## B100. OBSOLETE SERVICE OFFERINGS

### B100.1 General

- A. Service offerings listed herein are classified as obsolete according to the following types, and each obsolete offering is designated by one of these types.

Type of Obsolescence	Effect on Existing Customers	Effect on New Customer Requests	Status of Equipment in this Category
Type 1	Available for additions, rearrangements, changes or moves if the required equipment is available from existing stock.	Offered for new installations only as available from existing stock.	No longer manufactured. Maintenance of Type 1 offerings will be provided as long as replacement parts are available from existing stock.
Type 2	Available units used only for additions to or replacements of existing service at the same location (i.e., same building) if the required equipment is available from existing stock. A move from one building to another is considered a new installation.	Not offered for new installations on and after the specified obsolete date.	Maintenance of Type 2 offerings will be provided as long as replacement parts are available from existing stock.
Type 3	Units in service on the specified date may be continued in service at the same location (i.e., same building) until such units are discontinued. In the case of products/services having common equipment, lines and/or stations may be added up to the capacity of the currently installed common equipment if the required equipment is available from existing stock.	Not offered for new installations on and after the specified obsolete date.	No longer manufactured. Maintenance of Type 3 offerings will be provided as long as replacement parts are available from existing stock.
Type 4	Any other arrangement; specific provisions in each case being stated at the beginning of the text for the obsolete service offering affected.		(M)
