### **A114.4 High Voltage Protection Equipment**

(Obsoleted 9-1-2005, Type 3) Units in service on the specified date may be continued in service at the same location (i.e., same building) until such units are discontinued.

#### **A114.4.1 General**

- A.** Company services extending to electric power generating and distributing locations may require special equipment to isolate or neutralize the environmental hazards experienced when ground potentials rise due to faults in the electric power system. The subscriber is responsible for conditioning the environment to eliminate hazardous voltages due to ground potential rises.
- B.** The Company shall determine the proper levels of protection to isolate or neutralize the electrical hazard and will provide, if necessary and at the request of the subscriber, the equipment to perform this function at the charges as specified following.
- C.** The subscriber may elect to furnish the equipment required to neutralize electrical hazards subject to the approval by the Company of the proper levels of protection and the equipment provided by the subscriber.

#### **A114.4.2 Rates and Charges**

- A.** The following charges are applicable for high voltage protection devices furnished by the Company and do not include equipment cabinets or mounting arrangements which may be provided by either the subscriber, or the Company at additional cost. (T)
