

1. PRIMARY RATE ISDN (PRI) (cont'd)**B SERVICE (cont'd)****3. OPTIONAL FEATURES (cont'd)****k. Enhanced Alternate Route**

Allows incoming voice or data calls to overflow on a disaster and busy basis to a line side and trunk side connection designated by the customer. Subject to technical capabilities, routing is not limited to another PRI arrangement, trunk group or private facility as is the Alternate Route feature. A route may be limited in the number of simultaneous calls that can be routed. The Enhanced Alternate Routes must be billed at the same usage rate basis.

l. Deluxe Call Transfer

An optional feature which allows the customer to transfer an incoming call to any dialable telephone number, freeing the incoming channel for the next call upon transfer completion. Also allows for the use of a single channel on 3-Way Calling. Available where technical capability exists.

m. Inform 911

An optional upgrade feature which allows the Calling Party Number of the station to be sent to the E911 database rather than the Billed Telephone Number. Available where technical capability exists. It is the customer's responsibility to provide station number updates to the 911 database.

n. Station Record Detail

An optional feature that will provide the customer with the station number of all originating calls on the customer bill so that call information can be tracked at a station level. Available where technical capability exists.

o. ISDN PRI – Circular Hunt

ISDN PRI – Circular Hunt is an optional feature that searches for an idle B channel at either the last channel to have accepted a call or the last channel to have attempted to place a call. This allows all call attempts to move through the route list of available B channels within the trunk group in a forward (ascending) circular fashion thereby evenly distributing traffic through all B channels in the trunk groups within the route list. Available where technical capability exists.

1. PRIMARY RATE ISDN (PRI) (cont'd)**B SERVICE (cont'd)****3. OPTIONAL FEATURES (cont'd)****p. ISDN Calling Name Delivery**

Allows ISDN PRI Calling name Delivery with call control to send calling party name to ISDN Class II equipment.

q. Redirected Number

Provides the redirected number (i.e., the directory number to which the call was last presented) to the Customer Provided Equipment (CPE), as well as the calling number in cases where call forwarding is invoked. If during the call establishment phase, the call is redirected to another directory number by call forwarding, both the calling party number and the redirected number are delivered to called party. If a call is redirected multiple times, only the first and last redirected numbers are delivered.

r. Two B-Channel Transfer

Allows the ISDN PRI to connect two calls, transfer the call together and then release the parties from the ISDN PRI.

s. Selective Class of Call Screening

Allows the user, by means of Telephone Company identification, to restrict outgoing calls to those which are charged to the called telephone number, a third number, or a Telephone Company calling card.

t. Unlimited Local Calling

Provides unlimited local usage for directly dialed calls made to Zone Usage Measurement (ZUM) Zones 1, 2, and 3 areas as specified in Guidebook Part 4, Section 1. Customers selecting the Unlimited Local Calling will pay a flat rated monthly charge for usage, as specified in 1.D, following.

Unlimited Local Calling applies to Circuit Switched Voice (CSV) and Circuit Switched Data (CSD) calls for an additional Monthly Recurring Charge. In addition, Unlimited Local Calling may not be combined with any other local calling plans including local optional calling plans governed under the 96-A contract. Combinations of local message units, ZUM, and/or other optional local usage packages or plans are not allowed with Unlimited Local Calling for the same customer of record and furnished at the same premise. Unlimited Local Calling is not available on Toll Free, 900 or 976 services.

1. PRIMARY RATE ISDN (PRI) (cont'd)

B SERVICE (cont'd)

3. OPTIONAL FEATURES (cont'd)

p. ISDN Calling Name Delivery

Allows ISDN PRI Calling name Delivery with call control to send calling party name to ISDN Class II equipment.

q. Redirected Number

Provides the redirected number (i.e., the directory number to which the call was last presented) to the Customer Provided Equipment (CPE), as well as the calling number in cases where call forwarding is invoked. If during the call establishment phase, the call is redirected to another directory number by call forwarding, both the calling party number and the redirected number are delivered to called party. If a call is redirected multiple times, only the first and last redirected numbers are delivered.

r. Two B-Channel Transfer

Allows the ISDN PRI to connect two calls, transfer the call together and then release the parties from the ISDN PRI.

s. Selective Class of Call Screening

Allows the user, by means of Telephone Company identification, to restrict outgoing calls to those which are charged to the called telephone number, a third number, or a Telephone Company calling card.

t. Unlimited Local Calling

Provides unlimited local usage for directly dialed calls made to Zone Usage Measurement (ZUM) Zones 1, 2, and 3 areas as specified in Guidebook Part 4, Section 1. Customers selecting the Unlimited Local Calling will pay a flat rated monthly charge for usage, as specified in 1.D, following.

Unlimited Local Calling applies to Circuit Switched Voice (CSV) and Circuit Switched Data (CSD) calls for an additional Monthly Recurring Charge. In addition, Unlimited Local Calling may not be combined with any other local calling plans including local optional calling plans governed under the 96-A contract. Combinations of local message units, ZUM, and/or other optional local usage packages or plans are not allowed with Unlimited Local Calling for the same customer of record and furnished at the same premise. Unlimited Local Calling is not available on Toll Free services.

(C)
(C)

1. PRIMARY RATE ISDN (PRI) (cont'd)**B SERVICE (cont'd)****3. OPTIONAL FEATURES (cont'd)****t. Unlimited Local Calling (cont'd)**

All PRI packages billed to the same customer of record and furnished at the same premises, including additional and auxiliary service, must be uniformly on the same rate basis and not on a combination of rate methods. The customer may not have both Unlimited Local PRI and Measured/Message PRI service at the same address. Unlimited Local PRI may not be provisioned to overflow to Measured/Message PRI service or vice versa.

For existing ISDN PRI customers requesting the addition (or deletion) of the Unlimited Local Calling, the feature is bill-round sensitive. Regardless of the day of the month the customer adds (or removes) the Unlimited Local Calling feature, it will begin (or end) at the commencement of the current or the immediately following bill cycle.

Customers choosing the current bill cycle, the monthly recurring rate for the Unlimited Local Calling optional feature will be effective with the commencement of the current bill cycle. The monthly recurring rate will be billed for the current cycle in addition to being applied in advance of the usage minutes. The usage minutes will be applied to the Unlimited Local calling feature at the end of the current billing cycle and appear on the customer's next bill.

Customers choosing the following bill cycle, the monthly rate for the Unlimited Local Calling feature will be applied in advance of the usage minutes. The usage minutes will be applied to the Unlimited Local Calling feature at the end of the billing cycle and appear on the customer's next bill following the bill representing the current bill cycle.

Customers disconnecting Primary Rate ISDN service and their PRI service includes Unlimited Local Calling, the Unlimited Local Calling monthly recurring rate and local usage will be prorated to the date of termination.

Customers installing new Primary Rate ISDN service and Unlimited Local Calling at the same time, Unlimited Local Calling is not bill-round sensitive. The Unlimited Local Calling feature monthly recurring rate and local usage will be prorated to the date of installation.

Unlimited Local Calling is not available on Toll Free, 900 or 976 services.

Unlimited Local Calling is in addition to the rates for ISDN PRI as set forth in 1.D., following.

1. PRIMARY RATE ISDN (PRI) (cont'd)**C REGULATIONS (cont'd)****12. PAYMENTS AND CHARGES (cont'd)****b. PRI Returns**

The Company will waive the applicable non-recurring charges for one or more new Primary Rate ISDN interface(s) and associated first exchange service, for eligible business customers converting service from another provider to the Company as their telecommunications service provider, providing that:

The customer maintains the service for which non-recurring charges are waived for a period of two or more years.

If the customer disconnects their PRI service prior to the expiration of their term commitment, the Company will bill the customer for, and the customer will be required to pay, the lesser of:

The sum of all discounts rendered under the terms of this agreement, plus 10% annual interest¹, prorated monthly. Discounts are defined to include reductions to monthly Guidebook rates, full or partial waivers of non-recurring charges, and any other credits or discounts that have been rendered under the terms of this agreement, or

The total monthly charges or minimum annual commitments remaining on the service term discounted by 10%.

/1/ The annual interest rate shall be calculated as the maximum rate permissible by law, not to exceed the Company's approved Cost of Capital.

1. PRIMARY RATE ISDN (PRI) (cont'd)**C REGULATIONS (cont'd)****12. PAYMENTS AND CHARGES (cont'd)****b. PRI Returns^{/1}**

(C)

Customers governed under a contract or promotion may not participate in this Guidebook offer.

(C)
(D)

c. Migration to Business Voice Over IP (BVoIP) Service

(N)

If a customer governed under an existing contract migrates a PRI service or service component, including DS1 used as transport for AT&T ILEC PRI service (the "Terminated ILEC Service") to a qualifying AT&T Business Voice over IP (BVoIP) Service, then AT&T will waive the early termination fee associated with the Terminated ILEC Service if:

1. the Terminated ILEC Service has been installed at the Customer site for no fewer than 12 months, and
2. the term for the replacement AT&T BVoIP Service agreement is equal to or greater than the remaining term for the Terminated ILEC Service, and
3. the replacement AT&T BVoIP Service is installed or available at the same Customer site as the Terminated ILEC Service.

It is at the Company's sole determination whether a product change satisfies these requirements.

(N)

13. Moves

(N)

Change in the physical location ("Move") of PRI service, which requires simultaneous service operation at both the current location ("Replaced Service") and the new location ("New Service") for a finite period of time ("Overlapping Service") or which is accomplished through a coordinated disconnection of the Replaced Service and simultaneous connection of the New Service ("Flash Cut"), whether within the same serving central office or to a different serving central office, will not incur early termination fees as a result of the Move, subject to the following conditions:

- a. The customer retains the current contract term or converts to a new contract term having an expiration date which is beyond that of the current contract.
- b. PRI Move Charge, as described in paragraph 1.C 12. a. (2), as well as applicable charges for the move of the transport element, apply. The customer will experience some down time on the PRI Service during the physical Move of the transport element.
- c. A service order must be placed for the New Service. If the customer retains the current contract, the Monthly Rates for the New Service will be equal to the Monthly Rates of the Replaced Service. If the customer converts to a new contract (see a.), Monthly Rates for the PRI and all associated Optional Features, as specified in 1.D., apply.
- d. The New Service location must be anywhere the Company provides PRI service pursuant to this guidebook.
- e. Upon moving the Replaced Service to the New Service, the Replaced Service contract will be modified to apply to the New Service, but will not otherwise be affected by the Move. The New Service will take the place of the Replaced Service for the remainder of the existing contract term, or the duration of the new contract term having an expiration date which is beyond that of the current contract (see a.). Disconnection of the Replaced Service will not incur early termination fees, except as noted in (g).
- f. No lapse in billing will occur for Moves of service under a contract.
- g. Any Optional Features and functions from the Replaced Service that are not re-established with the New Service at the time of the installation will be subject to applicable early termination fees.

13. Moves (cont'd)

- h.** Any additions of Optional Features and functions made to the New Service under an existing contract that is retained will be treated as coterminous additions under the terms and conditions of that contract.
- i.** Any quantities of PRIs in excess of the current quantity of the Replaced Service will be treated as new installations.
- j.** In the event of early termination of this service, the customer will be liable for any and all applicable early termination fees.
- k.** Additionally, for Moves requiring Overlapping Service (only), the Move and subsequent disconnection of the Replaced Service must be completed within ninety (90) days of the New Service install date, or prior to expiration of the current contract term, whichever occurs first.
