

TIME-OF-DAY ANNOUNCEMENT SERVICE /a/

1. General

- a. Existing installations may be retained by the customer at his present address. These installations will be maintained dependent upon availability of equipment from existing stock within this Company. No additions or changes will be allowed.

2. Description

- a. This service provides recorded time-of-day announcement, and is subject to the regulations in Tariff M.P.S.C. No. 20R, Part 2, Section 2. Time-of-Day Announcement Service requires a voice grade Direct Analog Service and may also require additional Special Access Services to connect the terminal equipment designated by the customer with the nearest central office equipped for distribution of continuous time service.

3. Regulations

- a. Time-Of-Day Announcement Service is furnished subject to the availability of facilities from the nearest central office equipped for distribution of continuous time service, as determined by the Company.
- b. The Company may discontinue furnishing Time-Of-Day Announcement Service to a customer when, as determined by the Company, its use unreasonably interferes with or impairs other telephone service rendered to the public by the Company.
- c. Suspension of Service is not offered for this service.

4. Charges

- a. There is no charge for Time-Of-Day Announcement Service. Established rates and charges apply for a voice grade Direct Analog Service and associated equipment and additional Special Access Services specified in Tariff M.P.S.C. 20R, Part 2, Section 7.
