DIGITAL LOOP LOCAL EXCHANGE ACCESS PBX SERVICE**A. Descriptive Summary**

Provides access to and utilization capability of the public switched network distinguished by permitting digital signals to be transmitted and received to and from a digital PBX located on the customer's premises and its serving central office.

B. General

All rates, charges, terms and conditions set forth herein provide for the furnishing of service where suitable facilities are available and do not create an obligation of the Company to construct facilities especially for this service.

Other service offerings requested by the customer and not detrimental to this service or other services of the Company may be furnished in accordance with the regulations and at the rates and charges specified in the applicable sections of this Guidebook or other service publications of the Company.

1. Service Components^{/1}Service Line – Line Termination

Composed of the serving central office exchange access line equipment necessary for entry and exit of the public switched network for both long-distance service and for local exchange calling appropriate to the calling option selected by the customer.

Service Line – Digital Transmission Loop Arrangement

Composed of a digital, multichannel transmission path, its related transmission equipment, and the associated network interface device. Each arrangement provides two-way transmission for a capacity of up to 24 line terminations.

Integrated Services Digital Circuit Switched Voice (CSV)/Circuit Switched Data (CSD) Transport
Utilization made of the public switched network for the origination of local exchange services calling.**2. Regulations**

- a. The following regulations are in addition to other regulations as stated in this and other service publications of the Company. For the purposes of this service, when such other regulations apply on a "per line" basis, they shall be interpreted in this instance as applying on a "per line termination" basis.
- b. Digital Loop Local Exchange Access PBX Service is furnished subject to the availability of facilities and only within a LATA.

/1/ Loop Protection as provided in Paragraph D of the Digital Loop Service offer in this Guidebook is an optional feature also available to existing Digital PBX Service customers at the same rates, terms, and conditions as available to Digital Loop Service customers.

DIGITAL LOOP LOCAL EXCHANGE ACCESS PBX SERVICE (Cont'd)**B. General (Cont'd)**

2. Regulations (Cont'd)
 - c. Digital Loop Local Exchange Access PBX Service is offered with calling scopes as may be defined in Part 4, Section 1.
 - d. Exchange access line rates and charges, as specified in Part 4, Section 2 are not applicable to this service. Other rates and charges for associated services which normally would apply on a per line basis, will apply on a per line termination basis.
 - e. Each Digital Transmission Loop Arrangement can contain both DID and non-DID line terminations. The customer must initially indicate the specific location of each line termination within the multichannel transmission path. Subsequent change in this configuration will result in the application of appropriate charges expressed in paragraph C.
 - f. Service provided under this Guidebook contemplates that the customer's requested service location is within the base rate area of the normal serving central office. Requests for Digital Transmission Loop Arrangements extending beyond the normal serving central office base rate area, when feasible, may be furnished as a Special Assembly of Equipment with charges based on costs. Intrastate, IntraLATA Foreign Serving Office/Foreign Exchange Line Terminations, if requested by the customer and agreed to by the company, may be furnished pursuant to Part 4, Section 3 on a per channel basis.
 - g. Customer relocations resulting in a change in central office designation will be considered a disconnection and connection of new service.
 - h. Except as otherwise noted, the minimum service period is 30 days.
 - i. Except for the Local Exchange Usage portion of this service, the temporary suspension of service provisions are not applicable.
 - j. No performance guarantee is made or implied beyond those associated with the normal provisioning of Local Exchange Service.
 - k. Synchronization of the digital network will be provided in accordance with:

TA-NPL-000436
ANSI T1.101-1987
TR-NPL-000275

Digital Synchronization Network Plan
Synchronization Interface Standards for Digital Networks
Synchronization of the IntraLATA Digital Network

DIGITAL LOOP LOCAL EXCHANGE ACCESS PBX SERVICE (Cont'd)**C. Rates and Charges^{/1/}****1. Application of Rates and Charges**

Service components of Digital Loop Local Exchange Access PBX Service are not offered separately, nor independent of one another.

2. Schedules

Service Line	Monthly <u>USOC</u>	Rate	Installation Charge Init. Unit	Installation Charge Addl. Unit ^{/2/}
Line Termination, each ^{/3/}				
Inbound, Non-DID	/DLT1X/	\$5.00	-	-
Inbound, DID	/DQT1X/	5.00	-	-
Outbound	/DLTOX/	5.00	-	-
Inbound/Outbound	/DLTCX/	5.00	-	-
Special Hotel/Motel	/DHT/	5.00	-	-

Digital Transmission Loop Arrangement**Payment Option 1^{/4/}****Payment Option 2^{/5/}**

Per Arrangement	/DLS/	135.00	\$15,500.00	\$15,100.00
Per Line Termination Activated				
Non-DID type, each	/DZA1X/	1.80	440.00	380.00
DID type, each	/DZADX/	1.70	430.00	370.00
Per Line Termination and Channel Location Changed or Rearranged	/MVM/	-	140.00	95.00

^{/1/} Loop Protection is available at the same rates, terms, and conditions as outlined in Digital Loop Service of this Guidebook.

^{/2/} Additional Unit Charge applies only when requested by the customer at the same time as Initial Unit.

^{/3/} Service Connection Charge applies.

^{/4/} Effective March 24, 1992, customers whose arrangements are provided under Payment Option 1, must convert their service to Digital Loop Service. All existing minimum term and termination charge requirements will be waived.

^{/5/} Obsolete - limited to existing installations at existing locations for existing customers, except additional line terminations and activations may be permitted to the extent spare capacity is available on existing arrangements.

DIGITAL LOOP LOCAL EXCHANGE ACCESS PBX SERVICE (Cont'd)**C. Rates and Charges^{/1/}**

2. Schedules (Cont'd)

Integrated Services Digital Circuit Switched Voice (CSV)/Circuit Switched Data (CSD) Transport Options^{/1/}

The following rate elements provide for digital CSV/CSD transport through central office switching equipment. These rate elements are for Local Exchange usage. Each rate element shall constitute a local exchange access arrangement and shall be counted in combination with those of Part 4, Section 2. These CSV/CSD local service elements are offered only in connection with services provided under this Guidebook, and not offered on a stand-alone basis.

<u>Service Components</u>	<u>Monthly Rate</u>
Business Trunk Equivalent, Flat Rate Usage	
Digital PBX Service Compatible, each	
All Rate Groups ^{/2/}	\$19.75
Message Rate Hotel Trunk Equivalent ^{/3/4/}	
Rate Groups 1-8 ^{/2/}	--
Basehor EAS to Kansas City Metropolitan	17.75
Exception Monthly Rates	
Business Trunk Equivalent, Digital Loop Service Compatible, each	
Rate Schedule 4+ ^{/5/} , Paola Exchange	19.75
Rate Schedule 4+ ^{/5/} , Abilene Exchange	19.75
Rate Schedule 5+ ^{/5/} , DeSoto Exchange	19.75
Hotel Trunk Equivalent, Digital Loop Service Compatible, each	
Rate Schedule 4+ ^{/5/} , Paola Exchange	1.35
Rate Schedule 4+ ^{/5/} , Abilene Exchange	.15
Rate Schedule 5+ ^{/5/} , DeSoto Exchange	.75

/1/ Integrated Services Digital Circuit Switched Voice (CSV)/Circuit Switched Data (CSD) Transport Options are not applicable with tie line service.

/2/ For Rate Group Classifications, see Part 4, Section 2.

/3/ This service offering is subject to the availability of necessary facilities.

/4/ Each local message is \$.06. The hotel or motel company guarantees that for each trunk installed, the local message revenue accruing to AT&T Kansas each month shall equal the Hotel/Motel Measured Trunk rate as shown in Part 4, Section 2.

/5/ Rate Schedule (+) indicates applicable rate schedule plus increments for provision of Extended Area Service (EAS).
