

**FOREIGN SERVING OFFICE AND EXTENSION SERVICE**

**A. General Regulations**

1. Foreign serving office service is exchange service furnished to a customer in a multi-office exchange from a central office or zone other than the one which serves the area in which the customer is located. Extension service is exchange service furnished to a different premises location served from the same serving office that serves the main station location.
2. Such services are not in accord with the general plan of furnishing telephone service, and they will be furnished only under special conditions where the service is warranted by the circumstances involved. The Company does not obligate itself to furnish these services, particularly when it involves undue expense or impairment of the service furnished the general public.
3. These services are available only in connection with flat rate one-party line, multiline or private branch exchange service.
4. Foreign serving office and extension service are furnished subject to the exchange charges, rules and regulations of the foreign serving office.
5. Foreign Serving Office service is furnished to a maximum of two serving offices (in addition to the serving office in which the exchange service is furnished) within the exchange or metropolitan exchange in which the exchange service is furnished.

Service is furnished on the condition that additional costs to the Company may be necessary to provide a type of signaling suitable for operation with the serving office from which service is furnished, or to provide, at the customer's request, a type of signaling other than the type the Company would elect to furnish. In such cases, additional charges will apply.

Customers, for the exchange portion of the service, are subject to exchange charges.

Off-premises extensions are provided only where facilities and conditions permit. Local channel charges apply for off-premises extension.

6. Local channel charges apply to extension service.

**FOREIGN SERVING OFFICE AND EXTENSION SERVICE (cont'd)****C. Meet Point Billing**

The Multiple Bill/Multiple Meet Point Billing (MPB-MM) Arrangement allows each local exchange telephone company providing Foreign Serving Office service to bill the customer for that company's portion of a jointly provided service according to that company's Foreign Serving Office or equivalent guidebook. MPB-MM is not available with Extension Service.

1. The local exchange telephone companies will render separate bills where a portion of the service is located in the territory of the Company and a portion of the service is located in the territory of an Independent Local Exchange Carrier (ILEC).
2. Each local exchange telephone company involved in the provision of the service will accept an order for service from the customer. The local exchange telephone companies involved in providing the service will develop a mutually agreeable working arrangement to allow one of the exchange telephone companies to perform the service coordination for all services requested.

Each local exchange telephone company will provide its portion of the service based on the regulations, rates and charges contained in its Foreign Serving Office or equivalent guidebook.

The charges to be billed by the Company for channel mileage will be determined as follows:

- a. Develop a total mileage for the service using the V-H Coordinate Method described in Part 15, Section 1.
- b. Obtain the appropriate billing percentage from National Exchange Carrier Association (NECA) Tariff FCC No. 4 for the Company premises involved.
- c. The Company's rates and charges are multiplied by the appropriate quantity and billing percentage to obtain the charges for the Company.

3. The rate distances for Foreign Serving Office channels should be determined in accordance with Part 15, Section 1.
4. One Interoffice Channel Termination charge per interoffice channel will apply.

**FOREIGN EXCHANGE SERVICE**

(including Plexar® Stations with Switching Equipment Located on Company Premises)

**A. General Regulations**

1. Foreign exchange service is exchange service furnished to a customer from an intraLATA exchange other than the one in which he is located.
2. Such services are not in accord with the general plan of furnishing telephone service, and they will be furnished only under special conditions where the service is warranted by the circumstances involved. The Company does not obligate itself to furnish these services, particularly when it involves undue expense or impairment of the service furnished the general public.
3. Foreign Exchange is available only in connection with flat rate one-party line, multiline or flat rate trunk service. Foreign Exchange Service will be provided in connection with Hotel/Motel services only for the exclusive use of the Hotel/Motel management.
4. Exchange service is furnished subject to the exchange charges, rules and regulations of the foreign exchange from which they are furnished.
5. This service is furnished to a maximum of two exchanges (in addition to the exchange in which the exchange service is furnished). The exchange service connection is provided from one exchange only.
6. Service is furnished on the condition that additional costs to the Company may be necessary to provide a type of signaling suitable for operation with the exchange from which service is furnished, or to provide, at the customer's request, a type of signaling other than the type the Company would elect to furnish. In such cases, additional charges shall apply.
7. Customers, for the exchange portion of the service, are subject to exchange charges, rules, and regulations.
8. Off-premises extensions are provided only where facilities and conditions permit. Local Channel Charges apply for off-premises extensions.
