisions, the California Public Utilities Commission (CPUC) established the California Teleconnect Fund. CTF provides discounts on telecommunications services delineated herein, among other detariffed and unregulated services to qualifying schools, libraries, hospitals and health clinics, community-based organizations and California community colleges. CTF discounts are available only to those CTF participants who have an approval letter from the California Public Utilities Commission. (C) (C) (N)

Federal funding or subsidy given to California Teleconnect Fund (CTF) participants for CTF eligible services shall first be taken into account prior to applying the CTF discount.

If state funding for the CTF is exhausted, participants will be backbilled for all discounts advanced by the Company that the Commission does not fund in accordance with Rule 9, A2.1.9, I.1 or Guidebook Part 2, Section 2.

These discounted rates may not be resold to, or shared with any other nonqualifying entity or person. (L) (L)

B. BILLING

(T)

Customers will receive the discounts described in 2.1.41,A., within two (2) billing periods of the eligible services being provided.

C. SPECIAL CONDITIONS

(T)

If the Executive Director of the California Public Utilities Commission (CPUC) determines that the approved CTF funding level will be insufficient to reimburse the Company for its CTF claims for the entire fiscal year, the CPUC will promptly inform the Company concerning this condition and direct the Company to suspend CTF discounts to qualifying Schools, Libraries, Government and District Owned Hospitals, Government and District Owned Health Clinics, Community Based Tax Exempt Organizations and California community colleges on a schedule consistent with fund balances and Company claims, and with appropriate prior notice to customers.

In the event of such a suspension, all services billed at CTF discounted rates will be converted to and billed at the regular tariffed or contracted rates.

2.1.42 RULE NO. 42 - CALIFORNIA TELECONNECT FUND SURCHARGE

This surcharge provides the funding for the discounted advanced services provided to qualifying schools, libraries, hospitals and health clinics, community based organizations and California community colleges. (See Rule No. 41).

Pursuant to Resolution T-17606, a surcharge of 0.78% will be applied (C)
to all end user telecommunication intrastate services, both within a
service area and between service areas. This percentage rate will take
effect on September 1, 2018. This surcharge will appear on (C)
subscribers' bills as the California Teleconnect Fund Surcharge. This
surcharge will remain in effect until otherwise ordered by the
Commission.

The Utility shall not be liable for any and all penalties, losses or
damages sustained by any carrier, or its customers, as a result of its
use and concurrence of the Public Program Surcharge rates and the
Commission Reimbursement Fee rate contained in the Utility's tariffs
under Resolution T-16901.

The Utility shall not be liable for any and all claims arising out of
any act or omission by the Utility as a result of a carrier's use and
concurrence of the Public Program Surcharge rates and the Commission
Reimbursement Fee rate contained in the Utility's tariffs under
Resolution T-16901.

The Utility shall be indemnified, defended and held harmless by all
carriers against any claims, loss or damage arising from a carrier's
use and concurrence in the Public Program Surcharge rates and the
Commission Reimbursement Fee rate contained in the Utility's tariffs
under Resolution T-16901.

PREVENT DISCONNECT

All charges must be paid each month to keep your account current. However, "basic service" and its applicable taxes and surcharges **MUST** be paid to avoid disconnection. Currently, for this account that amount is \$xx.xx. Failure to pay non basic charges may result in other collection activities, including restriction of toll calls.

CARRIER INFORMATION

Our records indicate that you have selected AT&T Long Distance or a company that resells their services as your primary local toll carrier and AT&T Long Distance or a company that resells their services as your primary long distance carrier. Please contact us if this does not agree with your records.

Terms and Conditions

THREE PAYMENT OPTIONS: Electronically: through Automatic Payment Service or Online: MySBC eBill . At an Authorized Payment Location. Or mail to AT&T Payment Center, Sacramento CA 95897 0001.

BILLING QUESTIONS: Call number in Billing Summary (see page 1), write: Residence Service, POB 9039, South San Francisco, CA 94063, or Business Service, POB 78230, San Francisco, CA 94107 or visit att.com. We will investigate and notify you. If you have a complaint you cannot resolve with us, write the California Public Utilities Commission at Consumer Affairs Branch, 505 Van Ness Ave, San Francisco, CA 94102 or at www.cpuc.ca.gov, or call 1 800 849 7570 or TDD 1 800 229 6646. If your complaint concerns interstate or international calling, write the FCC at Consumer Complaints, 445 12th Street SW, Washington, D.C. 20554, or at fccinfo@fcc.gov or call 1 888 225 5322, or TTY 1 888 635 5322. Note: The CPUC handles complaints of both interstate and intrastate unauthorized carrier changes ("slamming"). The California consumer Protection rules are available online at www.calphoneinfo.com.

FEDERAL SURCHARGES: The Federal Universal Service Fee and the Federal Subscriber Line Charge are charges imposed by action of the Federal Communications Commission.

TARIFF INFORMATION: Call 1 888 319 8800 or visit our website www.sbc.com/public_affairs.

CALLER ID SELECTIVE & COMPLETE BLOCKING: Caller ID sends your name and phone number to the person or business called. Selective Call Blocking prevents your information from being displayed for one call. Dial *67 (1167 rotary phones) before calling. Complete Blocking keeps your information from being displayed on all of your calls, except those you elect not to block. Dial *82 (1162 rotary phones) to unblock. No blocking on 911, 800 and 900 calls. Both blocking options are free.

LATE PAYMENT CHARGE: If the unpaid balance on your bill is \$30.00 or more, a late payment charge of 1.5% (calculated monthly) or \$10.00, whichever is greater, will be assessed if your payment is not received by the "LATE" date shown on the Payment Stub. For Access Services, a charge of 1.5% per month, calculated daily, will be assessed on the total unpaid balance.

call 1 888 225 5322, or TTY 1 888 835 5322. Note: The CPUC handles complaints of both interstate and intrastate unauthorized carrier charges ("slamming"). The California consumer Protection rules are available online at www.calphonainfo.com.

FEDERAL SURCHARGES: The Federal Universal Service Fee and the Federal Subscriber Line Charge are charges imposed by action of the Federal Communications Commission.

TARIFF INFORMATION: Call 1 888 319 8800 or visit our website www.sbc.com/public_affairs.

CALLER ID SELECTIVE & COMPLETE BLOCKING: Caller ID sends your name and phone number to the person or business called. Selective Call Blocking prevents your information from being displayed for one call. Dial *67 (1167 rotary phones) before calling. Complete Blocking keeps your information from being displayed on all of your calls, except those you elect not to block. Dial *82 (1182 rotary phones) to unblock. No blocking on 911, 800 and 900 calls. Both blocking options are free.

LATE PAYMENT CHARGE: If the unpaid balance on your bill is \$30.00 or more, a late payment charge of \$2.50 plus 2.0% on the unpaid balance, calculated monthly, will be assessed if your payment is not received by the "LATE" date shown on the Payment Stub.

Dear «Salut» «LName»

We want to advise you of a change to your telephone service. This action is taken based, in part, on information in your credit report and after carefully reviewing your account and payment history.

You will continue to receive one bill a month, but we will be asking you to pay the bill approximately 1 week earlier, which will be 15 days from the date the bill is mailed. Please note that your account may be placed back on a 30 day payment cycle in the future, so please be sure to pay your bill in full on or before the due by date noted on your bill each month.

Federal law requires AT&T to notify you of our credit decision. In making this decision, AT&T used credit information reported from the credit agency listed below. This agency provides information used by AT&T to make credit decisions, but is unable to provide you with specific reasons about AT&T's credit decision. Under the Fair Credit Reporting Act, you have the right to obtain a free copy of your credit report by contacting the credit agency listed below within sixty (60) days after your receipt of this notice and you have the right to dispute the accuracy or completeness of any information in the credit report furnished by the credit agency.

Disconnection Notice

Did you forget to pay your bill? Our records show that your account is past due in the amount of \$ «Amt1». If you have already sent your payment, we thank you and apologize for sending this notice.

If payment is not received by «Date2» your AT&T California services may be temporarily or permanently disconnected.

To stop temporary disconnection of your basic local service please pay \$ «Amt2». If disconnected a reconnection fee of \$«Amt5» per line will also apply.

To stop disconnection of your non-basic services please pay \$ «Amt1» plus any current charges that become past due.

Some services, such as Centrex, Remote Call Forwarding, Circuits, Coin, and others do not allow for temporary disconnection and will be permanently disconnected after the date in this notice. If you have High Speed Internet service, it will be disconnected when your telephone service is permanently disconnected.

Your basic local service will not be disconnected for failure to pay the outstanding non-basic charges. However, action may be taken such as disconnection or restriction of these services and referral of non-basic charges to a collection agency.

Your service will remain temporarily disconnected for 11 calendar days. Access to 911 (Emergency), 611 (Repair), AT&T Service Centers (Telephone Number listed on your bill), and any toll-free telephone numbers are available on temporarily disconnected telephone lines to the extent permitted by existing technology or facilities. If after 11 calendar days you have not paid all past due charges for your basic telephone service, your service (except access to 911 service for a period of at least 120 days to the extent permitted by existing technology or facilities and where such access would not preclude providing service to subscribers of residential telephone service) will be permanently disconnected and a final bill will be issued.

If you subscribe to a package, please be advised that non-payment or partial payment may result in the removal of the package discount. The services that remain on the account will be billed at non-discounted rates.

You can make a payment electronically by going online at www.att.com/bill, using the myAT&T Mobile wireless app on your smartphone or also using our Interactive Voice Response system by calling 1-800-288-2020. Courtesy Notification

As you know, your telephone service has been temporarily interrupted. However, the number is still reserved for you.

The total amount due is \$«Amt1».

If we receive payment for basic charges before the expiration date of the disconnection notice previously sent to you, we will reinstate your telephone service. A restoral charge will apply. The amount of basic charges may be obtained by calling one of the numbers shown below.

You can make a payment online at www.att.com, or by calling 1-«TN2». You may also pay at an authorized payment location. Go to www.att.com/paylocations to find a payment location near you.

After the expiration date of the disconnection notice, your service will be completely disconnected and an order for new service will be required. Reconnection charges will apply, a deposit may be required and you may be assigned a new telephone number.

If you have any questions you may call 1-«TN2» to speak with a friendly representative.

**AT&T Application or Renewal Form for Operator
Assistance and Local Directory Assistance Exemptions**

Dear [Customer name],

Your request for AT&T Operator Assistance (OA) and Local Directory Assistance (DA)* exemptions has been received or it is time for your two-year renewal.

AT&T will not charge you the surcharge for Operator Assistance if you need an Operator to assist you in placing a call due to a disability. AT&T will not charge you for using Local Directory Assistance if you cannot use a telephone directory. You must meet the enclosed disability rules. Your disability must be confirmed in writing by a doctor or certifying agent. Use of OA and Local DA exemptions will be monitored by AT&T and is subject to review. Misuse of the exemptions may result in removal.

*Local Directory Assistance (DA) exemption applies to local listings only.
The exemption does not include National DA, Reverse DA, or Business Category Search.

Operator Assistance Exemption

If you are unable to place a call due to a disability, an AT&T Operator will place the call for you and you will not be charged a surcharge. Follow the steps to receive the exemption:

- Step 1: Dial "0".
- Step 2: Say your name and that you are disabled.
- Step 3: Give the Operator the number that you would like dialed.

Local Directory Assistance Exemption

If you have a disability, AT&T will not charge you for calls to Local DA made from your approved telephone number. Calls to Local DA made from your approved telephone number will be automatically removed from your bill.

Applying for or Renewing the Exemptions

To receive the OA and Local DA exemptions or to renew them, please complete the enclosed form and return it as directed below. This form for OA and Local DA Exemptions is good for a two-year period. The doctor's or certifying agent's signature and license number must be on the form. If you do not return the completed form, your account will be billed for future OA and Local DA calls.

Renewals of OA and Local DA exemptions must be returned within 45 days of this letter. Please allow seven (7) to ten (10) business days to process your application. If approved, the exemption will appear on your bill within two bill cycles.

Our records indicate charges from your former telephone service located at previous address1 are still outstanding.

For us to continue serving you at your present address, we must receive full payment of amountdue in our office by paybydate. If we do not receive payment by this time, your present telephone service other telnumber, may be temporarily disconnected without further notice or Toll Restriction will be imposed on your current account until the balance

from your former service is paid in full.

In the case of temporary disconnection, a restoral charge of restch per line and a deposit of depositch, and all outstanding charges due for your basic service will be required before telephone service will be reconnected. If your present service is permanently disconnected, these charges will increase. If your account is currently subject to a toll and long distance availability plan, Toll Restriction will supersede your established toll and long distance availability limit.

AT&T California reserves the right to pursue other collection action for any unpaid non-basic service, including the removal of those services. (T)

Of course, any billing on your existing service must also be taken care of in accordance with the conditions under which that service is rendered.

If you wish to discuss this account, please contact us Monday - Friday between the hours of 8:00AM - 6:00PM or Saturdays between the hours of 8:00AM - 5:00PM at:

You may pay your bill by electronic check or by using a credit card that is accepted by AT&T California at no additional charge. To do so, call us at: (T)
1-877-202-4558 (residence accounts) or 1-877-711-4722 (business accounts).
You may also pay your bill at an authorized AT&T payment location. You can (T)
go online at www.att.com/paylocations to find a payment location near you. (T)

Billing for other than basic telephone service:

AT&T California will not disconnect your basic telephone service solely (T)
for non-payment of 976, 900 or 700 Information Services. If you have
any disputed charges, you may be entitled to a credit. You may request
blocking of 900 and 976 services. Also, the California Public Utilities
Commission has ordered that basic service will not be disconnected for
non-payment of toll charges or charges for other services such as voice mail,
electronic mail, voice store and forward, fax store and forward,
directory advertising, and inside wire installation that may be included
in the "Amount Due". Please call our office if you have any questions.
If you are not satisfied with the response you receive, you may file a complaint
with the CPUC.

Some services, such as Centrex, Remote Call Forwarding, Circuits, Coin, and
others do not allow for temporary disconnection and will be permanently
disconnected after the date in this notice. If service is disconnected, an
order for new service will be required.
If you have High Speed Internet service, it will be disconnected when your (T)
telephone service is permanently disconnected, requiring a new order for High (T)
Speed Internet service. Standard due dates will apply to each order for new (T)
service.

Thank you for choosing AT&T California. (T)

Payment may be made by using a credit card accepted by AT&T or by electronic (T)
check through our Interactive Voice Response system or a representative at
1-800-300-5099 (Residential) or 1-877-711-4722 (Business). You may also pay
your bill online at att.com at an AT&T payment location. You can go (T)
online at www.att.com/paylocations to find a payment location near you. (T)

Let us help make bill paying even easier for you! AT&T offers two automatic (T)
payment programs: AT&T Direct Payment and AT&T EasyCharge. Automatic payment (T)
eliminates overlooked bill and the deduction is automatic; there's no need to
contact us each month. Your regularly scheduled bill will be automatically
paid on the due date. For more information go to att.com. (T)

If you have any questions regarding this notice, please call AT&T California (T)
at 1-800-300-5099 (Residential) or 1-877-711-4722 (Business). TTY users can

*Note: Some services such as Centrex, Remote Call Forwarding, Circuits, Coin,
and others do not allow for temporary disconnection and will be permanently
disconnected if you do not keep your payment arrangement. If service is
disconnected, an order for new service will be required. If you have High (T)
Speed Internet service, it will be disconnected when your telephone service is
permanently disconnected, requiring a new order for High Speed Internet (T)
service. Standard due dates will apply to each order for new service.

**AT&T California will not disconnect your basic telephone service solely for (T)
non-payment of 976, 900 or 700 Information Services. Also, the California
Public Utilities Commission has ordered that basic service may not be
disconnected for non payment of toll charges and other services such as Custom
Calling features, High Speed Internet Access Service, voice mail, Directory (T)

Re: \$phone

Dear \$dear_cust_name:

You contacted AT&T California with a claim for \$\$claim_amount for 900/976 charges on your telephone bill(s). The conditions of your claim make you eligible for a "one-time" adjustment.

To enable us to process your "one-time" adjustment, we must receive the attached Declaration Letter, completed and signed by \$sign_by_date. Please return to \$return_address. Upon receipt, we will issue an adjustment which will include your current claim and any subsequent 900/976 calls made through the date that you notified us of your claim.

You are entitled to only one "one-time" adjustment, so please be aware of the following: Phone numbers beginning with the 900 area code or 976 prefix (within California) provide valuable information provided by independent businesses on a variety of topics. Callers are charged for each 900/976 call made, plus any applicable toll on 976 numbers. Although the charges appear on your AT&T California bill, the 900/976 rates and program content are set by the companies providing them.

We also offer Information Services Call Blocking that blocks calls to 900/976 numbers as a safeguard against future 900/976 charges.

We suggest you retain a copy of this document for your files. If you have any questions about 900/976 calls, please call AT&T California on 1-\$call_back_number.

Sincerely,

Dear _____:

Our records indicate that you have more than one California Lifeline telephone service in your household.

The California Public Utilities Commission allows only one California Lifeline telephone service per household EXCEPT where there is a disabled person in the household who has immediate and continuous access to a TTY. Our records do not indicate that you have been approved for a second Lifeline service. If you think you qualify for a second Lifeline service please call 1-800-772-3140.

Notwithstanding, there is no limit to the number of additional full rate telephone lines you may have.

Pursuant to section 5.3 of General Order 153, your additional California Lifeline telephone service _____ will be changed to the equivalent regular residence line service, effective _____. You will be back billed for any discounts that you received on this line. The monthly service rate will change from _____ to _____. In addition, you will now pay the monthly Federal Subscriber Line Charge and the Federal Universal Service Fee on your regular residential line.

If you have any questions about your eligibility for California Lifeline Telephone Service, please call your AT&T Business Office at 1-800-288-2020.

Sincerely
AT&T

K 2417

Request for Assignment of Telephone Number

(By New Applicant with Concurrence of Former Customer)

As the former customer to telephone service provided under the telephone number _____, my-self and the undersigned applicant join in requesting that AT&T California assign this same number to the telephone service to be installed at _____, if AT&T California is willing and able to do so.

At the time that AT&T California agrees to this request, the applicant will assume responsibility for all charges and obligations related to this telephone service, including contract obligations, such as directory advertising. Responsibility for these obligations will begin from the effective date of the telephone number assignment. The applicant is responsible for determining the full extent of charges and obligations from the former customer. The former customer agrees to supply this information to the applicant.

The former customer agrees to pay any charges related to the telephone service mentioned, including directory advertising, through the effective date of the telephone number assignment.

News You Can Use

EARLY PAYMENT REQUEST
Occasionally, customers incur toll charges significantly higher than their normal usage and/or their current toll credit limit. When this occurs, we issue a special bill for those charges, which is due and payable when received. This is for your benefit as well as ours, because sometimes we find that our customers are not aware of the number of calls they have placed or how high the charges have become.

PLEASE PAY NOW
Enclosed is a Special Advance Toll bill for \$271.86. These charges were incurred between 04/22/08 and 05/08/08 and are billed at full rate. These charges will also appear on your next regular bill and may be discounted at that time based on optional calling plans or special promotions. We are asking for a partial payment of 75% of the total amount due at this time. Payment of all applicable charges must be received no later than 5:00 p.m. on 05/22/08. If not paid, we will impose Toll Restriction on the notice below.

NON-BASIC SERVICE
AT&T California will not disconnect your basic telephone service solely for non-payment of 978, 900, or 700 Information Services included in the "Total Due". If you have any disputed charges, you may be entitled to a credit. You may request blocking of 800 and 978 services. Also, the California Public Utilities Commission (CPUC) has ordered that basic service will not be disconnected for non-payment of toll charges and other services such as voice mail, electronic mail, voice store and forward, fax store and forward, directory advertising and inside wire installation that may be included in the "Amount Due" on your bill. Please call our business office if you have any questions. If you are not satisfied with the response received, you may file a complaint with the California Public Utilities Commission. For further details, see "Terms and Conditions" of your bill.

HOW CAN WE HELP YOU
We recognize there could be unusual circumstances that might make it difficult for you to pay the full amount right now. If so, we'll be happy to discuss payment arrangements with you. It is important that we hear from you or receive full payment by the above date. If not paid, we will impose Toll Restriction on your account until your outstanding balance is paid in full.

HOW TO PAY THIS BILL
To ensure proper credit to your account, please use the payment receipt included with this special bill, whether you mail your payment or pay in person. Thank you for your cooperation.

LF 4585¹ Agreement Covering Minimum Period of Service Where Line
Extensions are Involved

AT&T

LF-4585 (T)

AGREEMENT COVERING MINIMUM PERIOD OF TELEPHONE SERVICE WHERE
LINE EXTENSIONS ARE INVOLVED

_____, 20____
In consideration of AT&T extending its lines beyond its existing leads, under the provisions of its (T)
tariffs on file with the Public Utilities Commission of the State of California, in order to furnish
_____ telephone service which I have applied for, to my premises at

from its _____ Exchange, I agree to retain and pay all charges for such telephone service
in accordance with said tariffs for a period of _____ consecutive months from the date such service is
established. If such telephone service is disconnected for any reason, or the application for service is
cancelled subsequent to start of construction of said line extension, I agree to pay, on demand, all outstanding
charges and an amount equal to the fixed primary monthly exchange service charges for said telephone
service for the remainder of said period or for the full period if the application for service is cancelled, or if I
have received free footage allowances as a result of being in a group project and/or from ordering a business
service, I agree to pay the Utility the differences between the line extension charges that would have been
applicable had I not received the free footage allowances. The amount payable will be based on a prorated
amount (total line extension charges divided by 36 months) times the number of months remaining in the
three-year period contract. A fraction of a month will be counted as a full month. If service is re-established,
I will receive credit or refund for each full month such service is retained during the unexpired period.

The execution of this agreement shall not limit the Company's right to collect amounts as provided
for in its tariff schedules.

This agreement shall at all times be subject to such changes or modifications by the Public Utilities
Commission of the State of California as said Commission may, from time to time, direct in the exercise of its
jurisdiction.

SBC Pacific Bell CompleteLinkSM

Confirmation of CompleteLink Agreement

This confirms your order for Pacific Bell CompleteLink Service ("Service"), an optional access and usage volume discount plan for business customers. Your election below of a Minimum Annual Revenue Commitment ("MARC") and agreement term, along with your signature indicates your acceptance of all the terms and conditions of CompleteLink set forth under the applicable Pacific Bell CompleteLink Tariff¹ and all other applicable tariffs, including, but not limited to, an Annual Under Utilization Charge and any applicable Termination Charge.

The following tariff language is provided herein for convenience only and does not supercede or modify the tariff in any way. In the event the tariff provision is changed in any way, the following is hereby modified at the same time to reflect that change. "CompleteLink customers who fail to meet their selected MARC will be billed the difference between the selected MARC and the Annual revenue billed. Customers terminating a CompleteLink plan prior to the expiration of the selected term period are subject to termination charges. Termination charges are equal to 50% of the MARC multiplied by the number of years remaining in the customer's term period. For a partial year, if the partial year revenue is less than the MARC, the customer is liable for 50% of the difference between the MARC and the actual billed revenue." In return for your acceptance of the CompleteLink terms and conditions, you are eligible to receive certain discounts and certain reduced rates as set forth under the tariff(s).

Please indicate your MARC and term length election by checking the appropriate box. (Only one can be entered).

Upon receipt of this properly completed and executed Confirmation of Service Order (including the Attachment A, CompleteLink BTN List), your order will be completed and discounts applied on your first billing statement after the order completion date.

Note: "SBC Pacific Bell FCC Interstate/IntraLATA calls do not qualify for Completelink discounts. SBC Pacific Bell Telephone Company reserves the right to bill the customer the tariffed, standard rates for these calls, including the ability to adjust billing or back bill to reflect the proper rate."

Billing for other than basic telephone service:

AT&T will not disconnect your basic telephone service solely for non-payment of 976, 900 or 700 Information Services. If you have any disputed charges, you may be entitled to a credit. You may request blocking of 900 and 976 services. Also, the California Public Utilities Commission has ordered that basic service may not be disconnected for non-payment of toll charges or charges for other services such as voice mail, electronic mail, voice store and forward, fax store and forward, directory advertising, and inside wire installation that may be included in the unpaid balance that is past due. Please call our office if you have any questions. If you are not satisfied with the response you receive, you may file a complaint with the CPUC.

*Note: Some services, such as Centrex, Remote Call Forwarding, circuits, coin or mobile telephones, and other do not allow for temporary disconnection and will be permanently disconnected after the date in this notice. If service is disconnected an order for new service will be required. If you have High Speed Internet service, it will be disconnected when your telephone service is permanently disconnected, requiring a new order for High Speed Internet service. Standard due dates will apply to each order for new service.

You can make a payment electronically by going online at www.att.com/bill, (N)
using the myAT&T Mobile wireless app on your smartphone or also using our (N)
Interactive Voice Response system by calling 1-800-288-2020. You may pay your
bill at an authorized AT&T payment location. You can go online at
www.att.com/paylocations to find a payment location near you.

*701 Toll Restriction Letter - Deposit Request

date

Account Number: telnumber-ccc

customer name

This notice is to confirm that you have agreed to accept Toll Restriction on your account in lieu of paying a required deposit.

Toll Restriction will remain on your account for a minimum of 12 months or until the outstanding balance and the required deposit are paid. If you want to remove the restriction prior to 12 months, you will be required to pay the outstanding balance and deposit. If you previously had a toll and long distance availability limit on your account, it might be reinstated once Toll Restriction is removed.

Toll Restriction prevents you from making most types of billable calls. However, you can use your telephone services for local (0-12 miles), 800, 866, 877, 888, 411, 611, 711 and 911 calls. In addition, you can also use a prepaid phone card to make billable calls from your telephone.

Toll Restriction may affect the products, services, and discounts you have on your account. For example, AT&T calling plans for Local Toll will be removed, which could result in loss of a discount. In addition, if you have an AT&T calling card, it will also be deactivated during this restriction period. However, no calling plans for Long Distance will be removed without your consent. If you have a calling plan for Long Distance or a calling card with a carrier other than AT&T, you should contact your carrier to have the plan and the card removed. (T) (T) (T)

Payment may be made by using a credit card accepted by AT&T or by electronic check through our Interactive Voice Response system or a representative at 1-800-300-5099 (Residential) or 1-877-711-4722 (Business). You may also pay your bill online at att.com or at an AT&T payment location. You can go online at www.att.com/paylocations to find a payment location near you. (T) (T) (T)

Let us help make bill paying even easier for you! AT&T offers two automatic payment programs: AT&T Direct Payment and AT&T EasyCharge. Automatic payment eliminates overlooked bill and the deduction is automatic; there's no need to contact us each month. Your regularly scheduled bill will be automatically paid on the due date. PAST DUE NOTICE

Dear NAME,

This letter is being sent to you regarding your account ACCOUNT NUMBER, which is seriously past due. As of TODAY, your account has a delinquent balance of TRT AMOUNT for certain non-basic charges, products and/or services*. Your basic service cannot be suspended for failure to pay these non-basic charges.

Unless this balance is paid by _____, your service is subject to all of the following actions:

- Removal of non-basic products and services and loss of discounts for packages when those products and services are removed;
- Notification to providers of these phone services or products who use Pacific Bell's billing and collection services that your account is delinquent. This could result in removal or disconnection of the products and services and termination charges;
- Rendering of a final bill for the unpaid charges Referral of your account to a collection agency and reporting of the delinquency to credit reporting agencies, which could adversely affect you ability to obtain credit in the future.

In order to avoid further collection action, you must pay TRT AMOUNT immediately.

Your prompt attention to this matter is requested. When making your payment be sure to include your account number, which is ACCOUNT NUMBER. If you have any questions or would like to make immediate payment over the phone, please call our office at 800-300-5099 (Residential) or 877-711-4722 (Business).

- * Non-basic charges are incurred for products and services such as 900, 976 or 700 Information Services, Custom Calling features, DSL Internet access service, voice mail, directory advertising, inside wire installation, and dial-up Internet service.

2.8 CUSTOMER PREMISES DISTRIBUTION CABLE (Cont'd) (T)

2.8.1 SALE OF IN PLACE DISTRIBUTION CABLE ON CONTINUOUS PROPERTY (T)
(D)

A. APPLICABILITY

Applicable to the sale of in place distribution cable, associated
terminals, and Utility Provided supporting. (T)
(D)
(D)

B. GENERAL

1. The sale of in place distribution cable as outlined herein provides a plan
for pricing of the Utility's nonuseful distribution cable facilities. (T)
(D)
(D)

2. The prices reflect the estimated average fair value price to the buyer
(purchaser) for distribution cable facilities that have been in service (T)
for a minimum of 12 months since their installation and the property is
classified as being in excellent, like new, or equivalent of new (T)
condition. If, on visual inspection, the Utility (seller) judges it to be
less than excellent; e.g. good, fair or poor the price is adjusted (T)
downward to reflect the true fair value of the subject facilities.

3. The pricing is applicable where like placement of equivalent distribution
cable facilities is judged by the Utility as presenting no unusual
placement constraints that result in excessive placement costs. (T)

The majority of facilities so placed fall within the bounds covered by
matrix pricing.

Facilities not covered by the pricing, including property that has not (T)
been in service for a minimum of 12 months since its installation, fiber,
manholes, shielded cable, etc., will be priced on an individual basis and
based upon the same pricing concepts that underly the prices. In (T)
exceptional circumstances the Utility or the buyer may refer the matter
to the Public Utilities Commission for special ruling.

B. GENERAL (Cont'd)

5. The Utility's obligation to perform a requested inventory and appraisal is contingent upon execution by the prospective buyer of a "Purchaser Commitment Agreement." Said agreement commits the prospective buyer to reimburse the Utility for its cost of conducting the inventory and appraisal based upon a formula set forth therein. This cost reimbursement shall not exceed an amount estimated in the Agreement. This charge is not applicable if all facilities inventoried are purchased and is reduced to the extent that a portion of the total facilities inventoried are purchased. This formula is set forth in the agreement contained in Schedule Cal.P.U.C. No. A2.3.1. If for any reason whatsoever the Utility, upon completion of the inventory and appraisal, determines not to sell all or a portion of the desired facilities, the inventory and appraisal cost for such portion of the facilities will not apply. (T)

C. TERMS AND CONDITIONS OF SALE

Terms and conditions of sale are as set forth in the "Contract For The Purchase And Sale of Pacific Bell's In Place Distribution Cable Facilities on Continuous Property" contained in Schedule Cal.P.U.C. No. A2.3.1. (T)

D. REGULATIONS

1. Distribution cable facilities consist of cable and associated equipment on a continuous property. Also included are any Utility provided supporting structures that are part of, and associated with, such facilities. (T)
(T)
(D)
(D)
2. The selling price will be based on current installation costs for labor and material, less any appropriate allowance for condition as from the prices included in this schedule. Certain facilities not calculated covered by the pricing in F. following are individually priced as stated in B.3. preceding. Pricing will be adjusted periodically to reflect current values. (T)

4. Rearrangements made for the sole convenience of the Utility will not be billed to the buyer. Rearrangements made solely for convenience of the buyer will be billed to the buyer. Any special removal procedures requested by the buyer that incur extraordinary costs may be recovered based on current costs for labor and material used. All applicable charges for such rearrangements must be paid in advance before the work is performed by the Utility. (T)
5. Limitation of liability as set forth in Schedule Cal.P.U.C. No. A2.1.14. shall apply.
6. The Utility reserves the right to:
- a. Obtain adequate access and use of the cable facilities for the installation and maintenance of other equipment and services as required by existing tariffs. (T)

3. Distribution Cable Facilities - Condition Classification for Pricing Plan

- a. Fair value pricing for distribution cable facilities offered for sale/purchase takes notice of the condition of the subject facilities and its value in relation to new facilities. The criteria for determining the condition and the means for reflecting such finding in fair value pricing is set forth in the chart below.
- b. Price amounts included on the pricing sheets reflect fair value prices for facilities classified as being in condition excellent, like new or equivalent of new. If on visual inspection of the subject facilities, its condition is found to be less than excellent, e.g. good, fair or poor, the designated condition adjustment factor, applied to the price, establishes the fair value price. This latter calculation is performed as indicated on Pricing Worksheets Nos. 2 through 4 contained in Schedule Cal.P.U.C. No. A2.3.1. (T)

c. Classification Chart:

<u>Condition</u>	<u>Alpha</u>	<u>Condition Adjustment Factor</u>	<u>Criteria</u>
Excellent	E	-	Like new or equivalent of new
Good	G	.90	Not equivalent of new; some evidence of wear or loss of structural support but appears satisfactory for continued use.
Fair	F	.75	May need some repair in the near future; evidence of wear, damage, or loss of structural support, however, there is no need of immediate rerouting, refastening, or replacing.
Poor	P	.45	Needs rerouting, refastening, or other necessary refurbishment.
Defective	D	.10	Largely unusable and not repairable from an economic standpoint. Should not be sold except for restrictive use.
