

**DID/AIOD SERVICE****A. Direct Inward Dialing Service to Customer Premises-Located Switching Systems**

1. Additional General Regulations
  - a. Direct Inward Dialing Service to customer premises-located switching systems is furnished subject to the availability of facilities and the availability of telephone numbers.
  - b. The service includes the central office switching equipment necessary for Direct Inward Dialing from the exchange and Long Distance Message Telecommunications network directly to stations and attendant positions associated with customer premises-located switching systems.
  - c. The service must be provided on all lines in a trunk or Network Access Line group arranged for inward service.
  - d. The Charges for the service, as provided in B., following, are in addition to all applicable charges for PBX Service with which this service is associated, and the applicable Network Access Line and connecting arrangement charges as provided in Part 2, Section 9 and Part 20, Section 2 of this Guidebook.
  - e. Operational characteristics of interface signals between the Company-provided connecting arrangements and the customer-provided switching equipment must conform to the rules and regulations of the Company considered necessary to maintain proper standards of service.
  - f. The Company shall not be responsible to the customer or authorized user or joint user if changes in protection criteria or in any of the facilities, operations or procedures of the Company render any facilities provided by a customer or authorized user obsolete or require modification or alteration of such equipment or system or otherwise affect its use or performance.
  - g. Direct Inward Dialing telephone numbers are normally provided on a consecutive-number basis. DID numbers may be provided on a nonconsecutive basis when such service provision is acceptable to the customer and the Company and is within the normal limitations of the serving office. The Company retains its rights to the administration and use of telephone numbers as described in Part 2 of this Guidebook.
  - h. Listings will be provided in accordance with the regulations of Part 12, Section 1 for PBX listed number trunks. Direct Inward Dialing numbers furnished herein are not entitled to free listings. (C)  
(C)
  - i. The customer premises-located switching equipment must be arranged to provide for intercepting of unused numbers transmitted to the switching equipment.
  - j. The rates and charges for the service contemplate the use of standard Company equipment and serving arrangements.

**DID/AIOD SERVICE (cont'd)**

**A. Direct Inward Dialing Service to Customer Premises-Located Switching Systems (cont'd)**

1. General Regulations (cont'd)
  - k. DID Number Block
    1. The removal of a number(s) from a DID number block, is offered, subject to the availability of facilities, at the charge specified in A.2., following. In such cases, the customer shall continue to pay the appropriate rate for the original number block of DID numbers.
    2. The re-instatement of one or more numbers to a DID number block, for use by the customer, is offered, subject to the availability of facilities, at the charge specified in A.2., following. In such cases, the customer shall pay the appropriate rate for the original number block of DID numbers.
  - l. Rates and charges for DID numbers apply on a per trunk group basis. The rate and charge for an initial block of DID numbers, whether in quantities of 100 or in quantities of 10, will apply only once for each quantity. All subsequent number blocks requested by the customer will be at the rates and charges specified for additional quantities.
  - m. In cases where a customer converts a block of 100 numbers into one or more blocks of 10 numbers, or vice versa, it will constitute a disconnection and the appropriate nonrecurring charges will apply to establish the new number block(s). However, the customer may be required to accept different numbers from those in the original number block(s).
  - n. Note that special steps are required for PBX customers to have 9-1-1 service features consistent with those provided to other end users in the same 9-1-1 service area. Automatic Number Identification, Automatic Location Identification and/or Selective Routing are only available through coordination with the governmental agency responsible for 9-1-1 service within the area served by the PBX in accordance with the provisions of Section 28 of the General Exchange Tariff, P.S.C. Mo. No. 35.

Each additional Direct Inward Dialing Number assigned /ZTN/	33.00 (I)	10.50 <sup>/3/</sup>	
Removal of a number from Direct Inward Dialing Number Block, per DID number /REAHZ/ <sup>/4/</sup>	---	10.00	5.50
Re-instatement of a number to Direct Inward Dialing Number Block /REAL9/ <sup>/4/</sup>			
- 1st DID Number	---	200.00	
- Each Additional DID Number	---	20.00	

/1/ Installation Charge does not apply when customer moves service within the same central office and there is no telephone number change.

/2/ Applies to the first number ordered per request, per customer premises, per installation date.

/3/ Applies to all other numbers ordered in addition to the initial number, per request, per premises, per installation date.

/4/ Offered subject to the availability of facilities.

**DID/AIOD SERVICE (cont'd)**

**B. Automatic Identified Outward Dialing Service from Customer Premises-Located Switching Systems**

1. General Regulations
  - a. Automatic Identified Outward Dialing (AIOD) Service from customer premises-located switching systems is furnished subject to equipment and facility limitations and the availability of telephone numbers.
  - b. The service includes the central office equipment necessary for the identification of outgoing Long Distance Message Telecommunications Service messages by station number. The billing of messages by station number is the responsibility of the interexchange carrier providing the Long Distance service connection. The billing of messages by station is Company's Billing and Recording service as provided in Section 8 of the Access Services Tariff, P.S.C. MO-No. 36.
  - c. The service provides for the identification of outgoing Long Distance Message Telecommunications Service messages and the billing of these messages by station number where the Long Distance Message Telecommunications Service is provided by the Company.
  - d. The service will be provided on calls placed over PBX trunks or Network Access Lines from the local serving central office only. Where AIOD is not available in the customer's local serving central office, it may be provided from a distant serving central office subject to the availability of facilities. In such a case, the PBX trunks or Network Access Lines over which outward calling takes place must be served from the AIOD serving office. In addition, Type 322 interoffice channels, interoffice channel terminals and/or interexchange channels and interexchange channel terminals, as provided in Section 2 of the Part 15, are applicable for the required Data Link.
  - e. The service must be provided on all lines in a trunk or Network Access Line group. Where the service is requested and provided on more than one trunk or Network Access Line group, each such group will be considered a separate service in determining charges.
  - f. The charges for the service as provided in B., following, are in addition to all applicable charges for the Network Access Lines and connecting arrangement charges as provided in Part 2, Section 9 or Part 20, Section 2.
  - g. Operational characteristics of interface signals between the Company-provided connecting arrangements and the customer provided communication system with switching equipment must conform to the rules and regulations the Company considers necessary to maintain proper standards of service.
  - h. The Company shall not be responsible to the customer or authorized user if changes in protection criteria or in any of the facilities, operations or procedures of the Company render any facilities provided by a customer, authorized user obsolete or require modification or alteration of such equipment or system or otherwise affect its use or performance.
  - i. The rates and charges for the service contemplate the use of standard Company equipment and serving arrangements.
