5. Limitations or Special Conditions

a. Foreign Exchange Service Extended into a Different LATA

The offering of Foreign Exchange service crossing a LATA boundary is limited to customers of record as of January 30, 1985. Existing customers may continue with their present service until such time as the service is disconnected. A move or change to another location will terminate this grandfathered status. Supersedures are not allowed.

b. Intercompany Foreign Exchange

Foreign Exchange provided from a Connecting Company is dependent upon the availability of facilities from that Company.

In addition to the basic exchange services, foreign exchange station service, mileage and usage rates contained in these tariff schedules, other rates and charges for optional services may apply from Connecting Companies. Such optional services, will be provided in accordance with the tariff provisions of the Connecting Company¹.

c. Remote Island Areas

Foreign Exchange service will not be offered from a remote island area.

- d. The offering of residence individual line flat rate foreign exchange service from those foreign exchanges which offer residence individual line measured rate service is limited to customers of record as of August 28, 1981, or the date the exchange converted to measured service, which is later. Customers with residence individual line flat rate foreign exchange service may continue with the flat rate service until disconnection at the existing premises. All applicants for new service will be furnished residence measured rate service, except for the routes listed below:

D. FOREIGN PREFIX SERVICE

1. Description

Service of a prefix furnished within an exchange or district area from a central office other than the central office normally serving the area in which the primary station is located.

2. Regulations

- a. Where facilities and operating conditions permit, a prefix furnished within an exchange or district area from a central office other than the normal serving central office, as designated by the Utility, will be furnished subject to the basic access line rate, foreign exchange increment charge, usage, and mileage charges as shown in F.2.g.(3) following.
- b. Foreign Prefix Service is limited to individual line residence service, except Universal Lifeline Telephone Service.

3. Application of Charges for Foreign Prefix Service

Where facilities and operating conditions permit, a prefix furnished within an exchange or district area from a central office other than the normal serving central office, will be furnished subject to mileage charges for the airline distance between these central offices. This central office mileage charge is in addition to applicable rates and other mileage charges, i.e. foreign exchange or foreign district area mileage charges, as shown in F.2.g.(3) following.

4. Foreign Prefix Service in Conjunction with Intercompany Foreign Exchange or Foreign District Area Service:

Where facilities and operating conditions permit, Foreign Prefix Service may be provided in conjunction with the Utility's or Connecting Company's Foreign Exchange Service or Foreign District Area Service. The Foreign Prefix Service charge shown in F.2.g.(3) following, will apply.

5. Utility initiated Prefix Assignments

Customers who are assigned numbers in prefixes served from other than their normal serving central offices at the initiation of the Utility may retain these numbers, at the discretion of the Utility, without application of the charge for Foreign Prefix Service for these services as long as the location of the primary station remains within the same building.

If the primary station location is moved to another building, the customer has a choice of obtaining a new telephone number or retaining the present telephone number at the additional Foreign Prefix Service charge per line as shown in F.2.g.(3) following.

Where the Utility has waived application of Foreign Prefix Service charges under the conditions described, the Foreign Prefix Service charge will be applied to additional lines, served from other than their normal serving central office, as may be ordered by the customer.

6. Territory

- (2) Zone 3 message rates apply to all calls (including Flat Rate Service) within the originating exchange's Zone 3 when such calls originate from all services.

- (3) ZUM Billing

Day Evening, Night and Weekend Rates are applicable to all calls based on the initial and additional minutes of use as shown below:

All local, extended area, and Zones 1 and 2 calls are summarized

Zone 3 calls, if applicable, are individually billed.

- (4) Zone Mileage

In general¹, Zone calling mileage is applicable as follows:

<u>Zone</u>	<u>Rate Center Mileage</u>
1 (Local Calls)	0-8 miles
2 (Local Calls)	9-12 miles
3	13-16 miles

- (5) Usage Allowances

- (a) Usage allowances will apply to all local calls and the three zones in a ZUM exchange. Usage allowances are not applicable to message toll calls.

NOTE 1: Exceptions made by Commission approval.

(5) Usage Allowances (Cont'd)

(b) Customers with Individual Line Measured Rate Residence (1MR) service, the monthly billing for usage will be the customer's accumulated usage for the billing period at the rates shown in D.1. following, less the applicable usage allowance. If the usage does not exceed the usage allowance, the customer will not be given credit in subsequent billing periods for the unused portion of the usage allowance.

(c) For accounts to which more than one service is billed, the monthly billing for usage for each account will be the total accumulated usage for the billing period at the rates shown in D.2. following, less the sum of the applicable usage allowances for each such account. When the usage does not exceed the sum of the applicable usage allowances, the customer will not be given credit in subsequent billing periods for the unused portion of the usage allowances.

f. Service charges do not apply in connection with regrades of residence services between measured rate and flat rate services for a period of 120 calendar days after the completion of the implementation of Zone Usage Measurement in an exchange or district area of an exchange.

3. Territory

Within the base rate area or suburban area of a listed exchange, district area or zone as said areas and zones are defined on maps filed as part of the tariff schedules.

D. SURCHARGE

1. Explanation

Pursuant to order of the California Public Utilities Commission and the provisions of Section No. 2881 of the California Public Utilities Code, each certified deaf or severely hearing impaired subscriber or user, requiring a means of communication over the telephone system, will be furnished a Telecommunications Device and/or a signal unit at no charge in addition to basic exchange service in accord with the provisions of Schedule Cal.P.U.C. No. A3. Pursuant to Decision No. 87-04-027 products and services for certified disabled individuals will also be made available at no charge. The cost of providing such minimum basic equipment features will be charged to a Trust Fund.

Pursuant to Resolution No. T-17127 dated December 20, 2007, a surcharge of 0.20% will be applied to all telecommunication utility subscribers' intrastate tariffed services, both within a service area and between service areas. This percentage rate surcharge will take effect on January 1, 2008, and shall be identified on subscribers' bills as the California Relay and Communications Devices Funds which includes a 0.20% surcharge rate for the Deaf and Disabled Telecommunications Program and a 0.000% surcharge rate for the Telecommunications Devices for the Deaf Placement Interim Committee. This surcharge will remain in effect until otherwise ordered by the Commission. (C) (R)

The Utility shall not be liable for any and all penalties, losses or damages sustained by any carrier, or its customers, as a result of its use and concurrence of the Public Program Surcharge rates and the Commission Reimbursement Fee rate contained in the Utility's tariffs under Resolution T-16901.

The Utility shall not be liable for any and all claims arising out of any act or omission by the Utility as a result of a carrier's use and concurrence of the Public Program Surcharge rates and the Commission Reimbursement Fee rate contained in the Utility's tariffs under Resolution T-16901.

The Utility shall be indemnified, defended and held harmless by all carriers against any claims, loss or damage arising from a carrier's use and concurrence in the Public Program Surcharge rates and the Commission Reimbursement Fee rate contained in the Utility's tariffs under Resolution T-16901.

5.2.4 CONCESSION SERVICE

A. SERVICE TO EMPLOYEES

1. Description

Rates and regulations applicable to residential telephone service furnished to active and retired employees of the Utility. Concession service and program eligibility is determined by the Utility.

2. Regulations

- a. The Utility provides discounts on various products and services provided by the Utility, as well as SBC affiliates, on a concession basis, for one set rate¹, to its active employees and to those who are receiving service or disability pensions as follows:

- (1) Class A concession applies to all bargained-for employees with 30 years or more of service.

After December 31, 1998, Class A concession will no longer be offered, except to bargained-for employees with this class of service as of December 31, 1998, and bargained-for employees with a Class B, and C concession who reach 30 years of service on or before December 31, 2000.

- (2) Class B concession applies to active management employees (other than those qualifying for Class A) whose duties require them to be on call at any time. Class B concession eligibility is determined by the Utility¹. (N)

- (3) Class C concession applies to all other bargained-for employees.

After December 31, 1998, Class C will no longer be offered except to bargained-for employees who have this type of service as of December 31, 1998.

- (4) Class E concession applies to all bargained-for employees hired on or after January 1, 1999, or who have not received concession service before December 31, 1998, and bargained-for employees who moved from outside the Utility's service area into the Utility's service area after December 31, 1998.

NOTE 1: At the discretion of the Utility, rate subject to change and other terms and conditions relative to eligibility may apply.

- b. The rate treatment following is applicable to all basic exchange services, local toll calls, and custom calling features with the following exceptions:

Foreign exchange service charges, and additional directory listings¹ are not applicable to concession service.

The available residential custom calling features are those switch-based services that control the flow of incoming and outgoing calls; these services do not include equipment.

3. Limitations or Special Conditions

- a. To be eligible for this benefit and associated discounts, all recipients must select the Utility as their telephone service provider and SBC affiliate products whenever there is a choice³.

Effective December 31, 1998, telephone concession for employees out of the Utility's service area will be eliminated, except for those employees of record who have the service at their primary residence location as of December 31, 1998.

- b. Concession eligible employees and retirees who elect to receive the custom calling features must have selective blocking of the name and number dialing.

Effective January 1, 1999, all recipients (except retirees with a Class P or R⁴), must have selective blocking of the name and number delivery in order to be eligible to receive a concession service. (T)

- c. All recipients must allow for publication of their telephone number in the Utility's directory².

- d. Concession service is employee initiated. Concession service will not be provided retroactively.

NOTE 1: Except where the additional listing is for an employee qualifying for concession service.

NOTE 2: Exceptions are made when privacy is required for security reasons.

NOTE 3: At the discretion of the Utility, rate subject to change and other terms and conditions relative to eligibility may apply.

- b. The rate treatment following is applicable to all basic exchange services, local toll calls, and custom calling features with the following exceptions:

Foreign exchange service charges, and additional directory listings¹ are not applicable to concession service.

The available residential custom calling features are those switch-based services that control the flow of incoming and outgoing calls; these services do not include equipment.

3. Limitations or Special Conditions

- a. To be eligible for this benefit and associated discounts, all recipients must select the Utility as their telephone service provider and SBC affiliate products whenever there is a choice³.

Effective December 31, 1998, telephone concession for employees out of the Utility's service area will be eliminated, except for those employees of record who have the service at their primary residence location as of December 31, 1998.

- b. Concession eligible employees and retirees who elect to receive the custom calling features must have selective blocking of the name and number dialing.

Effective January 1, 1999, all recipients (except retirees with a Class P or R⁴), must have selective blocking of the name and number delivery in order to be eligible to receive a concession service.

- c. All recipients must allow for publication of their telephone number in the Utility's directory².

- d. Concession service is employee initiated.

(D)

(D)

NOTE 1: Except where the additional listing is for an employee qualifying for concession service.

NOTE 2: Exceptions are made when privacy is required for security reasons.

NOTE 3: At the discretion of the Utility, rate subject to change and other terms and conditions relative to eligibility may apply.

NOTE 4: Effective June 30, 2005 Class P and Class R are no longer offered to retired employees who are eligible to enroll in the SBC@home Program.

Employees eligible for Class C concession and have a bona fide second residence are eligible for a Class C concession at the second residence. Class B concession eligibility is determined by the Utility¹. (N)

Effective January 1, 1999, a second residence concession is no longer offered, except for qualifying employees who have a second residence concession on or before December 31, 1998. A change to a second residence location after December 31, 1998 will terminate this eligibility.

- f. Election to receive the concession benefit and associated discounts, requires all recipients to select the Utility as their telephone service provider and SBC affiliate products whenever there is a choice¹, services are available, and where operating conditions of the Utility permit.

g. SBC@homeSM Program

- (1) SBC@homeSM program is a package of products and services provided by the Utility and SBC affiliates offered as an optional discount to eligible SBC employees and retirees². Eligible participants subscribing to this package will receive the full package of these products and services for one set rate¹. The full package rate will apply regardless of whether or not all products and services are ordered or utilized by the eligible participant. Only one Core Package will be offered per participant, and a maximum of two additional lines are allowed (see also (6) following). (T)
(T)

- (2) Concession code for the SBC@homeSM program is X.

NOTE 1: At the discretion of the Utility, rate subject to change and other terms and conditions relative to eligibility may apply.

NOTE 2: The SBC@homeSM Program applies to (1) active management employees, (2) management retirees, (3) non-management employees in collective bargaining units covered by an agreement for SBC@homeSM, and (4) non-management retirees except post-1998 non-management retirees. Additional criteria for employee and retiree eligibility are determined by the Utility.

A. FARMER LINE SERVICE - BUSINESS³

(T)

1. Description

(N)

Exchange service furnished in suburban area of an exchange by use of lines provided, owned and maintained in part by customers to the service. This service applies to individual and multiparty line services.

2. Regulations

- a. Rates for service other than extended service comprehend local service without additional charge to all stations receiving service from the exchange from which the service is furnished.
- b. Rates for extended service in other than Zone Usage Measurement Service areas comprehend service without additional charge as set forth in Schedule Cal.P.U.C. No. A5.1.1,B. Local Calling Areas, which defines the local service areas.

Rates for extended service in Zone Usage Measurement Service areas comprehend service as set forth in Schedule Cal.P.U.C. No. A5.2.1,B. Zone 1 and 2, which indicates the local service areas.

- c. Service is furnished outside the base rate area and within the exchange area. A farmer line station shall not be located within the base rate area. If subsequent to a base rate area expansion, an existing farmer line service located within the expanded area may be retained by the subscriber or successors at the same location until discontinued at the request of the subscriber. A farmer line shall not extend across an exchange area boundary (except upon a foreign exchange basis¹), cross into unfiled territory, nor be extended to another property².
- d. Service will be furnished from the base rate area or the Utility's nearest existing distribution facility at the option of the Farmer Line customer at appropriate rates shown in 4. following. Farmer Line service is offered subject to the availability of facilities and the requirements of the Utility's exchange telephone service.

- (1) The Utility will provide, own and maintain all lines and facilities used to furnish farmer line service to the boundary of the base rate area or a suitable point of connection at existing facilities.

NOTE 1: See j. following.

NOTE 2: Except for right-of-way access, see d.(3) following.

NOTE 3: Material formerly reflected on Sheets 309 and 310.

2. Regulations (Cont'd)

d. (Cont'd)

(2) Farmer line customers will normally provide, own and maintain all lines and facilities beyond the boundary of the base rate area or beyond the point of connection of existing facilities as designated by the Utility.

(3) The Standard Network Interface (SNI) will be located at a suitable point on the customer's property as determined by the Utility, except as follows: Remote SNIs (SNIs not located at the customer's property) will only be installed at another property if the farmer line customer has obtained permission (in writing) from the owner of such property. If the Utility's service facilities or the customer's farmer line are installed on property other than the customer's property and the owner of such property revokes their permission to use it, the Utility shall have the right to discontinue service upon 10 days written notice, without obligation or liability to the customer. If service is discontinued under these conditions, the customer may have service reestablished under the provisions of Schedule Cal.P.U.C. No. A2.1.16 or Schedule Cal.P.U.C. A4.3.

(4) Farmer line service will be furnished provided the line and other facilities owned by the customers are suitable for telephone use and are in an operating condition. The Utility reserves the right to discontinue telephone service to a customer or customers served by a farmer line by disconnection of such farmer line if a fault in any part of the line or other facilities provided by the customer or customers causes interference with service furnished to other customers, and may refuse to reconnect the line until the fault is corrected and the line and other customer-owned facilities are placed in an operating condition.

e. Exchange service telephone calls requiring the assistance of a telephone company operator, see Schedule Cal.P.U.C. No. A5.2.

f. Farmer line service will not be provided within a remote island area.

g. Inside Wire Repair Plans are not available to Farmer Line services.

h. Verification of a busy line condition and/or interruption of a conversation in progress at the calling party's request will be provided as set forth in Schedule Cal.P.U.C. No. A5.8.1.

i. Multiparty Line Services

Farmer line service will be furnished to two or more customers on a single service arrangement. Service will be furnished only to a designated secretary or manager who will be considered to be the customer and who will be responsible for the payment of charges and other obligations in connection with the use of the service. It shall be the duty of the members of each farmer line to appoint or designate a secretary or manager for such line and no new member shall thereafter be connected to said line nor will the Utility assign a number to a new member on such line except on written authority from such secretary or manager. Telephone service will be furnished to a farmer line only when service at the following rates is subscribed for in connection with each telephone connected to the line. Should a telephone for which service has not been subscribed be connected to a line, it shall be the duty of the secretary or manager to disconnect such telephone and refuse to permit its reconnection until proper arrangements have been made for service with both the manager of the line and the Utility. The Utility shall render bills for exchange and toll service to the individual members of the farmer line unless requested to do otherwise by the secretary or manager. If a customer fails to pay a bill within the period set forth in regulations, the Utility may ask the secretary or manager to assist in collecting the unpaid bill. If, after reasonable effort the secretary or manager is unable to effect collection, the Utility will assume full responsibility for the unpaid charges. In case the Utility does not secure payment of all charges against each member on any line within the period set forth in regulations, the Utility may deny exchange and toll telephone service to the line as a whole until the bill for such charges shall have been paid or until the Utility shall have received notification from the secretary or manager that the telephone of the member or members from whom payment has not been received has been disconnected from the line.

j. Foreign Exchange Farmer Line Service

Service will be furnished from an exchange listed in this schedule to a contiguous exchange under the following rates and further regulations applicable specifically to a foreign exchange farmer line service:

- (1) For multiparty services, the rate per station will be one and one-half times the appropriate farmer line rate applying in the exchange from which the service is furnished.
- (2) For individual line services, the rates applicable are as set forth in A5.1.4 preceding.
- (3) Service will be furnished subject to the same regulations as to the use of the service by other than the customer and their representatives which are applicable in connection with other classifications of customer's telephone service. Foreign exchange service will not be provided for public use.
- (4) The toll rates applicable in connection with toll service over foreign exchange farmer lines will be in accordance with the toll tariff provisions of the foreign exchange.
- (5) A farmer line may not be connected to more than one exchange, cross into unfiled territory, nor be extended to another property¹. In the event that the farmer line is so connected and upon failure, after notice to the customers of record on that line, to comply with the above provision, the Utility shall then have the right to disconnect that line from any or all of the exchanges to which it is connected.

C. TOLL BLOCKING²

1. Description

Toll Blocking will prohibit the completion of billable toll calls. Customers will continue to be able to complete the following types of calls: 411 (directory assistance), 611 (repair), 911 (emergency service) and 800 calls. Attempts to complete billable calls will be blocked. Customers subscribing to Toll Blocking will have the option of placing toll calls using the Utility's or IEC's calling card³, if calls are placed from lines that are not equipped with Toll Blocking. Customers subscribing to Toll Blocking will also have the option of accepting or rejecting collect and third number billed calls.¹ (N)

2. Regulations

- a. Toll Blocking is only available to customers with the following types of service: Residence Flat Rate Service, Residence Measured Rate Service, Universal Lifeline Telephone Service and single line business service.
- b. Toll Blocking will prohibit the completion of the following types of calls: Message Telecommunications Service (a.k.a. Local Plus), Interexchange Toll Service (including PIC), 10XXX, 950 access, 900/796, 700 service, 0-, 0+, 0++ originating calls, collect calls, and third number billed calls¹.
- c. Customers subscribing to Toll Blocking will continue to be able to complete the following types of calls: local calls (Zone 1 and 2), and 800 calls. Customers will continue to have access to 411, 611 and 911.
- d. Customer subscribing to Toll Blocking will be responsible for the payment of all completed calls as set forth in Schedule Cal.P.U.C. No. A2.1.9.
- e. Toll Blocking will be provided where facilities and operating conditions permit.

NOTE 1: Some calls originating from locations that do not have screening capabilities may not be intercepted and denied. These calls, e.g. International calls and calls that do not go through a billing validation data base will be billed to the customer if completed. (T)

NOTE 2: Toll Blocking will not be available (implemented) until December 4, 1995.

NOTE 3: Frozen/Grandfathered Calling Cards, effective February 19, 2007. See General Regulations, Schedule Cal.P.U.C. No. A2.1.2,A.4. (D) (N)

D. SWITCHED SERVICE 56

(T)

1. DESCRIPTION

Switched 56 is a digital access line that provides customers with circuit switched digital transmission at 56 Kbps. (T)

Switched 56 is designed for digital data applications with a full duplex, digital, synchronous 56 Kbps data transmission rate. (T)

Switched 56 inter-operates with existing suitably equipped CenPath and Centrex ISDN BRA products at 56 Kbps. (T)

The customer must provide a compatible Channel Service Unit/Data Service Unit (CSU/DSU) with digital capability or a compatible Data Unit (DU) in addition to the inside wire required to connect to the Utility.

Outgoing calls may be placed to switched 56 capable access circuits served from the same switch, other equipped intraLATA serving wire centers, or over an Interexchange Carrier wide area network to InterLATA and international destinations.

2. DEFINITION

Remote Service

Facilities used to serve a customer where the Switched 56 serving centraloffice switch does not coincide with the customer's serving wire center. (T)

3. REGULATIONS

a. Switched 56 is a service provided to measured business customers only. It is available only where measuring capability exists and where equipment and operating conditions permit. (T)

b. The customer will be served from the nearest serving wire center equipped with switched 56 feature capability. This serving wire center may be remote to the customer's usual wire center.

3. REGULATIONS (Cont'd)

c. Where served from a remote wire center, Message unit, Zone Usage, and toll rates associated with the Switched 56 access line will be in accordance with the tariff provisions of the remote exchange. (T)

d. Reserved

e. An Switched 56 jack as set forth in Schedule Cal.P.U.C. No. A8.1.21 is included in the installation charge for the Switched 56 access line. (T)

f. Switched 56 does not support the following services: (T)

- Analog Voice and Voice Services.
- Analog data services or subrates.
- 411, 811, 900, 976, or 0+.
- 900 and 976 blocking.
- Custom Calling Features.

g. Switched 56 performance is measured in Error Free Seconds (EFS), Severely Errored Seconds (SES), and Bit Error Rate. The minimum design performance for both IntraLATA and the Utility's portion of InterLATA calls is the following: (T)

- 95% EFS on 99% of calls of 5 minutes duration over one month.
- .03% SES over 24 hours.
- 8.9E-8 Bit Error Rate.

The above are only design minimums; the Utility does not guarantee these levels.

h. The Utility makes no guarantee that any transmission speed or bit error rate will be achieved on any given call.

i. The customer shall be responsible for payment of a visit charge as set forth in Schedule Cal.P.U.C. No. A8.1.24 when the Utility dispatches personnel to the customer's premises, and the trouble is in the equipment provided by other than the Utility.

j. Provisions concerning limitations of liability are set forth in Schedule Cal.P.U.C. No. A2.1.14.

k. Network interface requirements are available from the Utility on request.

4. SERVING ARRANGEMENTS

a. Switched 56 uses four serving arrangements. The specific arrangement is (T) determined by the customer's serving switch type and capabilities and the customer's proximity to the switch.

Switched 56 customers served from a remote location will be given the (T) option to convert to the local serving central office at no charge when a central office becomes equipped with Switched 56 capability. (T)

b. Datapath provides digital, full duplex transmission using Time Compression Multiplexing (TCM). TCM allows 56 Kbps over a two-wire local loop with an effective range of approximately 10,000 feet. Datapath will be used for local serving arrangements.

c. Datapath Extension (DPX) enhances Datapath to physically extend the switched 56 feature to another wire center using specially designed channel units and T-1 facilities. Although DPX is limited only by T-1 facility range, it functions the same as Datapath from the channel unit and has an effective loop range of approximately 10,000 feet.

DPX will be used to provide Switched 56 remote serving arrangements to (T) customers who are served by a wire center that does not have Switched (T) 56 capability.

d. Office Channel Unit Dataport equipped with Control Mode Idle (OCUDP/CMI) is a switch independent serving technology from either a local or remote serving arrangement. OCUDP/CMI uses standard DS-1 time division multiplexing (TDM) for 56 Kbps transmission across a four-wire circuit. TDM and four-wire facilities extend the OCUDP/CMI loop beyond Datapath and DPX loop limitations.

a. DESCRIPTION

The Utility will waive all Switched 56 nonrecurring charges for (T)
customers who commit to retain the service for a minimum period of two years
(24 months) from the installation date.

b. REGULATIONS

- (1) Switched 56 will be installed and nonrecurring charges waived only (T)
at the customer premises where the service terminates and facilities permit.
All other changes will incur the applicable rates and charges as stated in
the tariff.
- (2) The customer is required to retain Switched 56 service for a minimum (T)
period of two years (24 months) from the installation date.
- (3) The customer may make changes, except a disconnection, to the service during
the two year minimum period at the applicable tariffed rates and charges.
- (4) If at any time during the two year (24 months) minimum period following
installation, the Switched 56 service is disconnected as a result of (T)
a customer request or disconnection of the customer's service in accordance
with the Utility's applicable tariffs, the customer will be charged a portion
of the nonrecurring charges waived at the time of installation. Each month
the customer retains the service the termination liability will be reduced by
1/24th of the nonrecurring rate in effect at the time of installation.

(N)

Universal Lifeline Telephone Service (ULTS), also known as California Lifeline, is a California Universal Service Public Policy Program that provides discounts on basic telephone service to eligible low-income households pursuant to the Moore Universal Telephone Service Act and General Order 153.

ULTS discounts are available to eligible customers ordering new, or currently subscribing to, the following basic services: flat rate individual service or measured rate individual service.

2. Territory

ULTS is available within all exchange areas as said areas are defined on maps filed as part of the tariff schedules.

3. Service Elements Available under ULTS

The service elements of ULTS are as follows:

- a. Access to (a) single party local exchange service, or (b) service that is equivalent, in all substantial respects, to single party local exchange service.
- b. Access to all interexchange carriers offering service in the ULTS customer's local exchange.
- c. Ability to place calls.
- d. Ability to receive free unlimited incoming calls.
- e. Free touch-tone dialing.
- f. Free unlimited access to 911/E-911.
- g. Access to local directory assistance (DA). The utility shall offer its ULTS customers the same number of free DA calls that the Utility provides to its non-ULTS residential customers.
- h. Access to foreign Numbering Plan Areas.

6. The Qualification Process for ULTS Enrollment

If the customer has previously been certified for ULTS benefits with another service provider and subsequently changes service providers, while maintaining eligibility in all other respects, the customer is not required to certify eligibility in order to qualify for ULTS as long as the change of service provider occurs within the last 30 days. If a customer changes his/her principal place of residence, while maintaining eligibility in all other respects, the customer is not required to certify eligibility in order to qualify for ULTS as long as the change of residence occurs within the last 30 days.

For all other customers, the Commission's Certifying Agent must certify eligibility for initial enrollment into ULTS and verify eligibility annually for continued participation.

a. ULTS Certification

In order to participate in ULTS, the residential customer must complete a ULTS Certification Form and attest, under penalty of perjury, that he/she meets all eligibility requirements identified in 4. preceding. The completed Certification Form must be returned and received by the Certifying Agent by the due date indicated on the form. The Certifying Agent determines the eligibility of the customer and notifies him/her by way of a qualification or disqualification letter.

(1) Income-Based Criterion

The customer seeking eligibility under the income-based criterion must provide income documentation(s) substantiating total household income. Acceptable income documents are:

- Prior year's state, federal, or tribal tax return
- Current income statement from an employer or paycheck stub for three consecutive months' worth of the same type of statements within the last 12 months
- Statement of benefits from Social Security, Veterans Administration
- Statement of benefits from retirement/pension, Unemployment/Workmen's Compensation
- A divorce decree

The California LifeLine Administrator must certify a customer's eligibility set forth in 4., preceding before the customer may enroll in California LifeLine. (N)

All residential customers seeking enrollment in California LifeLine are subject to the Company's establishment and reestablishment of credit policy under Schedule Cal. P.U.C. No. A2.1.6. Such residential customers shall not be required to pay a deposit for basic service. Such residential customers shall pay regular rates for basic phone service and connection charges until approved for LifeLine. Such residential customers shall also have available interest-free payment plans as provided for in Schedule Cal. P.U.C. No. A2.1.9, J.1.

Upon enrollment in California LifeLine, the customer's regular basic service will be converted to Lifeline service.

All LifeLine discounts will be credited to the customer's account retroactive to the date the service began or the date the customer requested to be enrolled, whichever is later. If the customer's bill has a net credit balance of \$10.00 or more, the customer may request a refund check.

A customer does not have to certify eligibility if he/se was enrolled in California LifeLine within the last 30 days. Such customer shall be enrolled in the program once the California LifeLine Administrator confirms his/her status. (N)

a. Service Connection Charge (Cont'd)

(3) The Utility shall not impose a "central office charge" in addition to the ULTS connection charge when installing ULTS.

(4) Installation of a second and subsequent telephone service connection shall be subject to the Utility's regular tariffed rates for these connections, except that low-income households with a disabled member may qualify for ULTS connection charges on two residential telephone connections.

Eligible recipients of this service may have the option of deferring the connection charge in three equal monthly installments without interest. The Utility may charge a late-payment fee when the ULTS customer fails to timely remit some or all of the ULTS connection charge under a deferred-payment schedule.

b. Service Conversion Charges

The ULTS conversion charge as set forth in 9.a.(7) preceding is applicable each time a ULTS customer requests a change in the class (business or residential to ULTS), type (measured vs. flat rate service) or grade (multi-party vs. one party) of service, including requests to change from Foreign Exchange Service.

There is no limit on the number of times a ULTS customer may pay the ULTS conversion charge to effect a change in the class, type or grade of service. This discounted conversion charge does not apply to the addition of services not covered under the ULTS program.

13. Beginning June 1, 2017, the California LifeLine Program (California LifeLine) has a new limitation on consumers requesting the California LifeLine discounts for phone services. (N)

60 Day Freeze for Transferring the California LifeLine Discounts (also called Discount Transfer Freeze) for Phone Services

Once the California LifeLine Administrator approves the applicant's eligibility to receive the California LifeLine discounts, the California LifeLine participant has to keep the California LifeLine discounts with the same phone company for 60 days. The 60-day clock begins when the California LifeLine discounts start. After staying with the same phone company for 60 days, the California LifeLine participant may choose to remain with the same phone company or to change to a different phone company while keeping the California LifeLine discounts. This requirement means that the California LifeLine participant can only transfer the California LifeLine discounts to a different phone company once every 60 days. Transferring the California LifeLine discounts to a different phone company restarts the 60-day clock.

The California LifeLine participant MAY cancel phone service or switch phone companies at any time. However, if the California LifeLine participant is still within the 60-day clock and cancels the phone service or switches phone companies, then the California LifeLine participant will stop receiving the California LifeLine discounts.

However, there are ways to transfer the California LifeLine discounts to a different phone company sooner, which are as follows:

1. the California LifeLine participant moves to a new address
2. the phone company no longer offers phone service or otherwise fails to provide phone service
3. the phone company charged late fees greater than the monthly out of pocket cost for the phone service
4. the phone company was found in violation of either the California LifeLine Program's, the California Public Utilities Commission's, or the Federal Communications Commission's rules and that rule violation impacted the California LifeLine participant.

How to Transfer the California LifeLine Discounts Before the 60-Day Clock Ends When the Phone Company Fails to Provide the California LifeLine Discounted Phone Service

A California LifeLine participant is entitled to a voice-grade connection. If the California LifeLine participant is experiencing a service failure, the California LifeLine participant should immediately inform the phone company of the service failure so the phone company can try and resolve the service failure. If the phone company does not resolve the service failure, the California LifeLine participant can request an exception to the discount transfer freeze due to a service failure (also called a service failure exception). Before requesting a service failure exception, the California LifeLine participant should immediately inform the phone company of the service failure.

Examples of what would NOT constitute as a failure to provide **home** phone service:

- a) The California LifeLine participant's dissatisfaction with the feature(s) of the service, the service rate(s), or the quality of customer service.
- b) The California LifeLine participant's confusion about the phone service plan.

A California LifeLine participant can contact the California LifeLine Administrator by phone 877-858-7463 or going to [Check Your Status](http://www.californialifeline.com) at www.californialifeline.com to request a service failure exception to the discount transfer freeze. The California LifeLine Administrator will then determine whether it is appropriate to start the exception process. If the California LifeLine Administrator grants the exception order, the California LifeLine participant can transfer the California LifeLine discounts to a different phone company prior to the discount transfer freeze ending.

1. give the existing phone company an opportunity to resolve the service failure
2. order a service failure exception from the California LifeLine Administrator
3. after the phone company's opportunity lapses to resolve the service failure, confirm that the service failure still exists - a California LifeLine participant has 1 week to submit this confirmation

F. PERSONALIZED TELEPHONE NUMBER SERVICE

1. Description

Personalized Telephone Number Service (PTN) provides the customer with a seven digit telephone number that the customer specifically requests or with a number which is different than the original customer choice of six (6) numbers, assigned either through a mechanized system or the Network Administration

(T) Center (NAC). A prefix only request does not constitute a Personalized Telephone Number (PTN). If a customer requests additional searching for available Telephone Numbers (including requests for Telephone Numbers with specific prefixes or specific digits), Personalized Telephone Number Service (PTN) will be offered. Personalized Telephone Number Service (PTN) will only be offered on a customer demand basis.

2. Regulations

- a. PTN service is subject to Schedule Cal.P.U.C. No. A2.1.17 which states, "the customer has no proprietary right in the number, and the Utility may make such reasonable changes in telephone number or central office designation as the requirements of the service may demand."
- b. If the Utility finds it necessary to change the PTN customer's telephone number, the PTN customer will be granted a refund of the Service Charge¹.
- c. All customer requested telephone numbers are subject to availability, and provided at the discretion of the Utility.
- d. Existing customers prior to July 20, 1985 who have a specific number will not be charged for PTN service.

A. REGULATIONS

1. Measurement of Local Message Usage

A unit in connection with measured rate service is a measurement of local message usage. The length of conversation to which the unit applies is determined by the time of day and day of the week as shown in Schedule Cal.P.U.C. No. A5.3,C.2.

The time of day when conversation actually takes place determined in accordance with the time system, standard or daylight saving, legally or commonly in use, determines whether day or discount rate treatment applies. In cases where a message extends beyond one rate period, the appropriate rate treatment applies to the respective periods of conversation.

For Zone Usage Measurement Service applicability of rates and time of day usage, refer to Schedule Cal.P.U.C. No. A5.2.1,B.

2. Untimed Measured Rate PBX Trunks

Business organizations which transmit messages for the deaf may subscribe to untimed business measured rate PBX trunks up to the number of in service teletype machines at each business location equipped for this purpose. Such businesses must furnish evidence acceptable to the Utility of furnishing this service for the deaf in order to qualify for untimed service.

3. Customers Returning to The Utility

(T)

The Utility will waive the non-recurring charges for customers converting a minimum of one or more PBX trunks or similar functional type service from another provider to the Utility's Basic PBX Trunk product as their local telecommunications service provider, providing:

(T)

(T)

The customer maintains the service for which non-recurring charges are waived for a period of two years;

The customer agrees to a two year Value PromisesSM Plus (VPP) usage plan in association with the service returning to the Utility;

(T)

(T)

Service is provided at the same address(es) as the existing service and there are no changes in the configuration of the existing service.

3. Customers Returning to The Utility (Cont'd)

(T)

If the customer disconnects any required service prior to completion of the agreement term, the Utility will bill the customer for, and customer will be required to pay all previous waived charges. In addition, customer also agrees to pay any other charges, payments, or disconnection/termination fees required by the tariffs.

(T)

Early termination fees will not be charged on adds, moves and changes. Adds, moves and changes will be completed within the established due date intervals and charged at the prevailing tariff rates after conversion to the Utility.

5.3.4 DIRECT-IN-DIALING TO PBX SYSTEMS

A. DESCRIPTIONS

An arrangement in a Utility central office to provide DID service from the telecommunications network to the customer's premises for use in connection with dial switching or number identifying equipment.

B. REGULATIONS

1. Direct Inward Dialing Service (DID) is furnished where operating conditions and the availability of facilities permit and in accordance with Schedule Cal.P.U.C. No. A2.1.2.

2. DID will be provided to PBX dial switching equipment.

- a. Regulations for connection with customer-provided facilities and devices, as set forth in Schedule Cal.P.U.C. No. A8. are applicable.

3. DID service must be provided on all lines in trunk group arranged for inward service. Each DID trunk group shall be considered a separate service. (C)
(C)

If non-DID trunks are furnished, they must be in a separate trunk group from the DID service trunks.

4. Directory listings will be furnished in accordance with Schedule Cal.P.U.C. No. A5.7 as it applies to PBX trunks. DID numbers furnished herein may be listed at appropriate rates.

5. Intercepting of numbers assigned to the customer that are vacant or not in use by the customer is the responsibility of the customer. Attendant or suitable machine intercept shall be arranged.

All calls intercepted by the attendant will be considered to be completed and subject to a charge for the call.

6. Foreign Exchange DID service will be furnished from a central office designated by the Utility. If a customer designates a central office other than that designated by the Utility, the service may be furnished where operating conditions permit, at the rates and charges applicable to Foreign Prefix service in addition to the rates and charges for Foreign Exchange DID service as set forth in C. following.

Usage allowance provided with foreign exchange service may not be used as credit in connection with other service arrangements.

5.3.4 DIRECT-IN-DIALING TO PBX SYSTEMS (Cont'd)

B. REGULATIONS (Cont'd)

7. Each block of 20 or 100 station numbers are charged separately, see C.1. following. Customers may select blocks of 20 and/or 100 numbers, each priced separately. The Utility may be required to select blocks of 20 DID station numbers to form a block of 100, these blocks will not be priced separately. (T)

8. When a central office in which the premises of the customer are located is not equipped to provide DID Service, the Utility may designate a central office located in the same exchange or district area to serve the customer, where facilities and operating conditions permit, at no additional charge to the customer.

Where facilities and operating conditions permit, at the customer's request, foreign Prefix Service will be furnished from a central office other than the central office normally serving the DID customer, at the rates and charges applicable to Foreign Prefix Service as set forth in Schedule Cal.P.U.C. No. A5.1.5, in addition to the rates and charges in C. following.

9. The maximum number of station numbers provided within each block shall be 20 or 100. All station numbers, within each block of 100 numbers, will be provided in consecutive sequencing. DID numbers in blocks of 20 may be provided in non-consecutive sequencing. If a telephone number is taken out of the DID number block, and the number block is no longer sequential, the 100 number block is no longer deemed sequential. When no longer sequential, 100 number blocks must be disassembled to 20 number DID number blocks. DID station numbers can be removed from or added to a group of 20 or 100 numbers and are subject to a DID Number Block Change charge. See C.1. following. (T)

(N)
(N)
(T)
(T)

10. DID station numbers will not be offered in conjunction with Secretarial Answering Service as set forth in Schedule Cal.P.U.C. No. A9.3.1.

11. DID Service is normally provided with dial pulse signaling. At a customer's request, tone signaling may be provided where facilities are available. The arrangement of both dial and tone outpulsing within the same trunk group will not be offered.

12. The charges as set forth in C. following are applicable to customers' request for changes to or rearrangement of the existing station numbers.

B. REGULATIONS (Cont'd)

13. Dual Element Charges as set forth in Schedule Cal.P.U.C. No. A3.1 apply to central office modifications of trunk lines at the customer's request.

14. Answer Supervision shall be provided by the customer in accordance with Subpart D of Part 68 of the F.C.C.'s Rules and Regulations. Where a customer fails to provide Answer Supervision, the Utility may deny installation of DID Service. The Utility may discontinue service for failure of the customer to provide Answer Supervision upon written notification and such failure has not been remedied within a reasonable time. See Schedule Cal.P.U.C. No. A2.1.11.

15. Blocks of 20 DID station numbers are available in conjunction with SuperTrunk, as set forth in Schedule Cal.P.U.C. No. A5.3.

DID service with incomplete 20 or 100 number blocks existing prior to the effective date of this tariff will continue to be billed the appropriate recurring rate. Subsequent orders to the above service are subject to the provisions of B.9. preceding.

16. DID Return

Pacific Bell will waive the applicable non-recurring number block charges for eligible business customers who have discontinued their business DID service with another local exchange carrier in order to establish like service with Pacific Bell, providing:

The customer establishes a minimum of either one 20-DID number Block or one 100-DID number block, and

The customer agrees to maintain the service for which non-recurring charges are waived for 24 month term commitment.

(N)

If the customer disconnects their DID service prior to the expiration of their term commitment, Pacific Bell will bill the customer for, and the customer will be required to pay, the lesser of:

The sum of all Discounts rendered under the terms of this agreement, plus 10% annual interest¹, prorated monthly. Discounts are defined to include reductions to monthly tariff rates, full or partial waivers of nonrecurring charges, and any other credits or discounts that have been rendered under the terms of this agreement, or

The total monthly charges or minimum annual commitments remaining on the service term discounted by 10%.

Pacific Bell reserves the right to waive or reduce the customer's termination liability amount when the customer migrates to other services provided by Pacific Bell. The term commitment under this offer will continue on the new services.

Early termination charges will not be charged on adds, moves or changes made during the contract term. Adds, moves and changes will be charged at the prevailing rates.

Customers who change their type of transport to a higher service (Analog Trunk to SuperTrunk or PRI) and keep the same DID number(s) block will not be charged for early termination. The term commitment time period will continue on the new service. Change order fees still apply.

A single customer with multiple locations may participate in this tariff offer.

Customers governed under a 96A contract may not participate in this tariff offer.

(N)

NOTE 1: The annual interest rate shall be calculated as the maximum rate permissible by law, not to exceed Pacific Bell's approved Cost of Capital.

5.3.5 IDENTIFIED-OUTWARD-DIALING FROM PBX SYSTEMS

A. REGULATIONS

1. Identified Outward Dialing Service (IOD) is furnished where operating conditions and the availability of facilities permit and in accordance with Schedule Cal.P.U.C. No. A2.1.2.
2. IOD service, in B. following, includes the central office equipment necessary for identification and billing of outgoing toll and zone calling usage by seven digit station number on calls originated over trunks furnished in (T) this schedule.

Regulations for connection with customer-provided facilities and devices, as set forth in Schedule Cal.P.U.C. No. A8. shall apply.

3. IOD service must be provided on all lines in an exchange trunk line group provided as set forth in this schedule and arranged for outward service. Where IOD is requested on more than one group of trunk lines, excluding foreign exchange service, each group shall be considered a separate service.
4. The rates and charges herein contemplate the use of Utility-provided central office equipment and serving arrangements. When equipment or service of a special type is requested and provided, rates and charges based on costs involved to meet the individual requirements of each case will be made, subject to prior authorization of the Public Utilities Commission of the State of California.
5. The rates for IOD service are applicable for a minimum period of three years. In case of disconnection of or a reduction in this service within the minimum period, a basic termination charge, as shown in B. following, reduced by one thirty-sixth (1/36) for each full month or fraction thereof of service provided, shall be provided.

In connection with the foregoing, where a reduction in the service is requested, the last IOD service equipment arrangement provided shall be considered to be the first removed.

6. On or after the effective date of Advice Letter No. 16238 the offering of IOD Service will be furnished to the same customer on the same premises. Additions, partial removals, and changes to the existing IOD service will be permitted. Orders for service for new customers will not be accepted.

5.3.6 SUPERTRUNKSM (T)

A. DESCRIPTION

SuperTrunkSM Service allows users to connect suitably equipped customer premises equipment to the Utility's central office switch over 1.544Mb digital High Capacity Service (HCS). (T)

For Regulation, Rates and Charges for HCS service refer to applicable Schedule Cal.P.U.C. No. 175-T.

B. SERVICES

SuperTrunkSM service is comprised of one or more SuperTrunkSM terminations, each connected to one HCS circuit (requires two channel termination USOCs). The digital transport facility may be DS1 or DS3 level. Each SuperTrunkSM Termination provides 24 exchange channels. SuperTrunkSM service is therefore modified in increments of 24 exchange channels only. (T)
(N)
(N)
(T)
(T)

1. SuperTrunkSM Serving Arrangement (T)

SuperTrunkSM Service may be combined with Centrex, Primary Rate ISDN (PRI) and/or other SuperTrunkSM service of the same customer with a service appearance in the same switching entity to create a SuperTrunkSM Serving Arrangement. (T)
(T)
(T)

2. SuperTrunkSM Trunk Groups (T)

Individual channels must be aggregated into trunk group(s). Trunk group(s) are In-Only, Out-Only, Two-Way and Switch 56. Sizing of the trunk group(s) is customer selectable within the constraints of available channels.

C. STANDARD FEATURES

Standard features, with exception of the trunk group charge, are included in the SuperTrunksm termination recurring and installation charges. Associated services are separately charged. A minimum installation requires one SuperTrunksm termination, one Hi Cap and one trunk group. All Standard and Associated services, subject to technical limitations, are available from the users' local (serving) Central Office or alternate CO(s) as requested. SuperTrunk'ssm standard features include the following:

(T)

24 Digital Channels: Each SuperTrunksm provides 24 digital channels between the Utility's switch and the user's suitably equipped premises equipment.

(T)

Answer Supervision on Outbound Calls: The Utility's switch will electronically signal the originating premises equipment when an outbound call is answered and when the called party disconnects. Answer Supervision on inbound calls shall be provided by the customer.

Automatic Channel Selection: Automatic Channel Selection selects an idle channel for inbound call completion from a preset pattern within a trunk group.

Call Transfer (available only on 5ESS Switch): Incoming calls may be transferred to another telephone number. After the transfer is complete, the trunk becomes available to make, receive or transfer other calls. Applicable usage charges apply from the transferring trunk to the called party and to transferred calls.

Trunk Groups: A minimum of one trunk group is required for use with SuperTrunksm service, more may be selected. Trunks group charges are in addition to SuperTrunksm termination charges. Trunk groups are identified as:

(T)

(T)

In-only - Capable of incoming voice grade communication
Out-only - Capable of outgoing voice grade communication
Two-way - Capable of two way voice grade communication
Switch 56 - Capable of data grade communication

C. STANDARD FEATURES (Cont'd)

Carrier Pre-Subscription: 1010XXX is available for intraLATA calls, users may specify a carrier for all other calls. (T)

Trunk Group Calling Restrictions: Dialing restrictions for outbound calls are selectable. Standard options include, Local and ZUM 3 only, Local through inter/intraLATA Toll, Local through International. 900/976 blocking is also available. Trunk Group Calling Restriction is assignable to individual trunk groups.

D. OPTIONAL FEATURES

1. Alternate Route

Allows customers to specify an alternate route where incoming SuperTrunksm calls may be directed when all channels are busy, or when there is a loss of continuity with the premise equipment. (T)

Subject to technical capabilities and operating conditions, this feature may be assigned to a SuperTrunksm serving arrangement or SuperTrunksm trunk group. The alternate route may be another SuperTrunksm arrangement, Primary Rate ISDN or DID trunk group residing in the same central office switch. Only one Alternate Route may be selected per SuperTrunksm arrangement. (T)

2. Custom Virtual Network

Allows Custom Virtual Network (CVN) as an optional service in connection with SuperTrunksm to provide a custom dialing plan to link multiple or statewide locations. Refer to Schedule Cal.P.U.C. No. A19 for Service Description and Regulations. See Section 5.3.6,0 of this schedule for CVN and SuperTrunksm rates. (T)

3. Enhanced Alternate Routing

Enhanced Alternate Routing will automatically route incoming calls to a predetermined telephone number in the Public Switched Network when the SuperTrunksm or SuperTrunksm group is busy or when continuity is lost between the central office and the customer provided equipment. Enhanced Alternate Routing is available where technical capabilities and operating conditions permit.

(T)

Incoming calls that have been rerouted will be billed to the SuperTrunksm billing responsibility. All charges for local, message unit, zone calling and toll are applicable in accordance with the regularly filed tariff schedules.

(T)

4. SuperTrunksm Fiber Advantage

(T)

Provides a dedicated HICAP which utilizes fiber optic cable to connect a customer location to Pacific Bell's central office. In addition to the service guarantee provided with Fiber Advantagesm, Pacific Bell will guarantee the SuperTrunksm. The customer shall be credited 100% of the monthly rate for the SuperTrunksm for any service interruption affecting that rate element. In order to qualify for this credit, the service interruption must be 2 hours or more and the outage must be determined by the Utility to be in its network. Only one credit will be applied per month.

3. Network Connect

Network Connect provides a connection to a Special Access High Capacity Digital Channel from a SuperTrunksm to a distant end location. Each Network Port consists of one group which is equivalent to 24 derived 64 Kbps DS-0 bit streams (24 voice equivalent circuits). The rates and charges for Network Connect are in addition the rates and charges applicable to High Capacity Service as shown in Schedule Cal.P.U.C. No. 175-T, Section 7.5. Network Connect tandem capability is available only where facilities and operating condition permit.

(T)

The distant location may be in the same or different central office. The distant end termination may be another SuperTrunksm, a Centrex system, or Interexchange Carrier Points of Presence. The quality of transmission may vary depending on the distance and routing necessary to complete each call; consequently, overall or end to end transmission is not guaranteed by the Utility.

Allows customers to dial between entities on either an access code or abbreviated station to station dialing basis where facilities and operating conditions permit. It provides calling connections between various entities, which may include a combination of:

- Centrex
- Primary Rate ISDN
- SuperTrunksm Termination

(T)

This Dialing Plan feature is required any time two or more entities are connected to create a SuperTrunksm serving arrangement as defined in B.1. preceding. Calls between entities will be considered private and will not incur usage charges. The Dialing Plan feature applies to each entity in a SuperTrunksm serving arrangement.

(T)

F. REGULATIONS

1. SuperTrunkSM is only available where equipment and operating conditions permit. The features of the SuperTrunkSM service and features of the associated services may vary by serving central office switch. (T)

2. Alternate Serving Arrangements do not apply.

3. When the customer has existing In-only Trunk Line and Direct-In-Dialing PBX(DID) service and wants to convert these services to a SuperTrunkSM, the service must be disconnected. Super Trunk installation charges apply, except for DID service which is described below. (T)

When a customer converts from DID Trunk service, SuperTrunkSM installation charges apply, however, the blocks of DID station numbers will not be charged a nonrecurring charge when used with Super Trunk service. (T)

4. SuperTrunkSM must be separately billed. (T)

5. All channels of a single SuperTrunkSM are served from a single switch entity. (T)

6. When the customer subscribes to any associated services as set forth in 5.3.6,E. preceding, the customer is billed for only one associated service type and/or telephone number. The customer may request any number of channels up to the total number of available channels in the SuperTrunkSM serving arrangement. (T)

7. When customers order associated Foreign Exchange and/or Foreign Prefix Services from the SuperTrunkSM serving central office, as set forth in 5.3.6,E. preceding, Foreign Exchange/Foreign Prefix mileage charges will not apply since the mileage charges are a component of the digital transport facility (USOC 1L5XX). - If the SuperTrunkSM service term agreement is extended for more than the months remaining on the existing agreement, or (T) (L)

- If the customer converts to another Utility Business Exchange Voice Service that utilizes a Utility Access Hicap service as set forth in Schedule Cal.P.U.C. No. 175-T Access Service, Section 7.2.8 as part of the service offering. As a part of this conversion to qualify for the waiver of termination charges; the customer must: (N)

• agree to a 36 month or greater term agreement with an expiration service date which is beyond the end of the existing service term,

• the new service term shall begin immediately upon conversion from the existing service term, and

• the new service must be provided between the same customer locations and with the same customer of record as the disconnected service.

- Nonrecurring charges will apply and the monthly rates for the new service(s) shall be those rates in effect at the time of installation. (N)

- d. If the customer terminates the SuperTrunkSM service agreement prior to the expiration of the 24, 36 or 60 month service term, the customer shall pay an early termination fee for the SuperTrunkSM interface unless conditions as set forth in c., preceding, are met. Payment of the termination charge does not release the customer from previous amounts owed to the Utility. (T)

For SuperTrunkSM service term agreements which become effective on or after December 10, 2004, the termination charge will be: (N)

- in addition to any unpaid special construction or non-recurring charges (excluding waived charges), customer termination liability for cancellation of any SuperTrunkSM service agreement shall be equal to fifty percent (50%) of all recurring charges for the same remaining months of the customer's service term.

For SuperTrunkSM service term agreements in effect prior to December 10, 2004, the termination charge will be the lesser of: (N)

- The difference between the total recurring payments actually paid over the completed months of the original service term at the time of termination and the total recurring payments that would have been paid on a month-to-month plan over the same time period, plus any waived non-recurring charges, plus 10% annual interest¹, or, (T)
 - The total monthly payments remaining on the service term, discounted by 10%.
- e. If additional SuperTrunkSM terminations are ordered at a location where the customer has an existing SuperTrunkSM termination term agreement, the additional termination(s) may be added to that agreement up to six (6) months prior to the end of the original agreement, so that the monthly rate and expiration date specified in the original agreement apply. As an alternative, the customer may choose the month-to-month payment option or a different term option for the termination additions. The additions to the agreement are subject to the provisions described in c. preceding. (T)

NOTE 1: The annual interest rate shall be calculated as the maximum rate permissible by law, not to exceed the Utility's approved Cost of Capital.

5.4.1 INTEGRATED SERVICE DIGITAL NETWORK - BASIC RATE INTERFACE (ISDN-BRI)

A. DESCRIPTION

Integrated Service Digital Network - Basic Rate Interface (ISDN-BRI) is a local exchange telecommunications service that provides an integrated voice/data communications capability for the transmission of circuit switched voice, circuit switched data and packet switched data¹ on an incoming and outgoing basis. The B channels are used for voice or circuit switched data up to 64 Kbps. The D channel is used to carry signaling information for the B channels plus packet switched data¹. The service is available from specially equipped digital switching equipment located in the Utility's central offices.

Circuit Switched Voice provides the ability to originate and receive switched voice calls over a 64 Kbps channel.

Circuit Switched Data provides the ability to originate and receive circuit switched data calls over a 64 Kbps channel. Data line speeds up to 64 Kbps are permitted.

ISDN-BRI provides a Business or Residence customer with the ability to integrate current voice and data channel services utilizing Individual Line Measured Rate Business Service or Individual Line Measured/Flat Rate Residence Service. Business ISDN will be available to business service customers and Personal ISDN will be available to residence customers, as defined in Schedule Cal.P.U.C. No. A2.1. respectively.

B. REGULATIONS

1. General

- a. ISDN-BRI will only be provided where central office facilities and operating conditions permit.
- b. ISDN-BRI is furnished to customers at the rates and charges as shown in D. following, which are in addition to other rates and charges for Individual Line Measured Rate Business service or Individual Line Measured Rate Residence Service.
- c. Rates and Charges for other optional features for Business ISDN and Personal ISDN optional features are in addition to those for ISDN-BRI service and are provided only where facilities and operating conditions permit, and are applicable to each telephone number associated with each B channels.

NOTE 1: Frozen/Grandfathered Service, with the exception of B Channel Packet (N)
that does not connect to be DPN switch, effective October 12, 2004. (N)

B and D channels packet capacity is only available in those central offices that are suitably equipped.
- f. Circuit Switched Data calls can be transported between central office switches at 56 Kbps or at 64 Kbps where facilities and operating conditions permit.
- g. Variations in the switching and control equipment used may cause differences in the operation or availability of certain features.
- h. Foreign Exchange and Foreign Prefix Services as defined in Schedule Cal.P.U.C. No. A5.1.4 are not available with ISDN-BRI.
- i. The customer is responsible for providing compatible premises equipment in order to utilize ISDN-BRI.
- j. Commercial power or another power source, including outlets, is required for the operation of compatible premises equipment and will be furnished, owned and maintained by the customer.
- k. ISDN-BRI is not available to customers on the following types of lines: Extension Line Service, Commstar II, Centrex and PBX Services, COPT and Coin Services.
- l. The installation charge associated with Individual Line Measured Rate Business Service (1MB), Individual Line Measured Rate Residence Service (1MR) or Individual Line Flat Rate Residence Service (1FR) is not applicable when existing 1MB, 1MR or 1FR customers subscribe to ISDN-BRI. If the customer elects to disconnect Personal ISDN service, there is no charge to change to normal 1MR or 1FR service.
- m. The non-recurring charges for certain optional features shown in D. following, do not apply when:

u. The following service standards and associated performance incentives apply¹:

- (1) In cases where the Utility fails to keep an appointment with a customer for ISDN service or installation, the Utility will credit the customer \$25.00 for each missed appointment. The credit will not apply in cases where the appointment is not kept as a result of customer action.
- (2) The Utility will discount its installation charge for any customer by 10% for each day it fails to install ISDN service after 10 business days from the date of the initial order or the date the customer requests installation, whichever is later. In cases where the Utility must determine whether the customer's line is capable of being equipped with ISDN service, the discount will apply after 15 business days from the date of the initial order or the date the customer requests installation, whichever is later.
- (3) The Utility will credit customers \$5.00 for each day repairs required on the Utility's system and which are not a result of customer conduct are not made, beginning 24 hours after the customer reports the system problem. This customer credit is waived in areas and during periods for which the governor has declared a state of emergency or natural disaster.

v. The following is in compliance with Decision 98-09-71 dated September 17, 1998:²

The Utility will waive all installation charges in cases where Pacific fails to keep an appointment for ISDN installation or if after keeping an installation appointment, the customer's ISDN service is not fully operational.

C. DESCRIPTION OF FEATURES

1. ISDN-BRI Basic Service

Provides two B channels, each of which can support Circuit Switched Voice and/or Circuit Switched Data and one D channel which is used for signalling and/or Packet Switched Data².

In addition, ISDN-BRI Basic Service includes: Hold, Consultation Hold, Three Way Conference, and Call Transfer. This allows the station user to place an existing call on hold, access another call appearance and establish a second call. When this second connection is made the station user can privately confer with the third party (Consultation Hold). The held party can then be joined to create a Three Way Conference. Finally, the station user can disconnect from the call, connecting the original call to the third party (Call Transfer). The Call Transfer can connect two parties that are outside the ISDN system. The ISDN customer will be billed the appropriate local, ZUM and toll message charges for the transferred call.

Business ISDN or Personal ISDN customer may select any combination of features included in the ISDN-BRI Basic Service. The central office features provided are as follows:

Caller Identification (Caller ID)¹ displays the telephone number of the calling party on a specially designed telephone.

a. Voice Features

Provides a Primary Directory Number for each B channel voice service.

Multiple Directory Numbers

Allows multiple call appearances of Primary, Secondary and/or Shared Directory Numbers to be assigned to stations equipped with compatible premises equipment.

NOTE 1: From the effective date of Advice Letter No. 18446, it will take the Utility approximately sixty (60) days to convert all of the required central offices to make Caller ID available on ISDN-BRI.

NOTE 2: Frozen/Grandfathered Service, with the exception of B Channel Packet (N)

This information is limited to being within the serving central office switch and between B1 and B2 channels.

Time and Date Display

Displays the time and date in those offices that are suitably equipped.

b. Data Features

Primary Directory Numbers

Provides a Primary Directory Number for each B channel with circuit switched data service. Multiple Directory Number call appearance is not allowed with data service.

Call Information Display

Displays call related information about any call appearance that has an active call associated with it. The data that can be displayed includes called or calling directory number within the ISDN-BRI system, incoming call identifier call type, call progress information and call forwarding information. a. Packet Data Features (Cont'd)

D CHANNEL PACKET DEVICE¹

Allows a packet device to be attached to the D channel. Additional D channel packet devices are available at the rates and charges as set forth in D. following.

Logical Channels

Allows a ISDN-BRI subscriber to specify up to 4 logical channels for packet services, additional logical channels are available at the rates and charges as set forth in D. following.

Fast Select Initiate/Accept

Allows a sending data terminal to forward up to 128 bytes of data along with call setup and clearing packets. Fast Select acceptance allows the switch to transmit incoming call packets with the fast select facility to a destination terminal that has this feature.

Flow Control Parameter Negotiation

Allows negotiation on a per call basis of the flow control parameters. This consists of automatically negotiating the maximum packet size and window size for each direction of data transmission.

3. ISDN-BRI Individual Optional Features

a. Additional B Channel Circuit Switched Primary Directory Numbers
(Passive Bus/B-Channel Contention)

Allows multiple Primary Directory Numbers on a single Basic Rate Interface (BRI) where central office facilities and operating conditions permit. A maximum of eight (8) physical Primary Directory Numbers are allowed on a BRI. Installed Primary Directory Numbers will contend for the use of the B channels. Under these conditions, the customer assumes responsibility for any blocked calls. The Utility will input a set of unique parameters for each logical or physical customer premises equipment that will utilize the channel.

b. ISDN-BRI Local Usage Plan

Allows ISDN-BRI customers to subscribe to a plan that will provide a flat monthly rate with an allowance for Local Plus voice and data calls (IntraLATA message charges). The plan has seven (7) options which are as follows:

- Option 1 - \$ 20.00 Allowance	- Option 4 - \$150.00 Allowance
- Option 2 - \$ 50.00 Allowance	- Option 5 - \$200.00 Allowance
- Option 3 - \$100.00 Allowance	- Option 6 - \$250.00 Allowance
	- Option 7 - \$300.00 Allowance

Customers may subscribe to only one usage plan per month. The usage associated with both B channels would contribute to the total amount of allowance. Once the customer has reached the maximum allowance in the plan subscribed to, they will be billed the tariff rates for Local Plus as set forth in Schedule Cal.P.U.C. No. A6. Minimum billing as set forth in Schedule Cal.P.U.C. No. A2. is applicable.

c. Volume Discounts

Allows customers who order 10 or more Business or Personal ISDN (USOCs: FPKG3 and FPKG4) lines at the same time on the same order at a single location to receive a discount on the monthly rate. In addition, for customers who order 10 or more lines of Business ISDN (USOC: FPKG3) at the same time on the same order for multiple locations will receive a discount on the monthly rate. The discounted rate is set forth in D.5. following.

following. Customers who subscribe to and maintain the service for a term period of four years for Personal ISDN and three or four years for Business ISDN will be eligible for a discount on each line of Business or Personal ISDN. Should a customer disconnect the ISDN prior to the expiration of the term agreement, a termination charge will apply.

(1) Termination Liability Charges

(a) Customer term plans that become effective on or after March 15, 2006:

Customer termination liability for cancellation of ISDN-BRI shall be equal to fifty percent (50%) of all recurring charges of the remaining months of the customer's term plan. In addition, the customer shall remain liable for all unpaid Special Construction of nonrecurring charges (excluding waived charges) when a term plan is cancelled early.

Termination liability charges and any other unpaid charges for which the customer remains liable will be debited to the customer's monthly bill.

(b) Customer term plans that become effective prior to March 15, 2006:

The termination liability is the dollar amount that was discounted from the normal tariff rate multiplied by the amount of months the customer maintained the service.

Termination liability charges will be debited to the customer's monthly bill.

e. Flat Rate ISDN BRI

Flat Rate ISDN BRI allows a Business or Residence customer to subscribe to a plan that provides a flat monthly rate for local ISDN voice and data calls. The monthly rate and installation charge for Flat Rate ISDN BRI will include the Access Line (Business or Residence), and Local Usage as set forth in Section D, following. The ISDN Basic Service Package (FPKG3 or FPKG4) monthly rate and installation charge is not included in Flat Rate ISDN. The ISDN Basic Service Package must be purchased separately as set forth in Section A5.4.1.D.3, following.

Flat Rate ISDN BRI will use the same 2B1Q technology, the same network and the same switching architecture of ISDN-BRI. The primary difference between Flat Rate ISDN BRI and ISDN-BRI is that Flat Rate ISDN BRI customers will pay a flat rate monthly charge for local ISDN calls, while ISDN-BRI customers will incur usage charges as set forth in Schedule Cal.P.U.C. No. A5.2.1. ISDN-BRI Volume and Term Discounts plans do not apply to Flat Rate ISDN.

c. Packets - Additional Logical Channels¹

Provides additional logical channels for B or D channel packet devices. D channel packet terminals may be equipped with Additional Logical Channels, specifying a quantity between five (5) and fifteen (15) (the first four (4) logical channels are included with each D channel packet device associated with the ISDN-BRI Optional Packet Data Device). B channel packet terminals may be equipped with Additional Logical Channels specifying a quantity between sixteen (16) and one hundred (100) (the first fifteen are included with the B Channel Packet Service). To change the quantity of Additional Logical Channels, the Miscellaneous Change Charge as set forth in D. Rates and Charges following is applicable.

d. B Channel Packet Service¹

Permits the assignment of a dedicated B channel for the exclusive use of transporting packet data. One or both B channels of a ISDN line can be assigned to this service. Once assigned, a B channel cannot be used for any other service unless changed at the Rates and Charges as set forth in D. following.

e. Packet - Permanent Virtual Circuit¹

Allows packet switching to be implemented over a dedicated logical channel without needing call set-up or clearing. Both ends of the ISDN Permanent Virtual Circuit must reside within the same serving central office. This feature is established by the customer service order.

NOTE 1: Frozen/Grandfathered Service, with the exception of B Channel Packet (N)
that does not connect to the DPN switch, effective October 12, 2004. (N)
See General Regulations, Schedule Cal.P.U.C. No. A2.1.2,A.4.

f. Packet Hunting¹

Allows the customer to define a group of numbers that belong to a hunt group. When an incoming call is destined for a busy terminal in the group, the call will be directed to an idle terminal in the same hunt group.

g. Shared Call Appearances

Allows call appearances of a Primary or Secondary Directory Number from another station on the same ISDN-BRI line to be assigned to stations equipped with compatible premises equipment. A Shared Directory Number is only available between B1 and B2 channels on the same line in those offices that are suitably equipped.

NOTE 1: Frozen/Grandfathered Service, with the exception of B Channel Packet (N)
that does not connect to the DPN switch, effective October 12, 2004. (N)

5.4.2 USAGE SENSITIVE CUSTOM CALLING SERVICES

A. DESCRIPTION OF SERVICE

Usage Sensitive Custom Calling Services (USCCS) allows customers to use Custom Calling Features Call Return (*69)², Repeat Dialing (*66)², and Three-Way Calling¹ on a pay-per-use basis. Customers are charged for each successful activation of the feature. If the call is completed, any toll charges incurred will continue to apply and be billed separately. (T)

For Call Return and Repeat Dialing, a successful activation is defined as an attempt by the Utility's central office switches to ring the called party's line. A completed call is not guaranteed. Charges are incurred for utilizing the feature in an attempt to complete a call and not for completion of the call itself. Charges will not be assessed if call setup results in a busy condition (the called line remains busy for the entire 30-minute activation period). Additional charges will not be assessed when the calling party reactivates or deactivates the feature to the same number within the 30-minute activation period.

For Three-Way Calling, a successful activation occurs when the three-way connection is made. Charges will not be assessed if call setup results in a busy condition.

The functionality of the features do not differ from the existing features offered on a subscription basis as described in Schedule Cal.P.U.C.

No. A5.4.10. Custom Calling Services-Residence and Schedule Cal.P.U.C.

No. A5.4.11 Custom Calling Services-Business.

B. REGULATIONS

1. Usage Sensitive Call Return, Repeat Dialing and Three-Way Calling are not available to customers with the following types of lines: Centrex, Multiparty Farmer Lines, Coin and Coinless Pay Phones, Hotel/Motel and Hospital Lines, Manual and Direct Connections, Private Branch Exchange (PBX) Trunk Line Service, lines served from some Remote Switching Systems, 900, 976, 800 lines and data access lines. Call Return and Repeat Dialing will only operate when both the caller and the call recipient are served from capable switches and within the same serving LATA. (D)

NOTE 1: Usage Sensitive Three-Way Calling will not be available (implemented) until April 1, 1998. Customers will be able to use Usage Sensitive Three-Way Calling, free of charge, during the month of March where facilities and operating conditions permit.

NOTE 2: The features may be activated from rotary dial telephones by dialing 1169 for Call Return and 1166 for Repeat Dialing.

(T)
(D)

Business lines will not have a monthly cap.
4. Usage Sensitive Call Return and Repeat Dialing are only available to Personal ISDN and Business ISDN provided from a 5ESS switch type. Centrex ISDN is excluded from feature availability.

Usage Sensitive Three-Way Calling is not available to ISDN customers.
5. Usage Sensitive Call Return, Repeat Dialing and Three-Way Calling are available on residential and small business access lines where facilities and operating conditions permit. The customer is not required to order the features unless they wish to subscribe to the features as a monthly service at the rates and charges shown in Schedule Cal.P.U.C. No. A5.4.10 Custom Calling Services-Residence and Schedule Cal.P.U.C. No. A5.4.11 Custom Calling Services-Business.
6. The Utility shall, upon request from the customer, provide blocking of the Usage Sensitive Call Return, Repeat Dialing and Three-Way Calling features free of charge. Customers may request blocking by calling their respective business office.
7. Each customer is obligated to pay the applicable service charge for the removal of blocking from their telephone line(s) as shown in C.4., following.
8. The Utility shall make a one-time adjustment for charges incurred per account if it is established that, (1) the customer did not know a charge applied per activation of the features, (2) the activations were made by a minor child and the calls were made without parental consent, (3) the calls were not authorized by the customer of record or (4) the customer inadvertently activates the feature. The customer of record must request an adjustment within 60 days of the bill date on the bill in question. The customer will be informed of the blocking option at the time of the adjustment.

5.4.3 REMOTE CALL FORWARDING - RESIDENCE

A. DESCRIPTION

Remote Call Forwarding Service is an arrangement which includes the furnishing of a network address (seven or area code + seven digit telephone number) to an applicant or customer, which permits call completion to another network address. The Remote Call Forwarding network address must be located in an exchange area as defined in C. following.

B. REGULATIONS

1. Remote Call Forwarding Service

- a. May be furnished where there is available central office equipment with the proper program updates as determined by the Utility.
- b. Customers subscribing to call forwarding service are not required to have a premise in the exchange in which the Remote Call Forwarding service network address is furnished. (N)
- c. Does not include an instrument in the exchange in which the service is located.
- d. Will be provided only when: (i) the calls are forwarded to a seven or area code + seven digit telephone number or seven digit Feature Group B (FGB) Access Code; and (ii) the location to which the calls are forwarded are not coin-box service stations.
- e. Is subject to transmission limitations, so that the quality of transmission of calls which are forwarded may vary depending on the distance and the routing necessary to complete each call and normal transmission is not guaranteed on any forwarded call. This service is not represented as being suitable for the transmission of data or for connection to other services beyond the Utility's local loop demarcation point on the premises of the terminating primary station. B. REGULATIONS (Cont'd)

2. Remote Call Forwarding is provided by the Utility to complete volumes of calls equivalent to other standard service arrangements. If traffic arrangements other than this are experienced, the Utility will provide the service in accordance with Schedule Cal.P.U.C. No. A2.1.11.

3. Message Charges

a. Remote Call Forwarding will be a measured rate service in those exchanges offering measured rate service as shown in Schedule Cal.P.U.C. No. A5.2.1,A. (T)

b. The Remote Call Forwarding service does not include a local message unit allowance or a zone calling unit allowance.

c. The charges for forwarded calls may be comprised of two separate message charges:

(1) A charge for that portion of the call from the originating station to the call forwarding location, if applicable; (T)

(2) The Dial-Station-to-Station charge or FGB usage charge for that portion of the call from the call forwarding location to the terminating location designated by the customer. (T)

d. The respective charge for each such portion c.(1) and c.(2) preceding shall be the rate specified in Schedule Cal.P.U.C. Nos. A5.2, A6.2, A7.1 and 175-T, Section 6.2.2. (T)

5.4.4 REMOTE CALL FORWARDING - BUSINESS

A. DESCRIPTION

Remote Call Forwarding Service is an arrangement which includes the furnishing of a network address (seven or area code + seven digit telephone number) to an applicant or customer, which permits call completion to another network address. The Remote Call Forwarding network address must be located in an exchange area as defined in C. following.

B. REGULATIONS

1. Remote Call Forwarding Service

- a. May be furnished where there is available central office equipment with the proper program updates as determined by the Utility.
- b. Customers subscribing to call forwarding service are not required to have a premise in the exchange in which the Remote Call Forwarding service network address is furnished. (N)
- c. Does not include an instrument in the exchange in which the service is located.
- d. Will be provided only when: (i) the calls are forwarded to a seven or area code + seven digit telephone number or seven digit Feature Group B (FGB) Access Code; and (ii) the location to which the calls are forwarded are not coin-box service stations.
- e. Is subject to transmission limitations, so that the quality of transmission of calls which are forwarded may vary depending on the distance and the routing necessary to complete each call and normal transmission is not guaranteed on any forwarded call. This service is not represented as being suitable for the transmission of data or for connection to other services beyond the Utility's local loop demarcation point on the premises of the terminating primary station. (L)

NOTE 1: Remote Call Forwarding Residence appears in Section 5.4.3.

3. Basic Package Features - Premiere 6 (Cont'd)

Premiere 6 Three-Way Calling (T)

A call in progress can be placed on hold and a second call completed while maintaining privacy from the first call. In addition, the user may choose to add on the previously held call into a three-way conference.

Premiere 6 Intercom

Up to five other lines can be dialed in the same premiere group by dialing an access code followed by a single digit. Two user stations with same line number cannot access each other utilizing the Intercom feature.

Premiere 6 Call Transfer (T)

Any established call can be transferred to another line within or outside the Premiere group. One person on the final connection must still be within the Premiere group.

4. Optional Line Features - Premiere 6

Premiere 6 Busy Call Forwarding/Delay Call Forwarding (T)

This line feature automatically transfers incoming calls that encounter a (1) busy condition and/or a (2) don't answer condition after a preselected number of rings (from 1 to 7) on the subscribing Premiere equipped line to an alternate designated line within the Premiere group. Because of technical limitations, the actual number of ring cycles before a don't answer call is transferred may vary slightly from the preset value. The number to which calls are transferred and the approximate number of ring cycles before a don't answer call is transferred are specified by the customer at the time the feature is ordered. This feature is in operation on a continuous basis and cannot be activated or deactivated by the customer. Changes to the feature must be requested from the Utility.

Premiere 6 Call Forwarding

All calls made to the subscribing line are automatically transferred to a different line, within or outside the Premiere group.

5. Optional Group Features - Premiere 6

Premiere 6 Customer Changeable Speed Calling

Allows a user to abbreviate dialing patterns for frequently called and emergency numbers. By dialing an access code followed by two digits, a customer can dial up 30 preprogrammed numbers. All lines in a Premiere group share the same list which can be programmed from a customer specified line.

Premiere 6 Distinctive Ringing

Allows a customer to distinguish between incoming and intercom calls by providing distinctive ringing patterns. Premiere lines equipped for distinctive ringing which are also assigned the Call Waiting feature will receive distinctive tones on incoming and intercom calls which are waiting.

5.4.6 CUSTOM CALLING SERVICE DIRECT CONNECTION

(T)

A. DESCRIPTION

Custom Calling Service Direct Connection is a Utility provided central office service arrangement permitting automatic connection to another telephone number without dialing that telephone number. The service is activated when the customer lifts the receiver off-hook. (T)

Upon activation, no dial tone is heard and no dialing capability for other outgoing calls is permitted. However, incoming calls can be received when ever the service is not in use.

Custom Calling Service Direct Connection utilizes a reserved Speed Calling-8 list as defined in Schedule Cal.P.U.C. No. A5.4.3 in the Utility's exchange areas of all exchanges where service is furnished from an Electronic Switching System (ESS) or Digital Multiplex Switch (DMS) type central office where facilities and operating conditions permit. (T)

1. Custom Calling Service Direct Connection-Unshared

(T)

Custom Calling Service Direct Connection-Unshared permits the customer to have one or more exchange access lines, each one connecting to a customer designated telephone number. No two exchange access lines share the same Speed Calling list. (T)

2. Custom Calling Service Direct Connection-Shared¹

(T)

Custom Calling Service Direct Connection-Shared permits the customer to have multiple exchange access lines, each one connecting to the same customer designated telephone number via one line which is designated as the owner of the Speed Calling-8 list. (T)

3. Custom Calling Service Direct Connection-Controlled²

(T)

Custom Calling Service Direct Connection-Controlled is also "Shared" as described above. This offering also permits the owner of the Speed Calling-8 list to change terminating telephone number at will with the use of Speed Calling(8) service. (T)

5.4.9 COMMSTAR II

A. DESCRIPTION

Commstar II is an optional telephone service arrangement of central office features furnished to individual line business and residence customers wishing to combine a single exchange access line or up to thirty exchange access lines into Commstar II. It is available within the exchange area of all exchanges served by a central office where facilities and operating conditions permit.

1. Basic Package Features¹

Commstar II Intercom

Up to twenty-nine other lines can be dialed in the same Commstar II by dialing an access code followed by two digits. Two user locations with the same (T) line number cannot access each other utilizing the Intercom feature.

Commstar II Call Hold

A call can be placed on hold by flashing the switchhook and dialing a code. This frees the line to originate another call or use the call pickup feature.

Commstar II Call Pickup

A call can be answered which has been directed to another line in the Commstar II group. Additional call pickup groups are available on an optional basis.

Commstar II Call Transfer

Any established call can be transferred to another line within or outside the Commstar II. One person on the final connection must still be within the Commstar II.

Commstar II Three-Way Calling

A call in progress can be placed on hold and a second call completed while maintaining privacy from the first call. In addition, the user of a Commstar II equipped line may choose to add on the previously held call into a three-way conference.

2. Optional Line Features

Commstar II Call Waiting

A tone burst is provided to a user on an existing call that another call is waiting.

Commstar II Call Forwarding

All calls made to the subscribing line are automatically transferred to a different line, within or outside the Commstar II.

Commstar II Busy Call Forwarding/Delay Call Forwarding

This feature automatically transfers incoming and intercom calls that encounter a busy line condition and/or a don't answer condition after a preselected number of rings (from 1 to 7) on the subscribing Commstar II equipped line to an alternate designated line within or outside the Commstar II group but within the same central office switch. Because of technical limitations, the actual number of ring cycles before a don't answer call is transferred may vary slightly from the preset value. The number to which the calls are transferred and the approximate number of ring cycles before a don't answer call is transferred are specified by the customer at the time the feature is ordered. This feature is in operation on a continuous basis and cannot be activated or deactivated by the customer. Changes to the feature must be requested from the Utility.

Commstar II Speed Calling

Allows a user to abbreviate dialing patterns for frequently called and emergency numbers. By dialing an access code followed by one digit, a customer can dial up to 6 preprogrammed numbers.

Commstar II Call Selection

Call Selection will allow a customer to determine which calls can be placed on the Commstar II lines. There are three offerings:

A. Allows ZUM 1 and 2 (denies 7 and 10 digit toll, and ZUM 3)	(T)
B. Allows ZUM 1, 2 and 3 (denies 7 and 10 digit toll)	
C. Allows ZUM 1, 2 and 3 and 7 digit toll (denies 10 digit toll)	(T)

3. Optional Group Features

Commstar II Distinctive Ringing

Allows a user to distinguish between incoming and intercom calls by providing distinctive ringing patterns. Commstar II lines equipped for distinctive ringing which are also assigned the Call Waiting feature will receive distinctive tones on incoming and intercom calls which are waiting.

Commstar II /800 Service Access

(D)

Allows access to 800 Service by dialing a separate access line. The 800 Line(s) is not included in the maximum line capacity of the Commstar II.

(D)

(D)

Commstar II Features will continue to function in a normal manner when the 800 Line is in use.

(D)

800 service must terminate in the same central office and same switch as the local service common block.

(D)

Custom 800 Service

Custom 800 Service as set forth in Schedule Cal.P.U.C. No. A7.2 may be provisioned on a Commstar II line. The Custom 800 line is not counted in the maximum 30 line capacity of the Commstar II. There are no nonrecurring charges associated with the provisioning of Custom 800 Service on the Commstar II line.

B. REGULATIONS

1. The Utility may furnish Commstar II where there is available central office equipment with the proper program updates as determined by the Utility.
2. Commstar II is available on all individual business and residence access lines other than public or semi-public service lines. (D)
3. A customer or customers may choose to combine access lines located at different premises into a Commstar II. All access lines combined in Commstar II must be served by the same central office.
4. The combining of access lines carrying different classes of service designations into a Commstar II is permitted.
5. All Commstar II lines must be equipped for Touch-Tone signaling.
6. The quality of transmission for calls utilizing Commstar II Call Forwarding or Commstar II Three-Way Calling may vary depending on the distance and routing involved. The Utility makes no representation as to the quality of the transmission on such calls.
7. Different customers may arrange to have their individual access lines combined in a Commstar II.

In the case where either of the optional features, Commstar II Speed Dialing or Commstar II Distinctive Ringing are ordered, an agreement must be reached between customers and Utility as to which customer will be responsible for these particular features.

8. A customer with a line equipped with Commstar II Call Forwarding is responsible for the payment of any applicable charges for each completed call between the subscribing line and the forwarded to line. This charge for local, message unit, zone calling units or dial station toll (T) applies to all forwarding calls that are answered at the forwarded to line station.

5.4.10 CUSTOM CALLING SERVICES - RESIDENCE

A. DESCRIPTION

Custom Calling Service is an optional service arrangement of central office services furnished to individual line and residence customers. It is available within the exchange area of all exchanges served by a central office where facilities and operating conditions permit.

B. DESCRIPTION OF FEATURES

1. Call Forwarding Features

- a. Call Forwarding (USOC: ESM) permits the customer to automatically forward (transfer) all incoming calls to another telephone number, and to restore it to normal operation at their discretion.
- b. Busy Call Forwarding (USOC: EVB) permits the forwarding of incoming calls when the customer's line is busy. The forwarded number is fixed by the customer service order. Calls may be forwarded outside the customer's local central office (C.O.).
- c. Delayed Call Forwarding (USOC: EVD) permits the forwarding of incoming calls when the customer's line remains unanswered after customer-designated number of rings. The number of rings and the forwarded number are fixed by the customer service order. Calls may be forwarded outside the customer's local central office (C.O.).

d. Reserved

(T)
(D)

e.

f. Select Call Forwarding (USOC: CSF) permits the customer to automatically forward (transfer) calls from up to ten customer preselected numbers to another telephone number and to restore it to normal operation at their discretion. Select Call Forwarding can be used in conjunction with Call Forwarding.

g. Remote Access to Call Forwarding (USOC: RAF) allows the customer to activate and deactivate their Call Forwarding feature and to change their forwarded to number from a location other than where their is service located.

2. Call Waiting

Call Waiting (CW) permits the customer engaged in a call to receive a tone signal indicating a second call is waiting; and, by operation of the switchhook, to place the first call on hold and answer the waiting call. The customer may alternate between the two calls by operation of the switchhook, but a three-way conference cannot be established.

(T)

- a. Cancel Call Waiting (CCW) allows a customer to dial an activation code prior to making a call, and cancel the CW feature. CCW must be activated each time the customer wants CW canceled. Exception: customers subscribing to a Custom Calling Service that provides "flash privileges" such as Three-Way Calling, can activate the CCW feature while an incoming or outgoing call is in progress. CCW is available to customers who subscribe to CW, preceding or in Schedule Cal.P.U.C. No. A9.1.1. The rates and charges shown for CW in E.1. following include the CCW arrangement.

(T)

3. Three-Way Calling

Three-Way Calling permits the customer to add a third party to an established connection. When the third party answers, a two-way conversation can be held before adding the original party for a three-way conference. The customer initiating the conference controls the call and may disconnect the third party to reestablish the original connection or establish a connection to a different third party. The feature may be used on both outgoing and incoming calls.

(T) z

4. Speed Calling^{1,2}

Speed Calling permits the customer to place calls to other telephone numbers by dialing a one or two digit code rather than the complete telephone number. The feature is available as an eight code list or thirty code list. Either code list may include local and/or toll telephone numbers. To establish or change a telephone number in a code list, the customer dials an activating code, receives a second dial tone and dials either a one or two digit code (for the eight code and thirty code lists, respectively) plus the telephone number.

5. Intercom

Intercom permits intercommunication between two or more customer provided telephone stations answering the same telephone number. The customer activates an intercom call by picking up his receiver and dialing his own telephone number from that telephone. When the customer hears a busy tone signal, he returns his receiver to its "on-hook" position within fifteen seconds. The central office then applies distinctive ringing to the customer's telephone station and all extension stations of that line. The customer must go "on-hook" within the fifteen second time allowance, or the intercom activation is canceled. The intercom feature is deactivated when all connected parties terminate their intercom call.

On or after August 7, 1988 the offering of Intercom will only be furnished to the same customer, on the same premises and supercedures. Additions, deletions or changes to the existing Intercom system are prohibited.

6. Intercom Plus

Intercom Plus permits intercommunication between two or more customer provided telephone extensions answering the same telephone number. Intercom Plus features are:

- a. Intercom Dialing - permits the customer to pick up the receiver, dial an access code and hang up. The central office then applies distinctive ringing to the customer's telephone line and all stations of that line. The intercom feature is deactivated when all connected parties terminate their intercom call.
- b. Call Transfer - allows the customer to transfer an incoming call between extensions. Anyone picking up an extension will be connected to the incoming call automatically.
- c. Extension Hold - allows the customer to put a non-intercom call on hold. The call will remain on hold until any extension is taken off hook or the calling party disconnects.
- d. Three-way Calling - allows the customer to add a third party to an established connection. When the third party answers, a two-way conversation can be held before adding the original party for a three-way conference. The customer initiating the conference controls the call and may disconnect the third party to reestablish the original connection or establish a connection to a different third party. The feature may used on both outgoing and incoming calls.

7. Priority Ringing

Priority Ringing (USOC: CLP) differentiates incoming calls from up to ten customer preselected telephone numbers by signaling the customer with a distinctive ringing pattern. If the customer subscribes to Call Waiting, a distinctive tone is heard for the selected set of numbers. The last incoming call can automatically be added to the list of preselected numbers.

8. Repeat Dialing

Repeat Dialing (USOC: CRD) permits the customer to have calls automatically redialed when the first attempt reaches a busy number. The line is checked every 45 seconds for up to 30 minutes and alerts the customer with a distinctive ringing pattern when the busy number and the customer's line are free. The customer can continue to make and receive calls while the feature is activated.

9. Call Screen

Call Screen (USOC: CCB) allows the customer to automatically block incoming calls from up to ten customer preselected telephone numbers (including numbers from which a customer has just received a call). The list of numbers can be changed at any time. Callers whose numbers have been blocked will hear a recorded message and no usage charges will apply. The calling party's number will not be delivered or announced to the call recipient under any circumstances.

10. Call Return

Call Return (USOC: CCR) allows the customer to return a call to the last incoming call whether answered or not. Upon activation, it will redial the number automatically and continue to check the number every 45 seconds for up to 30 minutes if the number is busy. The customer is alerted with a distinctive ringing pattern when the busy number is free. When the customer answers the ring, the call is then completed. The calling party's number will not be delivered or announced to the call recipient under any circumstances.

11. Call Trace

Call Trace (USOC: CALTR) allows the customer to dial a code to automatically request that the Utility record a caller's originating telephone number and the date and time of the call as well as the date and time of the customer initiated trace. The information is stored by the Utility and disclosed only to a law enforcement agency for investigation purposes. The customer does not receive any information regarding the origination of the calls.

12. Caller Identification (Caller ID) (USOC: CNM) displays the name and telephone number of an incoming call on a specially designed telephone or a device that the customer attaches to their existing telephone.

13. Anonymous Call Rejection (ACR) (USOC: CRE) allows a customer to reject calls from callers who are using a blocking option to prevent display of their telephone number. The customer activates or deactivates ACR by dialing a preassigned code. When ACR is activated, callers who have blocked their number will be routed to an announcement which tells the caller that the called party will not accept calls from callers who have chosen to block display of their telephone number. The caller will not be charged for the call.

14. Call Waiting ID (CWID) (USOC: NWL) allows a customer who subscribes to both Caller ID and Call Waiting to see the name and number of an incoming caller while engaged in a call. The customer must have a specially designed telephone or Caller ID display unit attached to their existing telephone.

15. Description of Features

(N)

Privacy Manager (USOC: PVM) works with Caller ID to identify any incoming calls that have been identified as "blocked" "out of area" "unavailable" or "unknown". All calls that are identified through the subscribers Caller ID service will complete as normal. The unidentified caller is intercepted before the end users telephone rings, and is given one of two up-front announcements.

If the number is recognized as "blocked" (anonymous or private), the caller will be told that the person they are trying to reach does not take unidentified calls. The caller will be given the option to enter an access code, temporarily unblock their Caller ID for this one call, or record their name or the company they represent. Privacy Manager will then announce their call to the subscriber. If the caller chooses not to record their name or unblock their number the call is disconnected.

Other unidentified calls such as "unavailable" or "out of area" will be intercepted before the subscriber's telephone rings and the caller will be asked to enter an access code or to record their name/company to complete the call. Privacy Manager will then announce their call to the subscriber. If the caller chooses not to record their name, the call is disconnected.

Once the subscriber hears the recording of the name of the person calling, they can:

- accept the call
- decline the call
- send the call to voicemail, an answering service or an answering device, or
- activate a recording to the caller informing them that the person they are calling does not accept solicitations and requesting them to add this person's name and telephone number to their "do not call" list.

If the Privacy Manager subscriber takes no action, the service will forward the call directly to the customer's voicemail or answering service when Call Forwarding Busy Line/Don't Answer (CFBL/DA) is present. If the customer does not have CFBL/DA on their account, and is not home to answer the call, Privacy Manager will play a recording that the caller is unavailable on or after the sixth ring.

The customer will designate the distinctive ring telephone numbers on the initial service order. The customer may designate distinctive ring for calls forwarded from a wireless service. Forwarded calls will activate the distinctive ring pattern, while retaining any characteristics present with the original incoming call, such as caller name and number. Priority Ringing, Repeat Dialing, Select Call Forwarding, Call Return, Call Screen, Call Trace, Caller ID, Anonymous Call Rejection, Call Waiting ID, Privacy Manager and Distinctive Ring are not available to customers with the following types of lines: Farmer Lines, Manual and Direct Connections, lines served from some Remote Switching Systems, and 800 lines and data access lines. These features with the exception of Select Call Forwarding and Distinctive Ring, will only operate when both the caller and the call recipient are served from capable switches. (N)
17. The features shown in C.16 above, with the exception of Distinctive Ring, may not be provided with cellular service. (N)

NOTE 2: The offering of Speed Calling 30 will continue to be furnished to certified disabled customers as defined in Schedule Cal.P.U.C. No. A5.2.3.

C. REGULATIONS (Cont'd)

18. The customer of the Caller ID feature must have a Customer Premises Equipment (CPE) device to be able to display the caller's name and number. The price of this equipment is determined by the manufacturers of the device and is in addition to the rates and charges for the Caller ID feature.

The called party will not receive the name and telephone number when a caller chooses to block the delivery of their name and telephone number. The called party will receive a message on their display unit which will indicate that the calling party does not want their name and telephone number delivered.

19. Blocking Options for Caller ID:

Selective Blocking (*67) allows customers to block the delivery of their name and telephone number on a per call basis. Customers may control the display of their name and telephone number by dialing *67 (1167 on rotary dial phones) before dialing the telephone number they are calling.

Blocked Caller ID will be delivered to certain qualifying customers as described in FCC Memorandum Opinion and Order, CC Docket No. 91-281, adopted January 4, 2002. Such customers must certify to the Utility compliance with the waiver order's eligibility requirements.

(N)
|
(N)

Complete Blocking (*82) allows customers to have the Utility block the delivery of their name and telephone number on all calls except those on which they elected to have their name and number delivered. Complete Blocking will have the capability of allowing customers to unblock their name and telephone number on a call by call basis by dialing (*82) (1182 on rotary phones) before dialing the telephone number of the called party. By dialing *82, the presentation status is changed to public for that specific call.

C. REGULATIONS (Cont'd)

21. When either blocking option is used, both the name and telephone number of the calling party will not be identified when using Caller ID or any feature with a pre-selected list capability. Name and number blocking do not operate separately. Blocking does not affect the operation of Call Trace, 9-1-1, 800, or 900 service. (L)
22. Customers of Privacy Manager must also subscribe to Caller ID and the line must be equipped with touch-tone. Privacy Manager and Anonymous Call Rejection are mutually exclusive services and cannot be provisioned together on the same line. (L)
23. Distinctive Ring feature interactions: (N)
- a. Privacy Manager and Anonymous Call Rejection will take priority over Distinctive Ring on lines equipped with these features.
 - b. Distinctive Ring is not compatible with call forwarding features, except for Delayed Call Forwarding.
24. Priority Ringing and Distinctive Ring may not be compatible with CPE containing pre-set ring tones.
25. Distinctive Ring is not available on Centrex Service.¹ (N)

No. A2.1.9,F., only applies to the features contained in the package when the customer removes a feature that results in a different package or removes the package. In this situation, the feature removed from the customer's account will be billed at the full tariff rate. However, if the customer removes a feature(s) that does not result in a different package, minimum billing as set forth in Schedule Cal.P.U.C. No. A2.1.9,F. does not apply. The customer continues to pay the same tariffed package rate. After the 30 day minimum billing all removals and additions of features and packages will be billed, refunded and adjusted at the discounted package rate.

NOTE 3: See E.1. preceding.

NOTE 4: Busy Call Forwarding (BCF)⁸ and Delayed Call Forwarding (DCF)⁸ are no longer included as qualifying features for Packages. However, customers who qualify for a package may subscribe to BCF and DCF at the monthly rate of \$1.35⁸ per feature.

NOTE 5: Customers subscribing to the following services in addition to the Works⁸ will receive a discount of \$1.85⁸ off the package monthly rate: Access Line, Call Waiting ID, an Optional Calling Plan (either Saver 60, Saver Plus or OnePrice Saver) and WirePro.

NOTE 6: Frozen/Grandfathered Economy Plan (formerly The Basics) and The Works feature package discounts - See General Regulations, Schedule Cal.P.U.C. No. A2.1.2,A.4.

5.4.11 CUSTOM CALLING SERVICES - BUSINESS

A. DESCRIPTION

Custom Calling Service is an optional service arrangement of central office services furnished to individual line business customers. It is available within the exchange area of all exchanges served by a central office where facilities and operating conditions permit.

B. DESCRIPTION OF FEATURES

1. Call Forwarding Features

- a. Call Forwarding (USOC: ESM) permits the customer to automatically forward (transfer) all incoming calls to another telephone number, and to restore it to normal operation at their discretion.
- b. Busy Call Forwarding (USOC: EVB) permits the forwarding of incoming calls when the customer's line is busy. The forwarded number is fixed by the customer service order. Calls may be forwarded outside the customer's local central office (C.O.).
- c. Delayed Call Forwarding (USOC: EVD) permits the forwarding of incoming calls when the customer's line remains unanswered after customer-designated number of rings. The number of rings and the forwarded number are fixed by the customer service order. Calls may be forwarded outside the customer's local central office (C.O.).
- d. Busy Call Forwarding-Extended (USOC: EVC) forwards calls to a number outside the customer's local C.O.
- e. Reserved
- f. Select Call Forwarding (USOC: CSF) permits the customer to automatically forward (transfer) calls from up to ten customer preselected numbers to another telephone number and to restore it to normal operation at their discretion. Select Call Forwarding can be used in conjunction with Call Forwarding.
- g. Remote Access to Call Forwarding (USOC: RAF) allows the customer to activate and deactivate their Call Forwarding feature and to change their forwarded to number from a location other than where their service is located.

2. Call Waiting

Call Waiting (CW) permits the customer engaged in a call to receive a tone signal indicating a second call is waiting; and, by operation of the switchhook, to place the first call on hold and answer the waiting call. The customer may alternate between the two calls by operation of the switchhook, but a three-way conference cannot be established.

(T)

- a. Cancel Call Waiting (CCW) allows a customer to dial an activation code prior to making a call, and cancel the CW feature. CCW must be activated each time the customer wants CW canceled. Exception: customers subscribing to a Custom Calling Service that provides "flash privileges" such as Three-Way Calling, can activate the CCW feature while an incoming or outgoing call is in progress.

(T)

CCW is available to customers who subscribe to CW, preceding or in Schedule Cal.P.U.C. No. A9.1.1. The rates and charges shown for CW in E.1. following include the CCW arrangement.

3. Three-Way Calling

Three-Way Calling permits the customer to add a third party to an established connection. When the third party answers, a two-way conversation can be held before adding the original party for a three-way conference. The customer initiating the conference controls the call and may disconnect the third party to reestablish the original connection or establish a connection to a different third party. The feature may be used on both outgoing and incoming calls.

4. Speed Calling¹

Speed Calling permits the customer to place calls to other telephone numbers by dialing a one or two digit code rather than the complete telephone number. The feature is available as an eight code list or thirty code list. Either code list may include local and/or toll telephone numbers. To establish or change a telephone number in a code list, the customer dials an activating code, receives a second dial tone and dials either a one or two digit code (for the eight code and thirty code lists, respectively) plus the telephone number.

(L)

(N)

(N)

NOTE 1: The offering of Speed Calling 30 will continue to be furnished to certified disabled customer as defined in Schedule Cal.P.U.C. No. A5.2.3.

B. DESCRIPTION OF FEATURES (Cont'd)

5. Intercom

Intercom permits intercommunication between two or more customer provided telephone stations answering the same telephone number. The customer activates an intercom call by picking up his receiver and dialing his own telephone number from that telephone. When the customer hears a busy tone signal, he returns his receiver to its "on-hook" position within fifteen seconds. The central office then applies distinctive ringing to the customer's telephone station and all extension stations of that line. The customer must go "on-hook" within the fifteen second time allowance, or the intercom activation is canceled. The intercom feature is deactivated when all connected parties terminate their intercom call.

On or after August 7, 1988 the offering of Intercom will only be furnished to the same customer, on the same premises and supercedures. Additions, deletions or changes to the existing Intercom system are prohibited.

6. Intercom Plus

Intercom Plus permits intercommunication between two or more customer provided telephone extensions answering the same telephone number. Intercom Plus features are:

- a. Intercom Dialing - permits the customer to pick up the receiver, dial an access code and hang up. The central office then applies distinctive ringing to the customer's telephone line and all stations of that line. The intercom feature is deactivated when all connected parties terminate their intercom call.
- b. Call Transfer - allows the customer to transfer an incoming call between extensions. Anyone picking up an extension will be connected to the incoming call automatically.
- c. Extension Hold - allows the customer to put a non-intercom call on hold. The call will remain on hold until any extension is taken off hook or the calling party disconnects.
- d. Three-way Calling - allows the customer to add a third party to an established connection. When the third party answers, a two-way conversation can be held before adding the original party for a three-way conference. The customer initiating the conference controls the call and may disconnect the third party to reestablish the original connection or establish a connection to a different third party. The feature may used on both outgoing and incoming calls.

B. DESCRIPTION OF FEATURES (Cont'd)

7. Priority Ringing

Priority Ringing (USOC: CLP) differentiates incoming calls from up to ten customer preselected telephone numbers by signaling the customer with a distinctive ringing pattern. If the customer subscribes to Call Waiting, a distinctive tone is heard for the selected set of numbers. The last incoming call can automatically be added to the list of preselected numbers.

8. Repeat Dialing

Repeat Dialing (USOC: CRD) permits the customer to have calls automatically redialed when the first attempt reaches a busy number. The line is checked every 45 seconds for up to 30 minutes and alerts the customer with a distinctive ringing pattern when the busy number and the customer's line are free. The customer can continue to make and receive calls while the feature is activated.

9. Call Screen

Call Screen (USOC: CCB) allows the customer to automatically block incoming calls from up to ten customer preselected telephone numbers (including numbers from which a customer has just received a call). The list of numbers can be changed at any time. Callers whose numbers have been blocked will hear a recorded message and no usage charges will apply. The calling party's number will not be delivered or announced to the call recipient under any circumstances.

10. Call Return

Call Return (USOC: CCR) allows the customer to return a call to the last incoming call whether answered or not. Upon activation, it will redial the number automatically and continue to check the number every 45 seconds for up to 30 minutes if the number is busy. The customer is alerted with a distinctive ringing pattern when the busy number is free. When the customer answers the ring, the call is then completed. The calling party's number will not be delivered or announced to the call recipient under any circumstances.

11. Call Trace

Call Trace (USOC: CALTR) allows the customer to dial a code to automatically request that the Utility record a caller's originating telephone number and the date and time of the call as well as the date and time of the customer initiated trace. The information is stored by the Utility and disclosed only to a law enforcement agency for investigation purposes. The customer does not receive any information regarding the origination of the calls.

12. Caller Identification (Caller ID) (USOC: CAL1D) displays the telephone number of an incoming call on a specially designed telephone or a device that the customer attaches to their existing telephone.

Call Identification (Caller ID) (USOC: CNM) displays the name and telephone number of an incoming call on a specially designed telephone or a device that the customer attaches to their existing telephone.

13. Anonymous Call Rejection (ACR) (USOC: CRE) allows a customer to reject calls from callers who are using a blocking option to prevent display of their telephone number. The customer activates or deactivates ACR by dialing a preassigned code. When ACR is activated, callers who have blocked their number will be routed to an announcement which tells the caller that the called party will not accept calls from callers who have chosen to block display of their telephone number. The caller will not be charged for the call.

14. Call Waiting ID (CWID) (USOC: NWL) allows a customer who subscribes to both Caller ID and Call Waiting to see the name and number of an incoming caller while engaged in a call. The customer must have a specially designed telephone or Caller ID device attached to their existing telephone.

15. Call Transfer Disconnect (CTD) (USOC: FG3) allows a customer to initiate a three-way call with either an incoming or originating call and then disconnect from the call leaving the two remaining parties connected.

B. DESCRIPTION OF FEATURES (Cont'd)

16. Description of Features

(N)

Privacy Manager (USOC: PVM) works with Caller ID to identify any incoming calls that have been identified as "blocked" "out of area" "unavailable" or "unknown". All calls that are identified through the subscribers Caller ID service will complete as normal. The unidentified caller is intercepted before the end users telephone rings, and is given one of two up-front announcements.

If the number is recognized as "blocked" (anonymous or private), the caller will be told that the person they are trying to reach does not take unidentified calls. The caller will be given the option to enter an access code, temporarily unblock their Caller ID for this one call, or record their name or the company they represent. Privacy Manager will then announce their call to the subscriber. If the caller chooses not to record their name or unblock their number the call is disconnected.

Other unidentified calls such as "unavailable" or "out of area" will be intercepted before the subscriber's telephone rings and the caller will be asked to enter an access code or to record their name/company to complete the call. Privacy Manager will then announce their call to the subscriber. If the caller chooses not to record their name, the call is disconnected.

Once the subscriber hears the recording of the name of the person calling, they can:

- accept the call
- decline the call
- send the call to voicemail, an answering service or an answering device, or
- activate a recording to the caller informing them that the person they are calling does not accept solicitations and requesting them to add this person's name and telephone number to their "do not call" list.

If the Privacy Manager subscriber takes no action, the service will forward the call directly to the customer's voicemail or answering service when Call Forwarding Busy Line/Don't Answer (CFBL/DA) is present. If the customer does not have CFBL/DA on their account, and is not home to answer the call, Privacy Manager will play a recording that the caller is unavailable on or after the sixth ring.

C. REGULATIONS

1. The Utility may furnish Custom Calling Services where there is available central office equipment with the proper program updates as determined by the Utility.
2. Custom Calling Services will not be provided in connection with Semipublic Service.
3. The Call Forwarding, Busy and Delayed Call Forwarding and Select Call Forwarding Service customer is responsible for the payment of applicable charges for each completed call between their call forwarding equipped line and the number to which the call is forwarded. This charge for local, message unit, zone calling units or dial station toll applies to all forwarded calls that are answered at the number to which the calls are forwarded. Caller ID on PRI requires the customer have Caller ID on all facilities connected by a common "D" channel.
4. Charges between the originating location and the call forwarding equipped line are applicable in accordance with regularly filed tariffs, local message units, zone calling units, dial station, operator station or person toll.
5. Custom Calling Services may be provided to customers with either rotary dial telephones or Touch-Tone Calling Service.
6. The quality of transmission of calls which are forwarded or on three-way calling may vary depending on the distance and the routing necessary to complete each call and normal transmission is not guaranteed on any forwarded call or three-way call.
7. It is the responsibility of the customer forwarding calls to another service to obtain any necessary permission of the customer to whom the calls are forwarded. Schedule Cal.P.U.C. No. A2.1.11 prohibits interference of telephone service of another customer.
8. Private Branch Exchange Trunk Line Service is limited to all individual Call Forwarding features (except Select Call Forwarding) and Speed Calling (individual 8 or 30 code capacity).

14. Intercom Plus is offered to individual single line business customers within the exchange areas of all exchanges and central offices where facilities and operating conditions permit.¹

Limitations:

- a. Intercom Plus will work only with a Utility provided dialable line where dial tone is normally served.
- b. Intercom Plus is not provided on lines arranged for multiline hunting.
15. Priority Ringing, Repeat Dialing, Select Call Forwarding, Call Return Call Screen, Call Trace, Caller ID, Anonymous Call Rejection, Call Waiting ID and Privacy Manager are not available to customers with the following types of lines: Centrex, Farmer Lines, Coin and Coinless Pay Phones, Hotel/Motel and Hospital Lines, Manual and Direct Connections, Private Branch Exchange (PBX) Service, lines served from some Remote Switching Systems, 900, 976, 800 lines and data access lines. These features, with the exception of Select Call Forwarding, will only operate when both the caller and the call recipient are served from capable switches. (T)
16. The features shown in C.15. preceding may not be provided with cellular service. (D) (T)

17. An Enhanced Service Provider (ESP) may order and pay for the provisioning and monthly recurring charges of the following features provided a written agreement exists between the ESP and the end user to order and pay for end user services: Priority Ringing and Select Call Forwarding.

(T)

Limitations:

- a. The ESP is responsible for all provisioning and monthly recurring charges for billed-to-ESP services as set forth in E.2.d. following including those situations in which the end user and/or the Utility has temporarily suspended or disconnected the end user's service.
- b. The Utility recommends that the end user contact their ESP to disconnect billed-to-ESP services. It is the responsibility of the end user to contact the Utility for service activity for those utility provided services billed directly to the end user.
- c. The limitation of the Utility's liability is set forth in Schedule Cal.P.U.C. No. A2.1.14, Rule No. 14.
- d. The ESP shall be liable for and shall indemnify, defend, protect and save harmless the Utility against any and all losses, claims, demands, suits, causes of action, damages, costs or liability in law or in equity of every kind and nature whatsoever, including attorney's fees arising directly or indirectly from the service or in connection therewith, including but not limited to any loss, damage, expense, or liability resulting from any infringement or claim of infringement of any patents, trademarks or copyright, or resulting from any claim of libel or slander.
- e. The ESP has exclusive responsibility and control over the content, quality, and characteristics of services or conversations conducted over the ESP's equipment. The Utility assumes no liability for the, quality defects in, or content of those services. The ESP shall exclude from its services any matter, the dissemination of which is prohibited by law, or by rules, regulations or order of any governmental agency.

Limitations: (Cont'd)

- f. The ESP's services may be disconnected pursuant to the procedures set forth in Schedule Cal.P.U.C. Nos. A2.1.9 and A2.1.11 for the ESP's failure to make full payment for the Utility's services provided under this tariff.
- g. The ESP is financially responsible for any and all costs and expenses involved in providing its services, including, but not limited to, the ESP premise equipment, program development, advertising, and promotional expenses. The ESP is financially responsible for all facilities required to connect the ESP's equipment to the Utility's serving wire center, in accordance with Schedule Cal.P.U.C. No. A2.1 and with all applicable rates and charges under the Utility's Tariffs.
- h. The ESP's premise equipment shall be interconnected in accordance with the General Conditions and applicable rates as set forth in Schedule Cal.P.U.C. No. A8.1, Connection of Customer-Provided Equipment and Systems. If the ESP violates this requirement, the Utility shall disconnect the ESP's services.
- i. Billed to ESP orders can only be accepted if the end user line is specified and available for provisioning.
- j. The ESP shall submit to the Utility all advertising, sales promotion and other publicity relating to the subject matter of Select Call Forwarding and Priority Ringing wherein the Utility's name, signs, markings or symbols are used from which the connection of the Utility's name therewith may be in the Utility's judgement, reasonably inferred or implied, and further, the ESP shall not publish or use such advertising, sales promotion matter without the prior written approval of the Utility.

C. REGULATIONS (Cont'd)

18. The customer of the Caller ID feature must have a Customer Premises Equipment (CPE) device to be able to display the caller's name and number. The price of this equipment is determined by the manufacturers of the device and is in addition to the rates and charges for the Caller ID feature.

The called party will not receive the name and telephone number when a caller chooses to block the delivery of their name and telephone number. The called party will receive a message on their display unit which will indicate that the caller does not want their name and telephone number delivered.

19. Blocking Options for Caller ID:

Selective Blocking (*67) allows customers to block the delivery of their name and telephone number on a per call basis. Customers may control the display of their name and telephone number by dialing *67 (1167 on rotary dial phones) before dialing the telephone number they are calling.

Blocked Caller ID will be delivered to certain qualifying customers as described in FCC Memorandum Opinion and Order, CC Docket No. 91-281, adopted January 4, 2002. Such customers must certify to the Utility compliance with the waiver order's eligibility requirements.

(N)
|
(N)

Complete Blocking (*82) allows customers to have the Utility block the delivery of their name and telephone number on all calls except those on which they elect to have their name and number delivered. Complete Blocking will have the capability of allowing customers to unblock their name and telephone number on a call by call basis by dialing (*82) (1182 on rotary phones) before dialing the telephone number of the called party. By dialing *82, the presentation status is changed to public for that specific call.

20. The Selective and Complete blocking options are provided to the customer at no charge.

21. When either blocking option is used, both the name and telephone number of the calling party will not be identified when using Caller ID or any feature with a pre-selected list capability. Name and number blocking do not operate separately. Blocking does not affect the operation of Call Trace, 9-1-1, 800, or 900 service.

22. Customers with Caller ID (USOC: CAL1D) for Centrex, PBX, and CUSTOM 8 services will only receive display of incoming telephone numbers. The name associated with an incoming call will not be displayed.

23. Call Transfer Disconnect is not available to customers with the following types of lines: Foreign Exchange, Coin and Coinless Pay Phones, Centrex or any optional flat rated local, toll or expanded calling plans.

24. Customers of Call Transfer Disconnect are automatically restricted from making international calls due to toll fraud concerns. Customers may contact their business office to request to have their line unblocked for international calls. Customers who wish to make international calls can sign and return to the Utility a CTD Toll Fraud Release stating that they will accept responsibility for all toll calls placed from their CTD equipped line. The restriction is removed from the customer's line when the signed form is received by the Utility.

25. Customers of Call Transfer Disconnect are responsible for any toll or other charges associated with calls they originate.

26. Customers of Privacy Manager must also subscribe to Caller ID and the line must be equipped with touch-tone. Privacy Manager and Anonymous Call Rejection are mutually exclusive services and cannot be provisioned together on the same line.

5.5.3 CUSTOMER-OWNED PAY TELEPHONE (COPT) SERVICE

A. DESCRIPTION

Customer-owned pay telephone (COPT) service provides an access line for use with a pay telephone set (including pay telephone sets owned by the Utility) which is equipped with Touch-Tone dialing capability. Access lines can be ordered for use with an instrument-implemented pay telephone set ("smart set") or a central-office-implemented pay telephone set ("dumb set"). Most services can be ordered as either "outward only" or "bothway" service.

(T)

(F)

(N)

(N)

This service allows the customer, within certain limitations, to establish the call rate for sent paid local and long distance calls placed from the COPT. The customer, for purposes of this service, is the person or entity, including the Utility, who subscribes to the access line.

1. General (Cont'd)

1. Rates for extended service include service without additional charge in the exchanges and district areas listed in Schedule Cal.P.U.C. No. A5.1.1. and exchanges and district areas listed in Schedule Cal.P.U.C. No. A5.1.2. Zone 1 and 2, which indicates the local service areas.

Rates for other than extended service include local service without additional charge to all stations receiving service from the exchanges from which the primary station is served.

Rates for service for other than that shown above, refer to Schedule Cal.P.U.C. No. A6.2.1.

- m. The Utility may offer operator assistance on non-sent paid calls originating from any COPT telephone.

- n. Aggregation of pay telephone sets behind a PBX is allowed to the extent that the PBX/COPT Configuration allows 9-1-1 dispatchers to determine the geographical origin of emergency calls to the same extent currently allowed for more conventional telephones. If the PBX/COPT configuration does not allow this level of identification of the call's origin, aggregation will not be allowed¹.

e. The Utility shall not be liable for any injury to persons or property resulting from the customer's interconnection of its terminating equipment with the COPT Coin Line. The customer shall defend, indemnify and hold harmless the utility from and against any and all claims, liabilities, damages or demands arising from or in connection with the customer's interconnection of its terminating equipment with the COPT Coin Line, including but not limited to injury to persons or property.

f. Based on rates submitted to the Utility by the customer, the Utility will quote charges to the end user for the deposit of coins when the end user originates an 0- local call, a 411 (directory assistance call), or an intraLATA toll call which is not alternately billed¹. The Utility will rate sent paid 0- local calls, 411 calls, and intraLATA toll calls based on rates submitted by the customer². This rate information must be submitted to the Utility in the format and media specified by the Utility at least 7 days before the desired effective date of rate implementation. The customer may submit changes to the rate information once every 30 calendar days.

(T)
|
(T)

If the customer fails to submit the rate information according to the procedures set forth in this tariff, or if submitted rate information does not take effect for any reason, the Utility will not quote a rate on behalf of the customer. The end user will be referred to the payphone signage.

The customer is solely responsible for ensuring that the rate information submitted to the Utility complies with all state and federal rules. The customer will defend and hold the Utility harmless from any and all claims resulting from the Utility's quotation or implementation of the customer's rate information.

Except as may be provided in Schedule Cal.P.U.C. No. A2.1.14 preceding, the Utility is not liable to the customer nor to any other person for damages due to any failure by the customer to submit rate information to the Utility, to any error in the rate information which the customer submits to the Utility or to any failure by the Utility for any reason to correctly implement customer's rate information.

NOTE 1: Available where local facilities and operating conditions permit.

NOTE 2: Rating of sent paid 0- local, 411, and intraLATA toll calls is limited to those calls handled by the Utility.

5.6.1 JOINT USER SERVICE

A. DESCRIPTION

Joint user service (USOC: JUL) is an arrangement whereby an individual, other than an employee, member or officer of the concern which is the customer or a firm, corporation or association shares in the use of a customer's business telephone service. The joint user is not required to occupy the same premises as that occupied by the customer.

B. REGULATIONS

1. A joint user may obtain separate telephone service from the Utility, in addition to or in lieu of the joint user service.
2. Applications for joint user service and for additional service, equipment or facilities in connection therewith, must be made by the customer and the customer is responsible for the payment of all charges incurred thereunder. Any billing or service disputes by joint users shall be taken up with the customer, not with the Utility or the Commission. Only the customer of the Utility shall have standing to file billing or service disputes with the Utility or the Commission.
3. Regulations that apply to the services and equipment provided on the premises of a customer will also apply to a joint user of these services where furnished to the Utility's local loop demarcation point.
4. The rates in D. following, apply in addition to the rates and charges for the facilities and all other service provided. The minimum charge for joint user service shall be the monthly rate, for each joint user location. If the listing is included in the telephone directory, the service shall be paid for until the end of the directory period unless the joint user vacates the premises or "customer location" on which the service is provided or the customer's service is discontinued or the joint user becomes a business service customer in the same exchange and requests discontinuance of joint user service.
5. Joint user service is not furnished in connection with residence telephone service. Business service may be extended to a residence premises, at the applicable Business rates and charges.

5.7 DIRECTORY SERVICES

5.7.1 LISTING SERVICE

A. DESCRIPTION

Applicable to listings in the alphabetical (white) section of a Telephone Directory.

B. REGULATIONS

1. General

a. Purpose

Listings in the alphabetical (white) section of the directory are intended solely for the purpose of identifying customers' telephone numbers as an aid to the use of telephone service.

b. Evidence of Conducting Business

The Utility may require the customer to furnish evidence satisfactory to the Utility that the business of the customer or joint user is being conducted under the names to be listed. If, upon request of the Utility, the customer for any reason does not furnish such evidence, the Utility may refuse to list the name or refuse to continue a listing of the name. Such acceptance or refusal of the Utility of the listing of a name is subject to review by the California Public Utilities Commission.

c. Authorization

All applications for directory listings shall be made by the customer or authorized agent, and in addition where the telephone number of another customer is included in a listing, the application for the listing shall be made by both customers.

d. Public Telephones

Telephone numbers of public telephones will not be listed in the (T) z telephone directory.

B. REGULATIONS (CONT'D)

1. General (Cont'd)

e. Establishment of Billing

Where additional listings are provided in conjunction with initial or subsequent installations of exchange service facilities, the charges begin with the day on which charges for the associated service are effective. Where additional listings are provided other than in conjunction with the installation of exchange service facilities, the charges begin with the day following their entry in the information records.

f. Discontinuance of Billing

When additional listings are included in the directory, charges may not be discontinued until the end of the directory period unless the customer's service is discontinued, (except as shown in (1) below), the listed party or concern vacates the customer's premises or subscribes to service of the same class as furnished the customer, or in the case of a guest listing, the listed party either vacates the customer's premises or becomes a subscriber to residence service in his own name in the same exchange.

- (1) Charges for additional listings ordered removed from the directory, by customers requiring caption listing rearrangements, may be discontinued at any time when the orders are completed.

g. Responsibility of Customer

The customer assumes full responsibility concerning the right to use any name or address in a directory listing and agrees to hold the Utility free and harmless of and from any claims, loss, damage or liability which may result from the use of such listing. The Utility does not undertake to determine the legal, contractual or other right to the use of a name or address to be listed in a telephone directory. The customer shall notify the Utility of any change of non-service address in writing.

h. Non-published Service

- (1) Primary service listings shown in C.1. following, will be nonpublished at the specific request of the applicant or customer. The customer name, address and telephone number will not be listed in any telephone directory, street address directory or in the directory assistance records available to the general public except that the number may be included in reference listings.

5.7.2 LOCAL DIRECTORY ASSISTANCE SERVICE

A. DESCRIPTION

1. Applicable to furnishing a calling party with telephone numbers or other information available from the Utility's Directory Assistance records.

2. Territory

Within the exchange areas of all exchanges, as said areas are defined on maps filed as part of the tariff schedules and within Local Access and Transport Areas per D.94-09-065.

3. Service Description

- a. Directory Assistance Service provides the calling party with the following type of listing information from the Utility's Directory Assistance records:

- (1) The requested telephone number and address information associated with the requested telephone number.

- (2) Information that the requested telephone number cannot be found.

- b. The Directory Assistance operator will furnish up to a maximum of three items of the type of listing information in 3.a. preceding, per call. Customers requesting more than one listing per call should inform the Directory Assistance operator at the beginning of the call.

- c. Express Call Completion for one listing is included in the Directory Assistance service charge.

Express Call Completion allows call completion to a desired intraLATA number for customers calling directory Assistance. Usage charges may also apply.

B. REGULATIONS

1. Exemptions

- a. The following are exempt from the charges shown in C.1 and 2. following, subject to any specified regulations.

(1) Physically Impaired. A service may be exempt from Directory Assistance charges if it is provided for the use of an individual who is unable to use a telephone directory due to visual or other physical limitations. The disabled persons may self-certify as to their physical inability to use telephone directories. Exemption will be granted upon receipt of a completed exemption form certifying the applicant's impairment. When these regulations are met:

- Residence service may be exempt when a member of a household cannot use the directory due to a certified visual or other physical impairment.
- An individual access line may be exempt when it is provided to a small business where all owner(s) and employees of the business on the premises have a certified visual or other physical impairment.
- A business service may be exempt when it is provided to an organization established specifically for the purpose of assisting the visually impaired. Such organizations may employ the services of both sighted and certified visually impaired individuals.
- A certified physically impaired individual may make a Directory Assistance call from any telephone and charge it to their exempt telephone number or calling card. No charge will apply to this type of call. (T)

- b. IntraLATA Directory Assistance calls originating from LATA 5, non-619 area codes (213, 310, 714, 805, 818 and 909) requesting listings in the 619 area code will be handled by interexchange carriers.

5.7.4 TELEPHONE DIRECTORY PUBLISHING RIGHTS

A. DESCRIPTION

1. Listings for Directory Publishing

This offering provides a directory publisher access to subscriber list information, as described herein, to publish in a telephone directory in any format listed names, addresses and telephone numbers of the Utility's customers that are or will be published in the Utility's telephone directories. Such publishing rights do not include names, addresses, telephone numbers, art work, and other materials contained in this Utility's classified "yellow page" directories and directory sections. (T)

(a) In obtaining listings from the Utility, the customer may select listings based on the following parameters: (T)

(i) Geographical selection: Listings may be selected by telephone serving exchange, area codes and prefixes, listed community name, postal ZIP codes, or the coverage of the Utility's white page directory. Combinations of the above parameters are not permitted. (T)

(ii) Type of listing: Listings may also be selected by the type of listings (residential, business or caption listings). (Caption listings are not available for A5.7.4.A.1(c) (xii) listings updates or A5.7.4.A.1(c) (xiii) directory delivery address information data elements.)

(iii) Frequency of directory delivery address information only applicable to data element A5.7.4.A.1(c) (xiii): May only be ordered on a daily or monthly basis.

(b) Media: The listing information of the Utility's customers may be obtained on CD-ROM. (C)

2. The subscriber to this tariff shall indemnify, hold harmless, and defend the Utility from and against any cost, damage, expense (including but not limited to reasonable attorney's fees and expenses) or liability arising in any manner out of any demand, claim, suit or judgment for damages or injuries however caused, which may arise out of the subscriber's use of the listings provided under this Schedule.

3. The Utility reserves the right to discontinue any of its directories in whole or part, to rearrange or change any such directory in whole or in part or to split or combine one or more of such directories as it deems necessary in the ordinary conduct of its business. A standard format of the listing information may be established by the Utility and provided to the customer. The Utility further reserves the right to modify or discontinue any of the sorting formats offered, upon thirty-days notice given to the customer.

4. The subscriber obtaining listing information under Section 5.7.4.A.1 above shall furnish a copy of any directories containing any listing information furnished hereunder to the Utility within 10 days following publication. The Utility may refuse to furnish publishing rights henceforth to any subscriber who fails to comply with this provision.

(T)

5. The subscriber agrees to accept the listings on an "as-is" basis with all faults, errors and omissions, if any, and the Utility does not warrant the accuracy of the information contained therein. THE UTILITY MAKES NO WARRANTY, EXPRESS OR IMPLIED WITH RESPECT TO ANY LISTINGS OR THE INFORMATION CONTAINED THEREIN, INCLUDING BUT NOT LIMITED TO WARRANTIES FOR MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. The subscriber agrees to release the Utility from any and all liability for damages which may arise due to any errors and omissions in the Utility's listings.

The subscriber is prohibited from selling, renting, or otherwise providing, in the format provided, copies of listings to any other person or corporation including, but not limited to, publisher's customer's affiliates, contractors, employees agents or customers.

7. Base files will contain the most recent listings available in the Utility directory listing data base.

8. For directory publishers obtaining listings under Section 5.7.4.A.1, updates are available for subscriber listings on a daily or monthly basis, and will include indicators for the type of update activity. Business updates will contain activity reflecting newly connected listings, disconnected listings, moves and change listing affecting service activity. Residence updates will include an indicator which identifies update activity as either add or delete.

z

9. Pacific Bell will not include the listing information of other Utilities (independent telephone companies or competitive local carriers) without the written permission from that Utility. Pacific Bell will provide the publisher with a list identifying all other Utilities that have given written permission to release their subscriber listings. No other rights are granted to the publisher.

10. The directory delivery address information data element (A5.7.4.A.1(c)(xiii)) provides only subscriber service address information for the sole purpose of secondary directory delivery. Only the service address of the subscriber is provided. Address information only associated with non-published subscribers and directory assistance listings is included.

11. The directory delivery address information data element may be ordered in conjunction only with data elements A5.7.4.A.1(c)(iii), A5.7.4.A.1(c)(iv), A5.7.4.A.1(c)(v), A5.7.4.A.1(c)(vii), A5.7.4.A.1(c)(xiv).

12. Publishers obtaining directory delivery information (data element A5.7.4.A.1(c)(xiii)) must hold the information in strict confidence and restrict its use solely for the purpose of delivering the published directory.

13. In compliance with CPUC Decision No. 97-01-042, publishers obtaining directory delivery information (data element A5.7.4.A.1(c)(xiii)) are required to provide a toll-free number printed on the inside first page of the directory which the recipient can call to discontinue further directory deliveries by that recipient.

C. RATES AND CHARGES

1. Advance Payment: The Utility may require the subscriber to make an advance payment of the estimated charges at the time the order's taken. The Utility shall refund or bill, as appropriate, any difference between the estimated amount collected and the charge.

2. Order Cancellation or Change:

- a. If the subscriber cancels the order prior to the date the Utility is scheduled to provide the listings and the Utility has performed any work or incurred any expense in connection therewith, the Utility will charge the estimated cost incurred not to exceed the estimated charge for the order.
- b. If the subscriber cancels the order on or after the date the Utility is scheduled to provide the listings, all charges shall apply.
- c. When a subscriber requests changes or modification to a pending order, acceptance of changes/modification will be determined by the Utility on an individual case basis. An additional charge may be applicable.

3. Late Payment: Bills Shall be considered past due (delinquent) if not paid within 30 calendar days after date of presentation. Late payment charges, as provided for in Schedule Cal.P.U.C. No. A2.1.9 shall thereafter apply. The three month limitation to back bill as set forth in Schedule Cal.P.U.C. No. A2.1.9 for exchange services, because of the complexities involved, is not applicable.

4. Computations of Rates and Charges:

- a. The Utility shall count all listings provided to the subscriber, whether or not the subscriber actually publishes such listings in its directory.
- b. For purposes of this Schedule, each name, address and telephone number of a listed party shall be counted as one listing. If additional lines of information appear, each such line shall be counted as a separate additional listing. Where additional information appears as a part of a listed party's name or address the Utility at its option may count same as two listings.

5.7.5 STREET ADDRESS TELEPHONE DIRECTORY SERVICE

A. DESCRIPTION

Street address telephone directory service is the furnishing of a directory which lists customers' names and telephone numbers by street name (arranged alphabetically) and numerically thereunder by address.

B. REGULATIONS

1. General

- a. The service furnished hereunder shall be subject to the availability of copies of the directory.
- b. Each copy of the directory shall remain at all times the property of the Utility and except as otherwise provided in this tariff schedule, it shall be surrendered to the Utility upon receipt of each new issue or at such (T) time as the service is terminated.
- c. This service may be terminated by the Utility in the following regulations:
 - (1) Upon failure of the customer to pay the charges when due or to comply with any of the terms and regulations of this schedule.
 - (2) If abused or fraudulently used.
- d. The Utility shall refuse to provide service for any applicant and it shall discontinue service to a customer, whenever it has reasonable cause to believe that the use made or to be made of the service or the furnishing of service to the applicant or customer, is prohibited under any law, ordinance, regulation or other legal requirement or that the service is being or is to be used as an instrumentality, directly or indirectly, to violate or to aid and abet the violation of the law. A written notice to the Utility from any official charged with the enforcement of the law stating that such service is being used or will be used as an instrumentality to violate or to aid and abet the violation of the law is sufficient to constitute such reasonable cause.

5.7.6 LIST SERVICE

A. DESCRIPTION

List Service consists of searching for listings and matching telephone numbers to one or more names and addresses supplied by the customer and furnishing such information in written form to the customer. These telephone numbers shall be obtained from listings normally included in the alphabetical section of the Utility's regular telephone directories. This service contemplates furnishing telephone numbers in effect at the time a request is received only. A request to verify or update telephone number information previously furnished shall be charged for as an initial request for service.

B. REGULATIONS

1. This service is furnished solely for telephone calling purposes of the customer. The customer shall not sell, reprint, lease, rent or permit the use of this information by others.
2. The Utility assumes no responsibility or liability for any errors in the information furnished. The customer shall indemnify the Utility and hold it free and harmless of and from any and all claims, demands or damages that shall or may arise from the use of this service.
3. Where a name supplied by a customer is included in a caption listing arrangement and a single telephone number can clearly be associated with it, only that telephone number will be furnished; otherwise all telephone numbers included in that caption arrangement will be furnished at the following charge.
4. Charges for list service are payable in advance upon demand by the Utility.

5.7.8 DIRECTORY ASSISTANCE LISTING INFORMATION SERVICE

(T) (L)

A. DESCRIPTION

1. Grants a license, as described herein, to third parties (CLCs - Competitive Local Carriers, Independent Telephone Exchange Carriers, Interexchange Carriers, and other parties) to utilize the listed names, addresses and telephone numbers of this Utility's subscribers, subscribers of CLCs, and subscribers of independent telephone companies for the purpose of providing voice, recorded or electronic directory assistance services. The listing information will be provided in datafiles comprised of an initial file (the "basefile"), and/or daily, weekly or monthly updates. The Utility will prepare a list disclosing the identity of each carrier that has provided its subscribers' directory listings to be included in the Utility's database, which shall be made available upon request.

Any third party licensing listings of Roseville Telephone or other third parties other than Utility pursuant to the terms and conditions of this tariff, acknowledges that in addition to the licensing fees charged pursuant to this tariff, that Roseville Telephone and the other third parties will charge subscriber for listings under Roseville Telephone's DALIS tariff or the third party's listing tariff.

(L)

NOTE 1: The appointment set-up charge will apply to missed appointment calls which are not canceled or rescheduled by the caller one hour prior to the start of the scheduled appointment.

B. REGULATIONS

1. The listed information provided by this offering may only be used for the purpose of providing voice, recorded, or electronic directory assistance services. Any information associated with a non-published customer included in this offering shall be used only for the purpose of aiding the subscriber in conducting more complete and accurate searches. No part of the information associated with non-published customers or the fact that a number is non-published shall be disclosed or used for any other purpose under any circumstances. Voice directory assistance is defined as the provisioning of directory assistance service through a live operator. Recorded directory assistance is defined as the provisioning of directory assistance service through a live operator and a recorded announcement. Electronic Directory Assistance is defined as the provisioning of directory assistance services electronically, without the use of an operator.
2. Rights in this offering are nonassignable and nontransferable by directory assistance providers other than through the provisioning of directory assistance or electronic directory assistance services.
3. The subscriber to this offering shall indemnify, hold harmless, and defend the Utility from and against any cost, damage, expense (including but not limited to reasonable attorney's fees and expenses) or liability arising in any manner out of any demand, claim, suit or judgment for damages or injuries however caused, which may arise out of the subscriber's use of the listings provided under this Schedule.
4. A standard format of the listing information will be established by the Utility and provided to the customer. The Utility further reserves the right to modify the record format offered.
5. The subscriber agrees to accept the listings on an "as-is" basis with all faults, errors and omissions, if any, and the Utility does not warrant the accuracy of the information contained therein. THE UTILITY MAKES NO WARRANTY, EXPRESS OR IMPLIED WITH RESPECT TO ANY LISTINGS OR THE INFORMATION CONTAINED THEREIN, INCLUDING BUT NOT LIMITED TO WARRANTIES FOR MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. The subscriber agrees to release the Utility from any and all liability for damages which may arise due to any errors and omissions in the Utility's listings.

6. The Utility's listings shall at all times remain the sole property of the Utility. The subscriber is prohibited from selling, renting, or otherwise providing copies of listings obtained from Utility to any other person or corporation including, but not limited to, subscriber's affiliates, contractors, employees, agents or customers. In compliance with CPUC Decision D.00-10-026, ILECs (Incumbent Local Exchange Carriers) subscribing to this service may release the listings received from Pacific to third party DA providers pursuant to the terms of the ILEC's tariffs. The ILEC subscribing to this service agrees to provide Pacific with an ongoing list of third parties that receive Pacific's listings directly through the ILEC subscriber. Any third party, however, that accepts listings of Pacific through the ILEC subscriber, shall remain liable for any applicable charges under Pacific's tariff on the same basis as if the listings had been obtained directly from Pacific.

7. Basefiles will contain the most recent listings available in the Utility directory listing data base.

8. Daily, weekly, and monthly updates for listings are available. Updates will include indicators for type of activity, either adds or deletes.

- b. Other terms and conditions of Advance Payments specified in D2.3.2, apply.

2. Order Cancellation or Change:

- a. If the subscriber cancels the order prior to the date the Utility is scheduled to provide the listings and the Utility has performed any work or incurred any expense in connection therewith, the Utility will charge the estimated cost incurred not to exceed the estimated charge for the order.
- b. If the subscriber cancels the order on or after the date the Utility is scheduled to provide the listings, all charges shall apply.

3. Computations of Rates and Charges.

- a. The Utility shall count and bill for all listings provided to the subscriber, whether or not the subscriber actually reproduces such in subscriber's voice or electronic directory assistance services.
- b. For purposes of this Schedule, each unique DALIS record shall be counted as one listing. If additional lines of information appear, each such line shall be counted as a separate additional listing. Where additional information appears as a part of a listed party's name or address the Utility at its option may count same as two listings.

5.8.3 NUMBER REFERRAL SERVICE

A. DESCRIPTION

1. Number Referral Service is a central office optional intercept arrangement for diversion of calls to a number which is no longer in service.
2. In accordance with the Number Referral Service customer's instructions, a caller to a disconnected number with Basic Referral Service or Operator Referral Service is provided with information which may include: the called number, why the call was not connected, and what can be done to reach the called party.

3. Number Referral Service Options¹

a. Basic Referral Service

An automated announcement system that repeats the called number, provides the status of the called number, and provides information on how to reach the called party.

b. Operator Referral Service

A Number Referral Service Operator provides the calling party with information about the called number that cannot be automated or placed on a generic recorded announcement. The operator asks what number was called and provides referral information in accordance with the called party's instructions and regulations as set forth in B. following.

c. No Referral Service

An automated announcement which states that the called number has been disconnected. No further information is provided about the called number.

d. Sequential Referral Service

An automated announcement for Centrex and/or Direct Inward Dial Customers that provides a new number to a calling party for a sequential range of two or more numbers that have been disconnected. All of the customers numbers that have been disconnected with Sequential Referral Service are referred to the same new number.

5.9.1 GENERAL REGULATIONS

1. Availability of Service

Statewide Mobile telephone service is available to mobile telephones (T) and pocket receivers equipped for this service when in range of a base station through which such service is furnished, subject to transmission, atmospheric and like limitations.

Maritime service is available to ships equipped for this service when in range of a coast station through which such service is furnished, subject to transmission, atmospheric and like conditions.

2. Undertaking of the Utility

The Utility's obligation to furnish service is dependent upon its ability to secure and retain suitable facilities and rights for the construction and maintenance of the necessary circuits and equipment. In case of a shortage of facilities, applications for service will be filled in order of precedence as specified in 3. following.

In connection with general, maritime, dispatching and direct dispatching service, the Utility does not undertake to transmit messages, but offers the use of its facilities for communications between its customers.

In connection with personal paging service, the Utility undertakes (T) only to transmit a signal for the purpose of actuating a signal on the mobile unit or pocket receiver and accepts no responsibility for the transmission of further intelligence.

3. Priorities for Service

When facilities in a given area are insufficient to permit furnishing mobile telephone service to all who desire such service, applications for service to new customers or to additional mobile units of existing customers shall be filed in accordance with the following categories of precedence in the order listed. All applications in the same category shall be filed in the order in which they are received and all such applications shall have precedence over applications in a lower category.

4. Use of Service and Facilities

- a. Except as provided in b. below, the service is intended only for communications in which the customer has a direct interest and shall not be used for any purpose for which a payment or other compensation shall be received by the customer from any other person, firm or corporation for such use or in the collection, transmission or delivery of any communication for others.
- b. General service and personal paging service is furnished to customers (T) engaged in the business of renting mobile units to transients upon the conditions that use of the service by such transients shall not be made subject to any charge in addition to the rates set forth in this tariff and other applicable Utility tariffs. The customer remains responsible for the service, including loss or damage of equipment provided by the Utility to the customer.

5. Obligation of The Customer

The calling party (or customer) shall establish their identity in the course of any communication as often as may be necessary.

The calling party (or customer) shall be solely responsible for establishing the identity of the person or persons with whom connection is made at the called station.

The customer's use of the radio transmitter on the mobile unit shall at all times be subject to the control of the operator at the base or coast station of the Utility.

The customer is required to furnish, install, and maintain the storage battery, charging equipment, and noise suppressors on his mobile unit required for the proper operation of the service.

6. Limited Conversation

The Utility reserves the right to limit the length of conversation when necessary in times of emergency resulting in a shortage of facilities.

7. Responsibility of The Utility

When the lines of other telephone companies are used in establishing connections to telephones not reached by this Utility's lines, this Utility is not liable for any act or omission of the other company or companies.

Provisions concerning limitation of liability and allowance for interruptions in service are set forth in Schedule Cal.P.U.C. No. A2.1.14.

8. Service Agreements

An application for service becomes a contract upon the establishment of service. Neither the contract nor any rights acquired thereunder may be assigned or in any manner transferred. Requests for additional service, upon the establishment thereof, become a part of the original contract except that each item of additional service is furnished subject to payment of charges for the period specified in 9. following.

9. Initial Contract Period and Termination of Service by Customer

- a. Contract periods - the initial contract period for service and facilities is one month.
- b. Termination by customer - service or facilities may be terminated by the customer at any time, subject to payment of full charges for the period service is rendered, except that, if termination occurs in the initial contract period, charges apply for the full initial contract period.

10. Payment for Service

The customer is required to pay all charges for service in accordance with the Utility's regular billing and collection practices.

11. Advance Payments

Applicants for service who do not have an account with the Utility or whose financial responsibility is not a matter of general knowledge, may be required to make an advance payment at the time the application is signed, equal to the installation charges and one month's rate for the service provided.

The amount of the advance payment is credited to the customer's account on the first bill rendered under the contract.

12. Deposits

The Utility may, in order to safeguard its interests, require an applicant or a customer to make a suitable deposit to be held by the Utility as a guarantee of the payment of charges. The fact that a deposit has been made in no way relieves the applicant or customer from complying with the Utility's regulations as to advance payments and the prompt payment of bills on presentation. At such time as the contract is terminated or when the Utility discontinues (T) operation the amount of the deposit with interest is credited to the customer's account and any credit balance which may remain is refunded. At the option of the Utility, such a deposit with interest may be refunded or credited to the customer at any time prior to termination of the contract.

13. Interest on Deposits

- a. The Utility will compute simple interest on deposits at the rate of 7/12 percent per month (7% per year) for each full month deposits are held, except as mentioned in b., following. Such interest will be paid at the time the deposit is returned or on an annual basis if the deposit is held longer than twelve consecutive months.
- b. No interest will be paid if deposit is held less than full month increments.

14. Local Calls Billed to Other Than the Service From Which the Message Originates.

Upon request the charges for a call between two stations located within each other's local service area may be:

Billed to or collected from the called telephone (i.e., charges may be reversed), or

Billed to other than the calling or called station.

In addition to rates for base station air time and/or coast station radio-link usage, such service will be furnished at the following rates:

Rates equivalent to the minimum toll rates for operator station service, as set forth in Schedule Cal.P.U.C. No. A6.2.

15. Attachments or Connections

Customer-provided terminal equipment may be used with facilities of the Utility as set forth in Schedule Cal.P.U.C. No. A8.

Customer-provided communications systems may be connected with facilities furnished by the Utility as set forth in Schedule Cal.P.U.C. No. A8.

16. Verification/Interrupt

Verification of a busy line condition and/or interruption of a conversation in progress at the calling party's request will be provided as set forth in Schedule Cal.P.U.C. No. Rates A5.8.1.

Such attempts will be made only on calls to land line telephones.

17. Directory Listings

One primary listing is included in the directory of the principal exchange, or at the request of the customer, the primary listing may be provided in the directory of another exchange in the mobile service areas as specified in Schedule Cal.P.U.C. No. A5.9.2.

Additional listings, informational lines, and foreign listings will be furnished at rates as specified in Schedule Cal.P.U.C. No. A5.7.

18. Denial and Restoral of Service

In the event of the nonpayment of any sum due, the use of foul or profane expressions, the impersonation of another with fraudulent intent or of any other violation of the lawful regulations of the Utility or any violations of the Federal Communications Commission's Rules and Regulations applicable to these services, the Utility may either temporarily deny service, or terminate the contract.

Upon the use of the service for the purpose of performing any service in competition with the service which the Utility may now or hereafter furnish, the Utility may, by notice in writing to the customer without incurring any liability forthwith, discontinue the furnishing of said service and terminate the contract.

Additional legal requirements for refusal or discontinuance of service are set forth in Schedule Cal.P.U.C. No. A2.1.31.

5.9.2 STATEWIDE MOBILE TELEPHONE SERVICE

A. DESCRIPTION

Statewide mobile telephone service is a communication service through a base station between a telephone and a mobile telephone which uses one channel (T) switches to provide basic exchange service. (T)

B. REGULATIONS

1. Statewide mobile telephone service includes service through a base station between a telephone and a fixed radiotelephone, located in the normal range of the base station, which is authorized by the Federal Communications Commission to communicate through that base station. (T)

(D)

In the application of regulations and charges, fixed radiotelephone stations as described herein, are considered as mobile telephones.

2. Mobile service areas of base stations consist of the principal exchanges listed below and any extended local service area of the principal exchange as specified in Schedule Cal.P.U.C. No. A5.1 as they now exist or as they may be revised, added to or supplemented by superseding issues:

5.9.5 SERVICE THROUGH RADIOTELEPHONE UTILITIES

A. REGULATIONS

1. The Utility's portion of service between mobile stations of a Radiotelephone Utility and stations outside the local service area of the Utility's serving exchange is furnished from the point of connection at rates and regulations set forth in Schedules Cal.P.U.C. Nos. A5.2 and A6.2.
2. Additional charges, which the Radiotelephone Utility bills to and collects from its customers, are applicable to its portion of the interconnected service, as set forth in the radiotelephone Utility's tariff filed with the Public Utilities Commission of the State of California.
3. Verification of a busy line condition and/or interruption of a conversation in progress at the calling party's request will be provided as set forth in Schedule Cal.P.U.C. No A5.8.1.

B. APPLICABILITY

Applicable to service through Radiotelephone Utilities furnished or made available by Pacific Bell, within the territory served, by connection with facilities of Radiotelephone Utilities.

5.11 ENHANCED SERVICE PROVIDER SERVICES

5.11.1 BASIC SERVICE ELEMENTS AND COMPLEMENTARY NETWORK SERVICES

A. DESCRIPTION

The Utility has developed network capabilities known as Basic Service Elements (BSEs) and Complementary Network Services (CNSs) and provides them to the Utility's customer who can be any person, including an Enhanced Service Provider (ESP), or a Competitive Local Carrier (CLC), who will use these capabilities to provide its own service offerings. Certain CNSs have the option of allowing the Utility's Customer to order and be billed for the services on behalf of their Customer, who may be either an ESP or End User.

(T)

The Utility will accept orders for CNSs on resold access lines from the CLC. The Utility will bill the CLC for these services. An ESP can order the CNSs from the Utility on a resold access line when the CLC has authorized the ESP to order and be billed for the CNSs.

The Utility will also bill ESPs and anyone else ordering BSEs and CNSs described herein, the applicable tariff rates and or charges.

When the Utility's or CLC Reseller's end user subscriber changes local service providers, the customer authorizes the Utility to disconnect any service provided under this Section at the time of disconnection of the access line on which the service is provided.

1. Complementary Network Services

a. Call Forwarding Busy Line

(T)

This product provides the customer the ability to order and be billed for Call Forwarding Busy Line. The customer will be responsible for the payment of all provisioning and monthly recurring CNS charges associated with this service. Call Forwarding Busy Line provides the ability for the customer to have incoming calls redirected to the pre-selected customer's number. This would happen only when the incoming call encounters an end user station that is busy.

b. Call Forwarding Don't Answer

(T)

This product provides the customer the ability to order and be billed for Call Forwarding Don't Answer. The customer will be responsible for the payment of all provisioning and monthly recurring CNS charges associated with this service. Call Forwarding Don't Answer provides the ability for the customer to have its customer's incoming calls (to their home or business) redirected to the pre-selected customer number. This would happen only when the incoming call encountered an end user station that did not answer after a specific number of rings (which must be specified upon ordering).

c. Call Forwarding Busy Line/Don't Answer

(T)

This product provides the customer the ability to order and be billed for Call Forwarding Busy Line/Don't Answer. The customer will be responsible for the payment of all provisioning and monthly recurring CNS charges associated with this service. Call Forwarding Busy Line/Don't Answer provides the ability for the Customer to have incoming calls (to a home or business) redirected to the pre-selected number. This would happen in either the busy or don't answer mode.

d. Message Waiting Indicator

(T)

This product provides the customer the ability to order and be billed for Message Waiting Indicator. The customer must have Forwarded Call Information and Activate Message Waiting Indicator, Forwarded Call Information - Multiple Users or Network Forwarded Call Information provisioned on its lines in order to activate Message Waiting Indicator. The customer will be responsible for the payment of all CNS charges associated with this service. Message Waiting Indicator provides an alerting signal and an indicator lamp (on appropriately equipped customer provided equipment) in the form of an audible stutter dial tone and a message light on the line(s). This alerting signal and message light informs the End Users that information is waiting for them.

(N)

(N)

(T)

2. Basic Service Elements

a. Activate Message Waiting Indicator

(T)

This product provides the ability for a customer to activate and deactivate message waiting signals (audible stutter dial tone) on each of an end user's telephone lines that are served out of the same switch and who have Message Waiting Indicator. This alerting signal will inform the End User that information is waiting. Lines must have Message Waiting Indicator provisioned on their line. A Special Access Voice Grade (VG36) channel is required between the ESP and the Utility's central office in order to meet the data communications requirements in providing Activate Message Waiting Indicator to the end user¹.

(T)

NOTE 1: The Special Access Voice Grade Channel description, regulations and rates, are as set forth in Schedule Cal.P.U.C. No. 175-T, Section 7.5.3, (A) (B).

b. Forwarded Call Information - Multiple Users

(T)

This product provides the delivery of information on the calling number (within the same closed user group), called number, reason-for-forwarding of calls forwarded or placed to the ESP and identifies the multi-line hunt group assigned to the ESP end user, i.e., the multiple users capability.² The reason for forwarding information may include when a line is:

(T)

- busy;
- not answered;
- either busy or not answered; or
- used to call the ESP directly.

(T)

(T)

Forwarded Call Information - Multiple Users also includes the ability to activate and deactivate message waiting signals (audible stutter dial tone or indicator lamp on appropriately equipped customer provided equipment) on each of its end user's telephone line(s) who has Message Waiting Indicator. This alerting signal will be used by the ESP to inform its end user that information is waiting. The ESP end user lines must be provisioned to receive the signal and have Message Waiting Indicator provisioned with its line. A Special Access Voice Grade (VG36) channel is required between the ESP and the Utility's central office in order to meet the data communications requirements in providing Forwarded Call Information - Multiple Users to the end user¹.

(D)

NOTE 1: The Special Access Voice Grade Channel description, regulations and rates, are as set forth in Schedule Cal.P.U.C. No. 175-T, Section 7.5.3, (A) (B).

NOTE 2: Numbers will be provided in either seven (7) or ten (10) digit format. The customer must specify the number of digits.

4. Optional Features

Automatic Dial Back-Up

Automatic Dial Back-Up is an optional feature available to Forwarded Call Information - Multiple Users subscribers. It provides back-up capability to a Type 3002 data channel equipped with a compatible modem. When the modem detects a failure in the 3002 channel, the Automatic Dial Back-Up capability will automatically complete calls over the public switched network by utilizing two (2) Individual Line Measured Rate Business Service (1MB) (one located in the central office and one located on the customer premises) at rates and charges as set forth in Schedule Cal.P.U.C. Nos. A3. and A5. Calls are subject to the appropriate charges for local and toll messages.

(T)

The customer is responsible for providing compatible premises equipment in order to utilize the Automatic Dial Back-Up feature.

NOTE 1: The Hunting Service description, regulations and rates are as set forth in Schedule Cal.P.U.C. Nos. A5.1.4, A5.2.1 and A9.1.6.

5. Definitions

(T)

COMPETITIVE LOCAL CARRIER

A Competitive Local Carrier is a Local Service Provider that has been issued a certificate of Public Convenience and Necessity (CPCN) and received tariff authority to provide local exchange telecommunications service for a geographic area specified by such carrier.

CUSTOMER

The term "Customer(s)" denotes any individual, partnership, association, joint-stock company, trust corporation, or governmental entity or any other entity which subscribes to the services offered under this tariff.

END USER

The term "End User" denotes any customer that purchases intrastate telecommunications for its own use and not for the purposes of resale or sharing, and is not a carrier, except that a carrier shall be deemed to be an "end user" to the extent that such carrier uses a telecommunications service for administrative purposes, without making such service available to others, directly or indirectly.

ENHANCED SERVICE PROVIDER

An Enhanced Service Provider (ESP) is a customer who, in accordance with applicable regulatory requirements, claims the status of an ESP and who provides an enhanced service under Section 64.702 of the FCC's Rules.

NETWORK CAPABILITY

Network Capability is a technically defined requirement to be performed in the Utility's network for a customer.

b. Customer Facilities

(T)

- (1) Because of the Utility's capacity in central office equipment and network facilities to furnish Basic Service Elements and Complementary Network Services is limited:

If the Utility has reason to believe that permitting the commencement or continuation of providing BSEs and CNSs in this tariff schedule is adversely affecting or would adversely affect the Utility's ability to provide, complete or maintain the level of or quality of its other services to its exchange telephone customers, the Utility may refuse to provide BSEs or may discontinue providing such service.

- (2) Late payment charges as defined in Schedule Cal.P.U.C. No. A2.1.9.D., Rule 9 will apply to all customer services

(T)

- (3) Basic Service Elements and Complementary Network Services will not be provided in connection with Semipublic Service.

- (4) The quality of transmission of calls which are forwarded may vary depending on the distance and the routing necessary to complete each call and normal transmission is not guaranteed on any forwarded call.

- (5) Charges between the originating location and the call forwarding equipped line are applicable in accordance with regularly filed tariffs, local message units, zone calling units, dial station, operator station or person toll.

2. Customer Obligations

5.11.2 ANSWER SUPERVISION

A. DESCRIPTION

1. Answer Supervision

Answer Supervision gives the subscriber a signal, delivered on the line for confirmation that the called party has answered the call by going "off hook." This signal can be used by the terminal equipment connected (T) to the calling party's line to determine that the call has entered the talking state and that charging may commence.

Answer Supervision is a provisional tariff and will be subject to modifications or terminate only upon explicit approval from the CPUC and notification to all affected parties.

B. TERRITORY

5.11.4 FORWARDED CALL INFORMATION - NON-CENTREX¹

A. DESCRIPTION

1. Forwarded Call Information - Non-Centrex (T)

Forwarded Call Information - Non-Centrex (FCI-nCTX) is a network feature (T)
available to multi-line subscribers who have their lines equipped in a
multi-line hunt group (MLHG).² Rates, charges and regulations apply as
shown in C. following. (T)

FCI-nCTX provides delivery of signaling information for calls (T)
forwarded to the associated MLHG (within the same closed user group³), (T)
and for direct calls to the MLHG, from telephone lines served by the
same central office switch as the MLHG/FCI-nCTX.

This signaling information is rendered in data format and received at a (T)
customer provided equipment data modem via a Special Access Voice Grade
channel.⁴

The data format includes:⁵

- Called station number
- Originating station(s) number for intra-system calls³
- Code for type of Call Forwarding feature used
- Indication of line call was forwarded to

FCI-nCTX includes the ability to activate and deactivate message
waiting signals (audible stutter dial tone) on each end user's (D)
telephone line(s) who has Message Waiting Indicator. This alerting
signal will be used to inform end users that information is waiting. (D)
The end user lines must be provisioned to receive the signal and have
Message Waiting Indicator provisioned with its line.

Forwarded Call Information - Non-Centrex is a provisional tariff and (T)
will be subject to modifications or terminate only upon explicit
approval from the CPUC and notification to all affected parties.

NOTE 1: Not technically available per Decision No. 90-11-076.

NOTE 2: The Hunting Service description, regulations and rates are as set
forth in Schedule Cal.P.U.C. Nos. A2.1.1, Rule No. 1, A5.1.4
and A5.2.1. (D)

NOTE 3: Display or recording, in any manner whatsoever, of calling party
information originating outside a closed user group is prohibited.

NOTE 4: The Special Access Voice Grade Channel description, regulations and
rates are set forth in Schedule Cal.P.U.C. No. 175-T, (D)
Section 7.5.3, (A) (B).

NOTE 5: Numbers will be provided in either seven (7) or ten (10) digit
format. The customer must specify the number of digits. (L)

5.11.5 NETWORK FORWARDED CALL INFORMATION (NFCI)

A. DESCRIPTION

Network Forwarded Call Information (NFCI) is an enhanced Basic Service Element (BSE) service that provides customers with the ability to provide enhanced services to their end users in multiple switches within a LATA through a single NFCI link connected to a designated "hub" central office switch of the Utility, where technically feasible. The customer may request a specific central office to serve as the hub switch, but the Utility retains final authority in choosing the hub for each NFCI link.

NFCI delivers originating call history data¹ to the customer's equipment and also includes the ability to activate and deactivate Message Waiting Indicator (MWI) On/Off signals on the end user's line. Call history data is delivered to the customer's equipment via a multi-line hunt group² (MLHG) when calls are forwarded from the end user's line. Call history data includes the calling party number (if not blocked), the called party number (end user's number when the call is forwarded), the reason the call was forwarded (busy or unanswered line) or if the end user called directly to the customer and the MLHG to which the call was either forwarded or dialed directly. When the end user calls directly to the customer's MLHG, the calling party number will be passed to the customer unless the end user's line is blocked. MWI On/Off signals may result in either an intermittent dialtone and/or activation of a lamp or text message on the end user's line or telephone equipment.

NFCI requires a Special Access Voice Grade channel³ between the customer's equipment and the hub switch, a compatible modem at the customer's premises and a multi-line hunt group terminating on the Customer's equipment.

NOTE 1: Numbers will be provided in ten (10) digit format.

NOTE 2: See A5.11.1, A.3. preceding.

NOTE 3: The Special Access Voice Grade Channel description, regulations and rates are set forth in Schedule Cal.P.U.C. No. 175-T, Section 7.5.3, (A) (B).

A. DESCRIPTION (Cont'd)

Alternate Network Delivery

NFCI also includes the optional Alternate Network Delivery (AND) feature. AND provides the capability for the customer to direct its Message Waiting Indicator (MWI) On/Off signals toward the customer's Common Channel Signaling System 7 (CCSS7) equipped alternate network service provider. The alternate network service provider's equipment may or may not be within the same LATA. The customer's alternate network service provider must provide service capability to receive and complete MWI delivery. The customer is responsible for any and all charges that the Utility may incur from the customer's alternate network service provider for receiving MWI messages from the Utility.

Customers subscribing to the AND feature must provide the Utility with information specifying:

1. The single pre-defined point code of the alternate network service provider's Signal Transfer Point (STP) to which MWI signals will be routed.
2. A list of all the end user stations' NPA-NXXs receiving MWI signals.

B. AVAILABILITY

1. NFCI is available where technically feasible and facilities/operating conditions permit.
2. NFCI is available to compatible and suitably equipped Centrex and non-Centrex customers.

4. California Grand Opening III

A new statewide promotion for Business Access Lines. Eligible customers are new business customers who are not transferring service from another Local Exchange Carrier, existing business customers who are moving from one location to another within the Utility's service areas, and existing business customers who have received a competitive offer from a competitive local exchange carrier operating within the Utility's territory ("Retention Customers") and sign a 12 month minimum term agreement to any of the following packages:

- Custom BizSaver (Schedule Cal.P.U.C. No. A5.15)
- SimpleLinkSM (Schedule Cal.P.U.C. No. A6.5.1),
- SimpleLinkSM Enhanced (Schedule Cal.P.U.C. No. A6.5.2), or
- CompleteLink[®] 2.0 (Schedule Cal.P.U.C. No. A6.5.16)

During the promotional period, the nonrecurring Service Ordering and Line Connection charges associated with local exchange access lines or trunks after the first line purchased, up to 15 lines per location, will be credited to the customer during the fourth month of service. The customer will also receive a waiver of the applicable nonrecurring installation charges associated with any Custom Calling features or Hunting installed on the associated access lines or trunks ordered at the time of initial subscription.

This offer is only available at the time the initial order is placed for new or moving service and is not available for subsequent orders placed for additional lines, trunks, or other services. The customer must agree to subscribe all qualifying lines and trunks at each location.

This offer cannot be combined with any other promotional offers waiving nonrecurring charges for local exchange business access lines unless specified otherwise.

This promotion is offered from November 1, 2007 through March 31, 2008 (C)
and is available for resale.

6. Extra Line Promotion

(T)

A new statewide promotion is available to eligible existing business customers who add additional lines to their account.

(N)

During the promotion period eligible business customers will receive a one-time \$50 bill credit for subscribing to a qualifying term plan. Eligible customers are existing business customers who purchase new additional lines and subscribe those lines to a qualifying voice term plan. Qualifying voice term plans are Custom BizSaver® and SimpleLinkSM Enhanced. Customers currently not on a qualifying term plan must subscribe to one during the promotion period and add new additional lines in order to receive the credit for those new lines. Customers who are currently on a qualifying term plan must establish a new agreement for the qualifying term plan during the promotion period to receive credit for any new additional lines.

All other terms and conditions applicable to Custom BizSaver® and SimpleLinkSM Enhanced will apply, as appropriate. This offer can not be combined with the Save the Deal, Save The Deal 2008, or Encore Bonus promotions.

This promotion is available from October 15, 2008 through December 31, 2008 and is not available for resale.

16. AT&T Moves You!

(T)

A new promotion available to eligible business customers who subscribe to either a new Custom BizSaver, SimpleLinksm, SimpleLinksm Enhanced, or CompleteLinksm 2.0 agreement. The customer will receive a waiver of the normally applicable nonrecurring service ordering and line connection charges associated with local exchange access lines and/or trunks, for up to 15 lines/trunks maximum per location in their initial order excluding their first line/trunk, when subscribing to the above named services. In addition, customers will receive a waiver of applicable non recurring charges associated with Custom Calling Features and Hunting for up to 15 lines maximum per location in their initial order when subscribing to the above named services.

(N)

- Eligible customers include existing business customers that are moving from one location to another within the Utility's local exchange service area. Eligible customers must indicate whether they are considering other competitive offers in order to receive this offer. The competitive offer requirement is not applicable for customers subscribing to this offer on-line via a Utility-authorized website (i.e., att.com/bizstartup).
- Eligible customers must agree to subscribe all their lines and trunks to one of the eligible term agreements named above in order to receive this benefit. This offer is only applicable at the time of placing the initial order for the moved business and is not available for subsequent orders placed for additional lines or services.
- All other terms and conditions applicable to either Custom BizSaver, SimpleLink, SimpleLink Enhanced, or CompleteLink 2.0, as appropriate, will apply. This offer cannot be combined with any other promotional offers waiving nonrecurring charges for local exchange access lines.

16. Save The Deal 2008

(T)

Save The Deal 2008 is a statewide promotion for Business Access Lines (Schedule Cal.P.U.C. No. A5.2.1) for customers who renew or subscribe to any of the following qualifying voice packages:

(N)

- Custom BizSaver (Schedule Cal.P.U.C. No. A5.15)
- SimpleLinkSM Enhanced (Schedule Cal.P.U.C. No. A6.5.2) or
- CompleteLink[®] 2.0 (Schedule Cal.P.U.C. No. A6.5.16)

Eligible business customers who renew or subscribe for a minimum of one (1) year to any of the qualifying voice packages: Custom BizSaver, SimpleLinkSM Enhanced, or CompleteLink[®] 2.0, will receive a monthly credit of \$3.00 per eligible primary access line for 12 months (for a total of \$36.00) and a credit of \$6.00 per eligible additional line for 12 months (for a total of \$72.00), on up to a maximum of 15 lines (not to exceed \$1044.00 total per customer).

All lines must be associated with one of the eligible term plans. Eligible customers are existing customers who are not on a voice package term plan or who have less than six (6) months remaining on their voice package term and who, after calling to disconnect their lines agree to keep them. The customer must agree to associate all their lines with one of the eligible voice packages to receive the credit.

Credit will be applied only to the lines intended for disconnection and the customer must subscribe/re-term during the promotional period. All other terms and conditions applicable to Custom BizSaver, SimpleLinkSM Enhanced, or CompleteLink[®] 2.0 will apply. The credit will be applied beginning the first month through the twelfth month of the new term. This promotion is available only once to the customer during the promotional period and is not available to customers who subscribed to Save the Deal promotion.

This promotion cannot be combined with any other promotional offers for Access Lines including Win or Winback offers.

This promotion is offered from October 15, 2008 through August 31, 2009 and is available for resale.

18. CompleteLinksm MARC Credit II Promotion

(T)

A new statewide promotion for CompleteLinksm, as described in Schedule Cal.P.U.C. No. A6.5.16,A. available to new business customers ("New Customers"), business customers who have discontinued their service with the Utility for the purpose of establishing service with a Competitive Local Exchange Carrier operating within the Utility's territory and who now wish to return to the Utility ("Winback Customers"), and business customers who have received a written competitive offer/proposal (i.e., a competitive proposal on a competitor's legitimate letterhead) dated within the past three months and are considering discontinuing their business with the Utility for the purpose of establishing service with another Competitive Local Exchange Carrier operating within the Utility's territory but choose to remain with the Utility ("Save Customers"). During the promotion period, eligible customers subscribing to CompleteLinksm for a 1, 2, 3, or 5 year term agreement will receive a one-time credit based on the customer's minimum annual revenue commitment ("MARC") level as follows:

(N)

Term Length	New Customer and Winback Customer Credit	Save Customer Credit
1 year	5%	2%
2 years	20%	3%
3 years	25%	4%
5 years	30%	5%

Example: A Winback Customer who commits to a \$7,000.00 MARC level with a 3-year term agreement will receive a one-time credit of \$1,750.00, which is 25% of \$7,000.00.

The credit will post to the customer's account within two billing cycles after the agreement has been approved and entered into the billing system.

If the customer terminates the CompleteLinksm agreement prior to the term expiration date, the customer will be liable for all applicable CompleteLinksm early termination fees, as described in Schedule Cal.P.U.C. No. A6.5.16,D. However, the customer will not be required to return the credit received pursuant to this promotion.

Any business customer who signs a CompleteLink Basic agreement and also agrees to commit 10% of their Minimum Annual Revenue Commitment level (MARC) listed below to a Minimum Annual Toll Usage Commitment (MATUC) sub commitment will receive special rates for CompleteLink Basic Services listed below. The customer must agree to have the Utility be designated at its Local Primary Interexchange Carrier (LPIC). The total toll spending will be included in the calculation of the MARC. Custom 8, IntraLATA toll, non-operator assisted Calling card and ZUM3 usage will be included in the MATUC sub-commitment calculation.

		Toll	Custom 8	ZUM3
<u>MARC</u>⁽¹⁾	<u>MATUC</u>⁽²⁾	<u>Rate</u>	<u>Rate</u>	<u>Rate</u>

(1) Minimum Annual Revenue Commitment	(2) Minimum Annual Toll Usage Commitment			

Under-utilization charges will be billed for customers not meeting the MATUC and MARC commitments. The charge will be equal to the difference between the commitment and the actual charges. Example: Customer signs a CompleteLink Basic \$5,000 MARC with a \$500 MATUC commitment. Customers actual spending at the end of year 1 for toll \$450 and \$4,750 for all other services including toll spending. The Under-Utilization charge for the MATUC would be equal to \$500-\$450=\$50 and for the MARC \$5,000-\$4,750=\$250-\$50=\$200. The MATUC under-utilization charge will be included in the MARC under-utilization calculation.

117. Unlimited \$30

(T)

A new statewide promotion for Individual Line Measured Rate Business Service ("Individual Service"), as described in Schedule Cal.P.U.C. No. A5.2.1 and Zone Usage Measurement ("ZUM") Measurement Areas 1, 2, and 3, as described in Schedule Cal.P.U.C. No. A5.1.1, (collectively, the "Promoted Services") available to business customers who (1) are existing customers who wish to add additional lines to their service and/or convert existing lines to service under this promotion ("Existing Customers"), (2) have disconnected their service with the Utility for the purpose of establishing service with a Competitive Local Exchange Carrier operating within the Utility's territory and who now wish to return to the Utility ("Winback Customers"), and (3) have established service with a Competitive Local Exchange Carrier operating within the Utility's territory and who now wish to establish their service with the Utility ("Win Customers"). During the promotion period, eligible customers that verbally commit to spend a minimum of \$30.00 per line per month for the next 12 months on the Promoted Services for all lines within the billing telephone number ("BTN") associated with lines taken under this promotion, will receive unlimited local calling for ZUM Measurement Zones 1, 2, and 3 for the next 12 months.

(N)

If at any time during the 12 month period, the spending for the Promoted Services is below \$30.00 per line, a charge for the difference between \$30.00 and the actual spent amount will be applied on the following bill. If at any time during the 12 month period, the spending for the Promoted Services is above \$30.00 per line, a credit for the difference between \$30.00 and the actual spent amount will be applied to the following bill. If the account is disconnected before the end of the 12 month period, a termination charge of \$15.00 per line for each remaining month will be applied to the customer's account. This promotion is restricted to a maximum of 30 lines per BTN.

This promotion may be combined with the Bargain Hunting Promotion and the California NRC Waiver with \$20 Minimum promotion. This promotion may be combined with the Two-Line Solution Discount (Business Solutions) and the 1-Line Solution Discount (Business Solutions). This promotion may not be combined with service and/or promotions on CompleteLinkSM or SimpleLinkSM.

This promotion is offered from March 28, 2005 for a maximum of 120 days and is available for resale.

121. Primary Rate ISDN (PRI) Promotion 1200

(N)

A retail promotional period shall be established from January 1, 2008 through December 31, 2008. During this promotional period eligible business customers who order PRI service with a digital transport facility under a 3 Year Term Payment Plan (TPP) as provided under appropriate Schedule Cal.P.U.C. Nos. 175-T, or FCC1 (see Schedule Cal.P.U.C. No. 18.2.5,A.), will receive a \$1200.00 discount per PRI, off the standard rates for the service as described in Schedule Cal.P.U.C. No. A18. The discount will be applied as a recurring monthly credit on the customer's PRI bill, of \$100.00 per month during the first twelve (12) months of the new 3 Year DS1 TPP. Eligible customers may only subscribe to a 3 Year DS1 TPP in conjunction with this offer.

Eligible customers include:

- new or existing business customers who order new PRI service with a 3 Year DS1 TPP,
- existing business customers who convert existing ISDN PRI service with a DS1 digital transport facility under a Month-to-Month payment plan to a DS1 digital transport facility under a 36-Month TPP, and
- existing business customers who upgrade existing ISDN PRI service with a DS1 digital transport facility under a 1 or 2 Year TPP to a DS1 digital transport facility under a 36-Month TPP, which has an expiration date that is beyond the end of the current TPP agreement (see Schedule Cal.P.U.C. No. 175-T, Section 7.4.10, (A) (2) (a)).

(T)

A new statewide promotion is available to eligible existing business customers who subscribe to a new qualifying voice term plan.

(N)

During the promotion period eligible business customers will receive a one-time \$50 bill credit for subscribing to a qualifying term plan.

Eligible customers are existing business customers with 120 days or less remaining on their current local voice term plan who subscribe to a new qualifying local voice term plan prior to their current term expiration date. Qualifying local voice term plans are Custom BizSaver® and SimpleLinkSM Enhanced. The one-time bill credit will be applied within 2 bill cycles.

All other terms and conditions applicable to Custom BizSaver® and SimpleLinkSM Enhanced will apply, as appropriate. This offer can not be combined with the Save the Deal, Save The Deal 2008, or Welcoming Rewards promotions. This offer may be combined with the Extra Line Enhanced Promotion and Custom BizSaver® geographically-specific offers, denoted in A5.15, C.1.d and C.3.c., following.

27. AT&T Moves You Promotion - 2009

(T)

A new promotion is available to eligible business customers who subscribe to either a new Custom BizSaver, SimpleLink_{sm}, or SimpleLink_{sm} Enhanced agreement. The customer will receive a waiver of the normally applicable nonrecurring service ordering and line connection charges associated with local exchange access lines and/or trunks, for up to 15 lines/trunks maximum per location in their initial order excluding their first line/trunk, when subscribing to the above named services. In addition, customers will receive a waiver of applicable nonrecurring charges associated with Custom Calling Features and Hunting for up to 15 lines maximum per location in their initial order when subscribing to the above named services.

(N)

- Eligible customers include existing business customers that are moving from one location to another within the Company's local exchange service area. Eligible customers must indicate whether they are considering other competitive offers in order to receive this offer. The competitive offer requirement is not applicable for customers subscribing to this offer on-line via a Company-authorized website (i.e., att.com/bizstartup).
- Eligible customers must agree to subscribe all their lines and trunks to one of the eligible term agreements named above in order to receive this benefit. This offer is only applicable at the time of placing the initial order for the moved business service and is not available for subsequent orders placed for additional lines or services.

All other terms and conditions applicable to either Custom BizSaver, SimpleLink, or SimpleLink Enhanced, as appropriate, will apply.

Business customers currently subscribed to other carriers who wish to transfer their service to AT&T are not eligible for this offer. This offer cannot be combined with any other promotional offers waiving nonrecurring charges for local exchange access lines.

This offer is offered from April 1, 2009 through December 31, 2009 and is available for resale.

29. Welcoming Rewards Promotion - 2009

A statewide promotion is established for eligible business customers (N)
subscribing to new business local exchange access lines, trunks or
Centrex service. Eligible customers will receive a one-time credit based
on the number of new lines ordered. The first line will receive a credit
of \$50.00. Lines 2 through 20 will receive a credit of \$25.00 per line.
The lines must be at the same location and only the first 20 lines will
qualify for the credit. This promotion may be combined with the Centrex
Nonrecurring Charges (NRC) Waiver. One time credit(s) will be provided
within the first two bill cycles. In addition, the applicable non-
recurring charges (NRCs) associated with the installation of local
exchange access lines, Centrex lines or trunks and Custom Calling
Services, up to 20 lines maximum per location, will be waived for the
initial order only. The Centrex Service Establishment Charge will also
be waived for Centrex service with terms of 24 months or greater.

Eligible customers include 1) new businesses, 2) businesses currently
with another carrier and who now establish service with the Company, or
3) existing businesses adding a new location and who may participate at
the new location only. Eligible customers must subscribe to new business
local exchange access lines, trunks or Centrex service and select one of
the following specified term plans: Custom BizSaver or Centrex service
with a 24-month or longer term with a minimum of two basic or electronic
key lines. Customers must also commit to a verbal one-year Welcoming
Rewards Promotional Agreement in order to receive the benefits.

Terms and conditions for Custom BizSaver (Schedule Cal.P.U.C. No. A5.15)
and Centrex (Schedule Cal.P.U.C.No. D10) services, apply. The commitment
to one of the specified term plans is in addition to the verbal one-year
Welcoming Rewards Promotional Agreement commitment. This promotion is
only applicable when placing the initial order and is not available for
subsequent orders placed for additional lines or services.

Customers who disconnect their account prior to completion of the verbal
one year Welcoming Rewards Promotional Agreement will be billed for all
upfront Welcoming Rewards promotional credits provided as described
above, in addition to other charges that may be associated with a
subscription to a qualifying term plan. Centrex early termination
charges will also apply for the Centrex service if the customer
disconnects the Centrex service prior to the expiration of the Centrex
service contract. (N)

37. Save The Deal

(T)

A statewide promotion for Business Access Lines for customers who renew or subscribe to any of the following qualifying voice packages:

(N)

- Custom BizSaver
- SimpleLinkSM Enhanced, or
- CompleteLink[®] 2.0

Eligible business customers who renew or subscribe for a minimum of one (1) year to any of the qualifying voice packages: Custom BizSaver (Schedule Cal.P.U.C. No. A5.15), SimpleLinkSM Enhanced (Schedule Cal.P.U.C. No. A6.5.2) or CompleteLink[®] 2.0 (Schedule Cal.P.U.C. No. A6.5.16), will receive a credit of \$40.00 per eligible access line up to a maximum of 25 lines (maximum of \$1,000.00 per customer). Eligible customers are existing customers who are not on a voice package term plan or who have less than six (6) months remaining on their voice package term and who call in to disconnect their lines. The customer must agree to associate all their lines with one of the eligible voice packages to receive the credit. Credit will be applied only to the lines intended for disconnection and the customer must subscribe/re-term during the promotional period. The credit will be applied beginning the first month through the twelfth month of the new term. This promotion is available only once to the customer during the promotional period.

This promotion cannot be combined with any other promotional offers for Access Lines including Win or Winback offers that discount the monthly recurring charge.

This promotion is offered from August 1, 2006 through March 28, 2007 and is available for resale.

45a. The Big Easier Promotion

(T)

A new statewide promotion for Business Access Lines, Caller ID and The Big Easy (Schedule Cal.P.U.C. No. A6.5.19) for existing business customers.

(N)

Eligible business customers subscribing to the package promotion will be charged \$33.00 per package per month. To qualify for this promotion, an existing business customer must spend a monthly minimum average of \$750,000.00 in AT&T local voice services to be eligible for this promotion. Services contributing to the monthly minimum include all of the Utility's regulated services and the customer may include services provided in other AT&T regions where AT&T provides local exchange service.

The customer must include all business access lines at existing or new locations added during the term required by this promotion, and must not exceed a maximum subscription of 40 business lines at each location. Customers will be required to sign a three (3) year term agreement. During the term agreement, customers may add additional lines, accounts and locations. Additions to the agreement will expire at the end of the original term agreement. The nonrecurring charges will be waived for all new installations.

If the customer does not spend a minimum monthly average of \$750,000.00 for the initial twelve (12) months, the customer will revert to individual tariff rates beginning the thirteenth (13th) month. Customers who terminate their agreement prior to the end of the signed three (3) year agreement will be charged an Early Termination Fee (ETF) equal to fifty percent (50%) of the per package recurring charge of \$33.00 on the remainder of the term period.

This promotion cannot be combined with any other promotion, term agreement or GO-96A contract that discounts the access line and/or local usage.

This promotion is available from August 15, 2006 through November 30, 2006 and is available for resale.

53. CompleteLink Basic with MATUC

Any business customer who signs a CompleteLink Basic agreement and also agrees to commit 10% of their Minimum Annual Revenue Commitment level (MARC) listed below to a Minimum Annual Toll Usage Commitment (MATUC) sub-commitment will receive special rates for CompleteLink Basic Services listed below. The customer must agree to have the Utility be designated as its Local Primary Interexchange Carrier (LPIC). The total toll spending will be included in the calculation of the MARC. Custom 8, IntraLATA toll, non-operator assisted Calling card and ZUM3 usage will be included in the MATUC sub-commitment calculation.

		Toll	Custom 8	ZUM3
<u>MARC</u>⁽¹⁾	<u>MATUC</u>⁽²⁾	<u>Rate</u>	<u>Rate</u>	<u>Rate</u>
\$5,000	\$500	\$.047 per min.	\$.047 per min.	\$.030 Per min
\$10,000	\$1,000	\$.046 per min.	\$.046 per min.	\$.030 Per min
\$15,000	\$1,500	\$.045 per min.	\$.045 per min.	\$.029 Per min
\$25,000	\$2,500	\$.044 per min.	\$.044 per min.	\$.029 Per min
\$35,000	\$3,500	\$.043 per min.	\$.043 per min.	\$.028 Per min
\$50,000	\$5,000	\$.042 per min.	\$.042 per min.	\$.028 Per min
\$75,000	\$7,500	\$.041 per min.	\$.041 per min.	\$.027 Per min
\$100,000	\$10,000	\$.039 per min.	\$.039 per min.	\$.027 Per min
(1) Minimum Annual Revenue Commitment	(2) Minimum Annual Toll Usage Commitment			

Under-utilization charges will be billed for customers not meeting the MATUC and MARC commitments. The charge will be equal to the difference between the commitment and the actual charges. Example: Customer signs a CompleteLink Basic \$5,000 MARC with a \$500 MATUC commitment. Customers actual spending at the end of year 1 for toll is \$450 and \$4,750 for all other services including toll spending. The Under-Utilization charge for the MATUC would be equal to $500 - 450 = \$50$ and for the MARC $5,000 - \$4,750 = \$250 - \$50 = \$200$. The MATUC under-utilization charge will be included in the MARC under-utilization calculation.

This promotion may be combined with the CompleteLink Basic Fast Start promotion.

This promotion is available from April 29, 2001 through August 26, 2002 for a total of 120 days and is available for resale.

This promotion is extended from August 27, 2002 through December 24, 2002 for a total of 120 days for a grand total of 240 days and is available for resale.

54. CompleteLinksm Basic Fast Start

A new statewide promotion for CompleteLinksm Basic available to business customers. To qualify, any business customer returning from a Competitive Local Exchange Carrier in Pacific Bell's service area or an existing Pacific Bell business customer who contacts Pacific Bell to disconnect their business service, agrees to remain with Pacific Bell, and agrees to a written 24-month term agreement for CompleteLinksm Basic service will receive a one-time credit equal to 1/12th of the customer's selected Minimum Annual Revenue Commitment (MARC). Example: a customer who commits to a \$5000 MARC will receive a one-time credit of 1/12th of that MARC or \$416.67 (\$5,000/12 months). The customer must meet all other applicable regulations and requirements of CompleteLinksm Basic Service.

This promotion may be combined with the CompleteLinksm Basic with MATUC promotion and any current promotion for business access lines or Centrex service. Early termination of the CompleteLinksm Basic service taken under this promotion will result in the customer being charged all benefits received under this promotion along with the early termination fees described in the CompleteLinksm Basic tariff. This promotion is offered from April 29, 2002 through August 26, 2002 for a total of 120 days and is available for resale.

This promotion is extended from August 27, 2002 through December 24, 2002 for a total of 120 days for a grand total of 240 days and is available for resale.

56. CompleteLinkSM NRC Waiver

(T)

A new statewide promotion for Individual Line Measured Rates Business Service ("Individual Service"), as described in Schedule Cal.P.U.C. No. A5.2.1 and CompleteLinkSM service, as described in Schedule Cal.P.U.C. No. A6.5.16,A., available to business customers who (1) have discontinued their service with the Utility for the purpose of establishing service with a Competitive Local Exchange Carrier operating within the Utility's territory and who now wish to return to the Utility ("Winback Customers") and (2) have established service with a Competitive Local Exchange Carrier operating within the Utility's territory and who now wish to establish their service with the Utility ("Win Customers"). During the promotion period, eligible customers that newly subscribe to Individual Service and CompleteLinkSM service and verbally commit to a 12 month term, will receive a waiver of the nonrecurring Service Charge for installation of the Individual Service.

(N)

If the customer terminates the CompleteLinkSM agreement prior to the term expiration date, the customer will be liable for all applicable CompleteLinkSM early termination fees, as described in Schedule Cal.P.U.C. No. A6.5.16,D. However, the customer will not be required to return the waived nonrecurring Service Charge for installation of the Individual Service. Service taken under this promotion may not be combined with the CompleteLinkSM MARC Credit II Promotion, the California NRC Waiver with \$20 Minimum promotion, or Unlimited \$30 promotion, but may be combined with the Bargain Hunting Promotion and any other promotions that may be offered and for which the customer qualifies.

This promotion is offered from March 28, 2005 for a maximum of 120 days and is available for resale.

(T)

A statewide promotion for Access Service available to existing business customers who call to discontinue their service or who receive a competitive offer and call the Utility to switch to a competitive Local Exchange Service provider ("Save").

(N)

Eligible customers must commit to a one (1) year minimum CompleteLink™ 2.0 agreement (as described in Schedule Cal.P.U.C. No. A6.5.16) and commit 25 or more lines. Customers who commit 25 to 49 business lines will receive a bonus credit of \$35.00 per eligible business line (maximum of \$8,000 per year) and customers who commit 50 or more business lines will receive a bonus credit of \$45.00 per eligible business line (maximum of \$20,000 per year). The bonus credits will be applied equally to the customer's bill over a twelve (12) month period. During the term, disconnected business lines under the agreement will not be eligible for the bonus credit and the plan will terminate if the number of committed lines falls below the minimum required number of lines.

This promotion cannot be combined with any other promotional offers unless otherwise specified.

This promotion is offered from October 2, 2006 through June 30, 2007 and is available for resale.

59. CompleteLinksm MARC Credit II Promotion

(T)

A new statewide promotion for CompleteLinksm, as described in Schedule Cal.P.U.C. No. A6.5.16,A. available to new business customers ("New Customers"), business customers who have discontinued their service with the Utility for the purpose of establishing service with a Competitive Local Exchange Carrier operating within the Utility's territory and who now wish to return to the Utility ("Winback Customers"), and business customers who have received a written competitive offer/proposal (i.e., a competitive proposal on a competitor's legitimate letterhead) dated within the past three months and are considering discontinuing their business with the Utility for the purpose of establishing service with another Competitive Local Exchange Carrier operating within the Utility's territory but choose to remain with the Utility ("Save Customers"). During the promotion period, eligible customers subscribing to CompleteLinksm for a 1, 2, 3, or 5 year term agreement will receive a one-time credit based on the customer's minimum annual revenue commitment ("MARC") level as follows:

(N)

Term Length	New Customer and Winback Customer Credit	Save Customer Credit
1 year	5%	2%
2 years	20%	3%
3 years	25%	4%
5 years	30%	5%

Example: A Winback Customer who commits to a \$7,000.00 MARC level with a 3-year term agreement will receive a one-time credit of \$1,750.00, which is 25% of \$7,000.00.

The credit will post to the customer's account within two billing cycles after the agreement has been approved and entered into the billing system.

If the customer terminates the CompleteLinksm agreement prior to the term expiration date, the customer will be liable for all applicable CompleteLinksm early termination fees, as described in Schedule Cal.P.U.C. 60. CompleteLinkSM Bonus Credit Promotion

(T)

A new statewide promotion for CompleteLinkSM service, as described in Schedule Cal.P.U.C. No. A6.5.16, for existing business customers who have received a competitive offer from a Competitive Local Exchange Carrier within the Utility's service area for business local exchange service ("Save Customers").

(N)

During this promotional period eligible business customers who commit to a minimum threshold of lines to a new CompleteLinkSM 1-year term agreement or longer will receive either a \$40.00 or \$50.00 bonus credit per eligible access line per year.

Eligible customers who commit between 25 and 49 eligible access lines in the Utility's service area will receive a bonus credit of \$40.00 per line per year of the term plan. Eligible customers who commit a minimum of 50 eligible access lines in the Utility's service area will receive a bonus credit of \$50.00 per line per year of the term plan, up to a maximum credit of \$20,000 per year. Bonus credit level is determined by the number of lines in service when the customer calls to discuss disconnection of service. Only in-service lines the customer was considering disconnecting are eligible for this credit.

The bonus credit will be applied on a monthly basis in equal amounts for each month in a 12 month term period. The customer must agree to associate all their lines with one of the CompleteLinkSM eligible term plans to receive the credits. If, at any time during the benefit period, lines are disconnected, the credits will be discontinued for those disconnected lines. Customers receiving \$40 per line credit will need to maintain at minimum 25 access lines. Customers receiving \$50 per line credit will need to maintain at minimum 50 access lines. If, at any time during the benefit period, the customer fails to maintain their minimum line levels, the credits will be discontinued on all lines.

This offer can be applied only once per customer during this promotional period. All other terms and conditions applicable to CompleteLinkSM will apply. This offer cannot be combined with other discount plans or promotions unless such a plan or promotion specifically states that it can be combined with this promotion.

(T)

This promotion is available to Business customers with a CompleteLink® or CompleteLink® 2.0 agreement that has expired within 60 days of subscribing to this promotion or have no more than 6 months remaining on their existing CompleteLink® 2.0 agreement. Subscribing customers must have refused a previous CompleteLink® 2.0 offer.

(N)

Customers who sign a new CompleteLink® 2.0 agreement with a term of at least 24 months will receive upfront and accelerated loyalty discounts for the term of the new term agreement based on the new term length and the MARC level. The new agreement must satisfy all existing CompleteLink® conversion conditions, and all existing CompleteLink® conversion practices apply. The customer must enter into a new CompleteLink® 2.0 agreement with a term of at least 24 months.

The upfront loyalty discount is treated as an accelerated discount for early termination purposes. The customer will receive discounts based on the selected MARC and term that will be credited to customer accounts in the 1st, 13th, 25th, 37th and 49th bill periods, based on the length of the term plan. The last discount will be paid the month following the end of the customer-selected term interval.

- This offer is only available to customers with expiring CompleteLink® or CompleteLink® 2.0 agreements with no more than 6 months remaining on their existing agreement.
- The customer must have refused previous CompleteLink® 2.0 offer.
- This offer may not be combined with other Utility business access line, usage, and/or toll discount plans or promotions, where combining other CompleteLink® or CompleteLink® 2.0 offers are permitted.
- A customer with an expired CompleteLink® or CompleteLink® 2.0 agreement is also eligible if they re-subscribe within 60-days of the term agreement expiration.
- A customer must sign a new 24, 36 or 60 month CompleteLink® 2.0 agreement; 12-month term agreements are not eligible for this promotion.
- Eligible customer who establish a CompleteLink® 2.0 agreement and later upgrade to a new term length and/or MARC level, or terminate their CompleteLink® 2.0 agreement prior to its expiration date, will forego any loyalty discounts not yet received. Customers who upgrade will retain any loyalty discounts already received.

F. PROMOTIONAL SERVICES (Cont'd)

Promotional offerings shall include the following: (Cont'd)

66. CompleteLink® 2.0 Renewal Loyalty Promotion (Cont'd) (T)

Terms and Conditions (Cont'd) (N)

- g. Term Agreement conversions under the current CompleteLink® tariffs will be in accordance with the CompleteLink® tariff:

"Termination liability charges are not applicable if during the CompleteLink® 2.0 term period the customer converts to another Company Access or Usage plan with a term equal to or greater than the remaining CompleteLink® 2.0 plan, and a revenue commitment equal to or greater than the CompleteLink® 2.0 MARC."

- h. The loyalty discount is an accelerated discount. Customers who terminate the CompleteLink® 2.0 term agreement early will be applied an early termination charge for the loyalty discount. The early termination charge will be equal to 50% of the accelerated discount received and be prorated by the number of remaining months in the term agreement.

EXAMPLE 1: A customer signed a \$12,000 MARC agreement with a three year term commitment and received an accelerated discount of \$600 upfront. If the customer terminates the CompleteLink® 2.0 agreement after 12 months the customer will be liable for remitting to the Company \$200 of the accelerated discount received, calculated as follows:
 $(\$600/36 \text{ total months}) \times 24 \text{ months remaining} = \$400 \times 50\% = \$200.$

EXAMPLE 2: If the customer terminates the CompleteLink® 2.0 agreement after month 18 the customer will be liable for remitting to the Company \$300 of the accelerated discount received, calculated as follows: $[\$600 \text{ upfront} + \$600 (5\% \text{ of the } \$12,000 \text{ MARC}/3 \text{ year term for their 1 year accelerated discount}) = \$1,200]/36 \text{ total months} \times 18 \text{ months remaining} = \$600 \times 50\% = \$300.$

(N)

A new statewide promotion for CompleteLinksm available to business customers who have discontinued their service with the Utility for the purpose of establishing service with a Competitive Local Exchange Carrier operating within the Utility's territory and who now wish to return to the Utility. During the promotion period, eligible customers subscribing to CompleteLinksm for a 1, 3, or 5 year term agreement will receive a one time credit based on the customer's minimum annual commitment level as follows:

- 1-year term agreement provides a one-time credit of 6% of the customer's minimum annual commitment level.
- 3-year term agreement provides a one-time credit of 8% of the customer's minimum annual commitment level.
- 5-year term agreement provides a one-time credit of 10% of the customer's minimum annual commitment level.

If the customer terminates the CompleteLinksm agreement prior to the term expiration date, the promotional benefit will be recovered from the customer. If the customer terminates the CompleteLinksm agreement prior to the term expiration date, the customer will also be liable for all applicable CompleteLinksm early termination fees.

This promotion excludes customers that are existing CompleteLinksm subscribers or customers that subscribe to CompleteLinksm prior to the effective date of the promotion. Service taken under this promotion can not be combined with any other promotion except for the CompleteLinksm Return Rewards Plus promotion.

95. CompleteLinksm MARC Credit Winback and Save Promotion

(T)

A new statewide promotion for CompleteLinksm available to business customers who have discontinued their service with the Utility for the purpose of establishing service with a Competitive Local Exchange Carrier operating within the Utility's territory and who now wish to return to the Utility ("Winback Customers") and business customers who have received a written competitive offer/proposal (i.e., a competitive bill or competitive proposal on a legitimate competitor's letterhead) dated within the past three months and are considering discontinuing their business with the Utility for the purpose of establishing service with another Competitive Local Exchange Carrier operating within the Utility's territory but choose to remain with the Utility ("Save Customers"). During the promotion period, eligible customers subscribing to CompleteLinksm for a 1, 2, 3, or 5 year term agreement will receive a one-time credit based on the customer's minimum annual commitment ("MARC") level as follows:

(N)

Term Length	Winback Customer Credit	Save Customer Credit
1 year	6%	2%
2 years	7%	3%
3 years	8%	4%
5 years	10%	5%

Example: A Winback Customer who commits to a \$7,000.00 MARC level with a 3-year term agreement will receive a one-time credit of \$560.00, which is 8% of \$7,000.00.

The credit will post to the customer's account within two billing cycles after the agreement has been approved and entered into the billing system.

If the customer terminates the CompleteLinksm agreement prior to the term expiration date, the promotional benefit will be recovered from the customer. If the customer terminates the CompleteLinksm agreement prior to the term expiration date, the customer will also be liable for all applicable CompleteLinksm early termination fees.

A statewide promotion for Hunting Service, as defined in Schedule (D)
Cal.P.U.C. No. A2.1.1, available to business customers who have
(1) discontinued their service with the Utility for the purpose of
establishing service with a Competitive Local Exchange Carrier
operating within the Utility's territory and who now wish to
return to the Utility ("Winback Customers"), or (2) discontinued (N)
their service with a Competitive Local Exchange Carrier operating
within the Utility's territory and who now wish to establish
service with the Utility ("Win Customers"). During the promotion (N)
period, eligible customers subscribing to a minimum of two Hunting
Service features and verbally agreeing to a 12-month term, will
receive a one-time credit of \$23.50 for each of the Hunting
Service features ordered and installed.

Customers must subscribe to a minimum of two Hunting Service
features ordered under this promotion throughout the 12-month
term. Customers not subscribing to a minimum of two Hunting

A new statewide promotion for Hunting Service, as defined in Schedule Cal.P.U.C. No. A2.1.1, available to business customers who have (1) discontinued their service with the Utility for the purpose of establishing service with a Competitive Local Exchange Carrier operating within the Utility's territory and who now wish to return to the Utility, or (2) discontinued their service with a Competitive Local Exchange Carrier operating within the Utility's territory and who now wish to establish service with the Utility. During the promotion period, eligible customers subscribing to a minimum of two Hunting Service features and verbally agreeing to a 12-month term, will receive a one-time credit of \$23.50 for each of the Hunting Service features ordered and installed.

Customers must subscribe to a minimum of two Hunting Service features ordered under this promotion throughout the 12-month term. Customers not subscribing to a minimum of two Hunting Service features ordered under this promotion throughout the 12-month term will be billed the entire amount credited under this promotion. This promotion may not be combined with any other promotion, package, or discount involving Hunting Service. Service ordered under this promotion must have a requested installation date that is no more than 60 days from the date that service is ordered.

This promotion is offered from January 19, 2004 for maximum of 120 days and is available for resale.

This promotion is extended and is now offered from May 18, 2004 for a maximum of 120 additional days for a maximum total of 240 days. This promotion continues to be available for resale.

Terms and Conditions

- Customers must have initially refused a CompleteLinksm 2.0 agreement.
- Customers must sign a new CompleteLinksm 2.0 agreement with a 3-Year or 5-Year Term. 1-Year and 2-Year Terms are not eligible for this promotion.
- The 90-day satisfaction guarantee may not be used by customers subscribing to this promotion.
- The offer may not be combined with other Utility business access line, usage, and/or toll discount plans or promotions, with the exception of combining with other CompleteLinksm offers where permitted.
- Eligible customers who establish a CompleteLinksm 2.0 agreement and later upgrade to a new term length and/or MARC level, or terminate their CompleteLinksm 2.0 agreement prior to its expiration date, will forego any discounts not yet received. Customers who upgrade will retain any discounts already received.

Early Termination

(N)

The discount provided is an accelerated discount. Customers who terminate the CompleteLinksm 2.0 contract early will be receive an early termination charge for the discount. The early termination charge will be equal to 50% of the accelerated discount received and be prorated by the number of remaining months in the contract.

EXAMPLE 1: A customer signed a \$12,000 MARC agreement with a three year term commitment and received an accelerated discount of \$600 upfront. If the customer terminates the CompleteLinksm 2.0 agreement after 12 months the customer will be liable for \$200 of the accelerated discount received, calculated as follows: $(\$600/36 \text{ total months}) \times 24 \text{ months remaining} = \$400 \times 50\% = \$200$.

EXAMPLE 2: If the customer terminates the CompleteLinksm 2.0 agreement after month 18 the customer will be liable for \$300 of the accelerated discount received, calculated as follows: $[\$600 \text{ upfront} + \$600 (5\% \text{ of the } \$12,000 \text{ MARC}/3 \text{ year term for their 1 year accelerated discount}) = \$1,200]/36 \text{ total months} \times 18 \text{ months remaining} = \$600 \times 50\% = \$300$.

This promotion is available from May 30, 2008 through May 14, 2009 and is available for resale.

Promotional offerings shall include the following:

1. Win/Winback uSelectSM 3 Promotion

A new statewide promotion for the uSelectSM 3 feature package, as described in A5.4.10, E.2.c.(1) preceding, available to residential customers who have (1) discontinued their service with the Utility for the purpose of establishing service with a Competitive Local Exchange Carrier operating within the Utility's territory and return to the Utility ("Winback Customers"), or (2) established their service with a Competitive Local Exchange Carrier operating within the Utility's territory and now establish service with the Utility ("Win Customers").

During the promotion period, the nonrecurring service charge (Schedule Cal.P.U.C. No. A3.2.3, A.1) will be waived for each new package to which an eligible customer subscribes. In addition, the customer will also receive a monthly credit of \$4.15 per month through December 31, 2007. The customers must maintain the uSelectSM 3 feature package through December 31, 2007 to qualify for all credits. If the customer disconnects the uSelectSM 3 feature package prior to December 31, 2007, the customer will forego any remaining credits. The customer may add Custom Calling Services (features) on a stand-alone basis (outside of a package) and the nonrecurring charge will be waived, however, the customer will not be eligible for any monthly credits.

This promotion cannot be combined with any other promotion unless otherwise specified.

This promotion is offered from May 17, 2007 through December 15, 2007 and (C) is available for resale.

(T)

A new statewide promotion available to eligible customers. Eligible customers are those who have at least one local exchange access line or a substitute (e.g. a wireless line or VoIP service) with a carrier other than the Company at a service location that can be served by the Company.

(N)

Customers moving from an AT&T local service area in a state and location where AT&T provides local exchange access service as an incumbent local exchange carrier are also eligible. Employees of the Company and its affiliates are not eligible.

During the promotion period, eligible customers who establish local service with the Company and purchase Caller ID and Call Waiting or any package containing these two features will receive a coupon redeemable for a \$50.00 check. The customer must redeem the coupon within 30 days of receipt. All nonrecurring feature or package installation charges associated with adding the features or a package that contain the required features to the customer's account will be waived.

Customers must retain the Caller ID and Call Waiting for a minimum of 30 days. This offer may be combined with the Online IC Waiver but may not be combined with other tariffed offers.

16. Access Line Retention \$5.00 Per Month Promotion

(T)

A new statewide promotion available to existing residential customers who call the Company for the purpose of discontinuing their Residential Flat or Measured Rate Service (access line) but agree to keep the service (ULTS also eligible).

(N)

During the promotion period, customers who agree to keep their access line(s) and maintain or newly subscribe to one of the eligible Custom Calling Services (CCS) noted below will be eligible for a \$5.00 monthly bill credit as long as the customer maintains the access line and the eligible CCS on each line. If the customer disconnects the additional line and/or the qualifying CCS (or package containing the CCS) before the next bill period date in which a credit is due, any further benefits available under this offer will cease and the credit will be discontinued. If the customer moves from their current location, any further benefits available under this offer will cease.

The bill credit is applicable to a maximum of two access lines, providing the feature requirement is met on each line. Only one credit application applies for the life of the offer for the qualifying access lines. The bill credit will appear on the second billing cycle after the order is issued.

Eligible Custom Calling Services:

5.14 NUMBER RETENTION SERVICE¹

(N)

A. DESCRIPTION

1. Number Retention Service (NRS) allows business customers the option of retaining their existing number(s) when changing within or between grades of service if a number change is required. Calls made to the customer's retained number are forwarded to the customer's assigned number. This is transparent to the calling party.

(T)

(T)

Simultaneous calls to the retained number may result in a busy signal to the calling party. The customer of NRS has the option of subscribing to additional access paths to the assigned number at charges as set forth in C.1. following.

2. Definitions

- a. Primary Number - The first number of any business account when more than one number is billed together (commonly referred to as the pilot number). A separate bill is rendered for each primary number.
- b. Additional Number - Any number billed with a primary number such as lines within: 1) the same hunting group, 2) same prefix, or 3) same address.
- c. Sequential Number - A numerical series or grouping of telephone numbers that is continuous and uninterrupted. A sequential number range consists of no less than two numbers.

NOTE 1: Frozen/Grandfathered Number Retention Service pending CPUC Resolution. See Schedule Cal.P.U.C. No. A2.1.1 - Definition of Terms.

5.14 NUMBER RETENTION SERVICE¹ (Cont'd)

(N)

B. REGULATIONS

1. NRS is offered on changes from Individual Business Access Line Service or Business Trunk Line Service to Centrex Service or Business Trunk Line Service - Direct-In-Dialing (DID) equipped if a number change is required when:

- a customer's existing service has telephone numbers in different prefixes and the customer wants to add these numbers to a new or existing service.
- a customer has non-sequential numbers in a 1/1AESS or 2BESS central office switch. Customers may keep their primary number only. The remaining non-sequential numbers must be changed.

(N)

2. NRS is not provided with Foreign Exchange Service, Foreign District Area Service and Foreign Prefix Service as set forth in Schedule Cal.P.U.C. Nos. A5.1.4. and A5.1.5.

3. NRS is offered on changes from Centrex Service or Business Trunk Line Service - Direct-In-Dialing (DID) equipped to Individual Business Access Line Service or Business Trunk Line Service if a number change is required.

4. NRS is offered on changes between Centrex Service and Business Trunk Line Service - DID equipped if a number change is required when:

- a customer has and wants to retain less than 100 sequential telephone numbers.
- a customer will be served from a different prefix in the same wire center.

5. Rates and Charges for NRS are in addition to all other applicable rates and charges.

6. NRS may only be offered where the customer's retained number and terminating number are in the Utility's same exchange and same wire center. If the Utility's Exchange Area has District Areas, the terminating number must be within the same District Area and the same Wire Center.

7. The terminating telephone number may be changed at the customer's request at the charges for a change of telephone number as shown in Schedule Cal.P.U.C. No. A3.1.

9. Listings in the directory serving the exchange in which the NRS service is located will be furnished as set forth in Schedule Cal.P.U.C. Nos. A5.6.1 and A5.7.1.

(T)

10. Number Retention Service may not be provided with 800 Service.

11. Customers subscribing to Centrex Service or Business Trunk Line Service - DID equipped, whose numbers are assigned out of the unique numbering blocks may keep their retained number(s) for a period of 12 months. At the discretion of the Utility, the NRS may be discontinued, depending on facilities and operating conditions, after the 12 month period.

12. NRS is available where facilities and operating conditions permit.

13. NRS may be offered to an end user of the Utility, provided that all other requirements of this tariff are met, when the end user customer of the Utility subscribes to Joint User Service under Schedule Cal.P.U.C. No. A5.6.1, Joint User Service, with respect to business service provided to another customer of the Utility, and wishes to retain the existing Utility telephone number(s).

14. NRS may be offered to an end user customer of the Utility, provided that all other requirements of this tariff are met, and all the following conditions exist:

a. the end user customer of the Utility currently subscribes to Joint User Service under Schedule Cal.P.U.C. No. A5.6.1, Joint User Service, with respect to business service provided to another customer of the Utility, as stated in 13. preceding, and

5.15 CUSTOM BIZSAVER (Cont'd)

B. REGULATIONS

1. Custom BizSaver is available to all eligible Retention, Winback and Win customers, described in A. preceding, and new customers.
2. Custom BizSaver is available to business customers who subscribe to 1 to 10 individual Business Measured Rate Service access lines, as described in Schedule Cal.P.U.C. No. A5.2.1,B.
3. All access lines on the billing telephone number must subscribe to Custom BizSaver.
4. Customers must verbally agree to a one-year term commitment for Custom BizSaver or, when applicable, must agree on-line when using an authorized Utility Internet website, where available.

In lieu of a one-year verbal agreement, customers may elect to sign a written two or three-year term agreement and receive pricing as set forth in C.2. following. Two and three-year term agreements are not available on Custom BizSaver packages with Local Usage Optional Calling Plans.

5. Upon expiration of the one, two or three-year term, the customer will be billed at the tariff rates for the individual package components specified in Schedule Cal.P.U.C. Nos. A5.2.1 and A6.5.18 (Non-Business Solutions Rate for Unlimited Local Calling Plan) unless the customer expressly elects another service or plan or has previously opted for a renewal option as specified in 6. following. The renewal option in 6. following is not available to customers opting for the written two or three-year term agreement.
6. At the time of the initial subscription, the customer may elect to renew Custom BizSaver for up to two (2) additional one-year terms under the same terms, conditions, and rates as the initial subscription. If the customer elects the renewal option, a renewal letter will be sent prior to the expiration of each one-year term. The customer must contact the Utility to cancel the renewal; otherwise, the new one-year term will take effect upon expiration of the previous term.

(N)

Upon completion of the final renewal term, the customer will be billed at the tariff rates for the individual package components specified in Schedule Cal.P.U.C. Nos. A5.2.1 and A6.5.17 or A6.5.18 (Non-Business Solutions Rate for Unlimited Local Calling Plan) unless the customer expressly elects another service or plan.

11. Early Termination Fees are not applicable if during the Custom BizSaver term period the customer converts to another Utility access and local usage plan with a term equal to or greater than the remaining Custom BizSaver term plan.

12. Win and Winback Waivers

- a. Win and Winback customers who commit to a one, two, or three-year term agreement will have the monthly recurring charges for Custom BizSaver waived on all eligible lines for the first month of billing. This waiver of charges is not applicable in the first month of any subsequent renewal term or for the first month of the second or third year in a two or three-year term agreement.

Win and Winback access lines are not eligible for this waiver if added to a new or existing Custom BizSaver account (Billing Telephone Number) when the customer has existing service with the Utility.

- b. The nonrecurring charges for additional Custom Calling Services will be waived for Win and Winback customers who order additional Custom Calling Services at the time of ordering a Custom BizSaver package. CCS added after the Custom BizSaver package is established will incur the applicable nonrecurring charges.

13. Hunting is an optional feature for the Custom BizSaver Multiple Line option. If Hunting is selected after the initial installation of Custom BizSaver, nonrecurring charges will apply per Schedule Cal.P.U.C. No. A3.1.6,i.

5.18 EASY RATE

(N)

A. DESCRIPTION

Easy Rate is an optional business package that includes a network access line, customer selected optional features, optional Hunting, and unlimited local calling. Customers must subscribe to and maintain a minimum of 40 Easy Rate lines.

B. TERMS AND CONDITIONS

Easy Rate is available to business customers who agree to a month to month subscription of a minimum of 40 business lines per account from those states where AT&T operates as an Incumbent Local Exchange Carrier, where Easy Rate is available, and who agree to a month to month arrangement.

All lines on the account must be subscribed to Easy Rate. If the customer requires other types or class of service they must be established on a separate account. Customers must request Easy Rate on their lines to be eligible for this offer.

Easy Rate is available only on Business Access Lines (1MB). Easy Rate is not available on Foreign Exchange Service, Remote Call Forwarding Service, 800 services, PBX Trunks, DID, Centrex, ISDN services, or Semi-Public Coin services.

Easy Rate includes optional custom calling features and Hunting listed below, free unlimited local and Extended Area Service (EAS) calling.

Standard nonrecurring charges apply to establish and change lines, Hunting, and features unless otherwise specified. Customers installing new lines will receive a waiver of the nonrecurring installation charge for Hunting only.

Existing customers will receive a waiver of any applicable nonrecurring charges (NRCs) associated with Hunting and available features listed in C. below on existing lines that are converted to an Easy Rate Account at the time the account is initially established. Customers will also receive a waiver of any nonrecurring change charge associated with converting a stand-alone business access line to Easy Rate when there are no other physical changes made to the line.

5.19 1-2-3 PUNCH

(N)

A. DESCRIPTION

1-2-3 PUNCH offers the waiver of all nonrecurring charges applicable to the service order and installation of new Business access lines of customers that currently do not have service with the Utility. Also, existing qualifying Utility customers are eligible for a one-time credit.

Any business customer that does not currently have service with the Utility must order 1, 2, or 3 business access lines and retains the main billing telephone number for a minimum of one-year will receive a waiver of the nonrecurring charges (NRC) for each of those lines. This offer will apply only on the access lines that the customer installs on their initial order when establishing service with the Utility.

Existing customers of the Utility with 1, 2, or 3 Business access lines who subscribe to this offer and agree to retain their main billing telephone number for a minimum one-year term will receive a one-time credit of \$15.00 for each access line subscribing to this offer. Existing customers are not eligible for the nonrecurring charge waiver if they choose to add additional access lines.

Customers with multiple locations are eligible for this offer at each qualifying customer premises location.

B. LIMITATIONS

This offer cannot be combined with any other offer that includes any type of waiver, discount, or credit associated with nonrecurring charges or recurring rates for business access lines, trunks, Custom Calling Services, other features, or Hunting. Foreign Exchange Service is not eligible for this NRC waiver. Customers must complete any applicable term commitment or pay early termination fees associated with any existing Business access lines subscribing to this offer.

(N)

C. EARLY TERMINATION

Early Termination Charges will be assessed unless the customer retains at least one access line installed under this offer for the entire 12 month term.

Early Termination Charges for new customers will equal \$5.50 multiplied by the number of months remaining under the 12 month term. The amount of the charges waived under the NRC Waiver and will be assessed unless the customer keeps at least one of the lines installed under the NRC Waiver for a 12 month period.

Example: the customer disconnects after 5 months, leaving 7 months remaining on the unexpired term. 7 months x \$5.50 = \$38.50.

For existing Utility customers that received a one-time credit, Early Termination Charges will equal \$1.25 multiplied by the number of months remaining under the 12 month term per access line.

Example: the customer disconnects after 5 months, leaving 7 months remaining on the unexpired term. 7 months x \$1.25 = \$8.75.

Early Termination Fees will not apply if, during the 12-month term, the customer converts the access lines to another access line package with a term equal to or greater than the remaining term herein.
