

4.1 Southwestern Bell Telephone Company

4.1.1 Applicable for Southwest

4.1.2 Public Land Mobile Radiotelephone Service

Through Base Stations of the Southwestern Bell Telephone Company, Connecting Carriers (other than Miscellaneous Common Carriers), and Concurring Carriers

A. Application

1. Two-way communication service is furnished through radiotelephone Base Stations listed in C.(3) (LATA Stations), following, between a vehicle and a point located outside the land mobile service area associated with such Base Station, between two vehicles served through Base Stations having different rate centers, or between a vehicle served through a Base Station and a ship or aircraft served through another land radiotelephone station.
2. Public Land Mobile Service is available to vehicles equipped for this service when within range of a Base Station through which such service is furnished. Service is furnished subject to transmission, atmospheric and like limitations.

This service is also available through a Base Station, between a point or a vehicle and another station, hereinafter called an "Other Station" which is authorized by the Federal Communications Commission to communicate with the Base Station, or between two "Other Stations" so authorized.

In the application of regulations and rates, stations other than vehicles which are authorized by the Federal Communications Commission to communicate with a Base Station are considered as vehicles.

3. The services offered are those referred to in B.(1) and in B.(2), following.

B. Mileage Measurements - Rate Determination

1. Rates for service as set forth in (a) and (b) following are based on airline mileage between rate centers or mileage rate bands. Obtain V-H coordinates for Base Station rate centers by reference to AT&T Tariff F.C.C. No. 10.
 - a. For service between a point in the LATA and a vehicle served through a Base Station in the LATA listed in C.(3), following the mileage or mileage rate band is determined as in (1), following:
 - (1) for service involving a point in the LATA, mileage is measured between the rate center of the point and the rate center of the Base Station serving the vehicle in accordance with the provisions of part 8 section 3, preceding. Rates for the mileage obtained are applied as specified in C.(1)(a), following.
 - b. For service between two vehicles, each served by a different Base Station in the LATA, listed in C.(3) following, mileage is measured between the rate centers of the Base Station involved in accordance with the provisions of part 8 section 3, preceding. Rates for the mileage obtained are applied as specified in C.(1)(a), following.
2. Rates for service set forth in (a) and (b), following are as provided for therein. Obtain V-H coordinates for Base Station rate centers by reference to AT&T Tariff F.C.C. No. 10.
 - a. For service between a vehicle served through a Base Station in the LATA (listed in C.(3), following) and a ship or aircraft served through other land radiotelephone stations, conditions and rates are determined in accordance with (1), following:

4.1 Southwestern Bell Telephone Company (Cont'd)

B. Mileage Measurements - Rate Determination (Cont'd)

(i) Other Land Radiotelephone Station	Regulations and Rates Apply as Specified in:
VHF Service Stations of Other Participating Carriers	Southwestern Bell Tariff F.C.C. No. 72
Air-Ground Service	Southwestern Bell Tariff F.C.C. No. 72

The vehicle served through a Base Station is treated as a point for which the rate center is that of the Base Station serving the vehicle.

b. For service between a vehicle served through a Base Station in the LATA (listed in C.(3), following) and a ship served through this Telephone Company's or its Concurring Carrier's VHF Service Station, regulations and rates are as specified in this Company's Tariff F.C.C. No. 72.

The vehicle served through a Base Station is treated as a point for which the rate center is that of the Base Station serving the vehicle.

C. Rate and Charge Application

1. Rates for the mileage or mileage rate band obtained as set forth in B.(1), preceding, between the applicable rate center and the rate center of the serving Base Station or between the rate centers of two Base Stations are determined as specified in (a), following. conditions applicable are those specified in 3.1, preceding.

a. The rates, according to the connection established, apply as specified in the rate tables for Interstate IntraLATA service under Part 3, preceding.

2. Charges

a. For Calls Involving Transient Land Mobile Units. When the service connection involves a call to or from a transient land Mobile Unit and requires the assistance of an operator, the Operator Station rate shall apply, as applicable. When the call is placed without the assistance of an operator, the Dial Station rate shall apply. (C)

b. For Calls Involving Base Stations Prefixed by an Asterisk. For calls to or from a mobile station served through a base station prefixed by an asterisk (*) (listed in 3, following), in addition to the charges specified in this Guidebook, the mobile usage charge listed in the Exchange Mobile Service Tariff of the Telephone Company will apply. Such mobile usage charges will be billed to and collected from the mobile Customer.

4.1 Southwestern Bell Telephone Company (Cont'd)

4.1.3 Through Miscellaneous Common Carriers (as defined in Part 22 of the F.C.C. Rules)

A. Application

1. Service is available to and from Customers of the miscellaneous common carriers listed in B, following through connecting facilities provided by the Telephone Company in accordance with the provisions set forth in A(2) through A(6), following. For the purposes of A(1) and A(3) through A(6), following, the term "Telephone Company" does not include American Telephone and Telegraph Company, Long Lines Department, or GTE Satellite Corporation.
2. Rates between the rate center applicable to the miscellaneous common carrier and the applicable rate center of the point or applicable mileage rate band are those set forth in Part 8 (Interstate IntrALATA Service), as appropriate. Additional charges, which the miscellaneous common carrier bills to and collects from its Customers, are applicable to the remainder of the haul, as set forth in B(1), following, or in the tariff indicated in B(2), following. V-H coordinates for the rate centers applicable to the miscellaneous common carrier can be obtained by reference to American Telephone and Telegraph Company, Long Lines Department's Tariff F.C.C. No. 10.
3. Subject to the availability of facilities and the reasonable requirements of the Telephone Company for its telecommunications services, the Telephone Company will, at the miscellaneous common carrier's request, extend and physically connect its facilities with those of the miscellaneous common carrier for the purpose of interchanging interstate traffic in connection with the miscellaneous common carrier's Domestic Public Land Mobile Radio Services (as defined in Part 22 of the FCC Rules). Such connection and interchange of interstate traffic shall be as follows:

a. Two-Way Mobile Traffic

The Telephone Company will extend and connect its facilities between any telephone exchange whose rate center is located in the miscellaneous common carrier's Reliable Service Area (as defined in Part 22 of the FCC Rules) and the miscellaneous common carrier's control point(s) or communications system serving that Reliable Service Area.

b. One-Way Signaling Traffic

The Telephone Company will extend and connect its facilities between any telephone exchange within which a signaling receiver is served by the miscellaneous common carrier's system and the miscellaneous common carrier's control point(s) or communications system serving that system.

4. The facilities provided for connection and interchange of traffic shall not be used, switched or otherwise connected together by the miscellaneous common carrier for the provision of through calling from a landline telephone to another landline telephone, nor shall they be switched or otherwise connected together by the miscellaneous common carrier for the provision of through calling from a landline or mobile unit located in one Reliable Service Area (as defined in Part 22 of the FCC Rules) to a landline telephone or mobile unit in another Reliable Service Area (as defined in Part 22 of the FCC Rules).

4.1 Southwestern Bell Telephone Company (Cont'd)

5. Specific administrative procedures, connection and operating arrangements and charges for the facilities provided by the Telephone Company to the miscellaneous common carrier for the purpose of connection and interchanging traffic are as set forth in various intercarrier agreements between the Telephone Company and the miscellaneous common carriers, or in the general exchange tariffs of the Telephone Company as appropriate. Where the state franchise area or state authorization of the miscellaneous common carrier is different than the Reliable Service Area (as defined by Part 22 of the FCC Rules), the terms and conditions of connection and interchange of traffic may be modified to recognize the extent of such state franchise or authorization.

6. The connection and interchange of traffic as set forth in A(1), through A(5), preceding, does not constitute a joint undertaking with the miscellaneous common carrier for the furnishing of any service.
