## A24. EMERGENCY REPORTING SERVICES

### A24.1 Universal Emergency Number Service-911 (Cont'd)

#### A24.1.3 Basic Universal Emergency Number Service

##### A. General

1. A Basic 911 system includes the Company provision of the 911 code or the opening of this code to the exchange network in those central offices that fall within the boundaries of the municipalities or other governmental bodies (township, county, etc.) that subscribe to Basic 911 service. The other components include the one-way incoming 911 Exchange Line and customer-provided station equipment at the PSAP. Basic 911 Service (91L++ and 91MSX) is classified as Business Exchange Service (7FB or **TWCIX**) and is arranged for one-way incoming service to the appropriate PSAP.

##### B. Definition of Terms

1. Public Safety Answering Point (PSAP)

An answering location for 911 calls originating in a given area. A PSAP may be designated as Primary or Secondary, which refers to the order in which calls are directed for answering. Primary PSAPs respond first; Secondary PSAPs receive calls on a transfer basis only. PSAPs are public service agencies such as police, fire or emergency medical or a common bureau serving a group of such entities.

##### C. Rates and Charges

1. Messages:

a. The calling party is not charged for calls placed to the 911 number.

b. Charges for applicable local and/or toll messages transferred over exchange facilities from a PSAP are billed to that PSAP as covered in other Sections of this **Guidebook** based on rates applicable from the Central Office serving the PSAP initiating the transfer to the point of termination of the transfer.

2. 911 Exchange Lines

a. Filed rates as found elsewhere in this **Guidebook**, for PBX trunks, flat or measured rate business lines as appropriate will apply for 911 Exchange Lines (answering) that terminate at PSAPs. The monthly rate for the Exchange Line is the rate applicable for the exchange in which the Central Office originating the 911 Exchange Line is located.

3. Dedicated Facilities

a. When dedicated direct arrangements are provided from exchanges or multi-central office exchanges other than that in which the PSAP is located due to the customer's request or when dedicated direct arrangements are provided from exchanges or multi-central office exchanges that do not have local calling to the exchange which the PSAP is located, charges for Foreign Exchange or Foreign Central Office Service will apply as specified in Section A9.

4. Inter-Office Lines

a. Non-dedicated lines may be provided when the Central Offices involved are located in exchanges which have local calling to the exchange in which the PSAP is located. When non-dedicated lines are provided they will be at no charge.

5. PSAP Terminal Equipment

a. Company or customer-provided equipment may be furnished to terminate 911 Exchange Lines at any PSAP. When customer-provided terminal equipment is employed at a PSAP, it will be furnished in accordance with the General Conditions set forth in Section A15, and must comply with the Registration Program of the Federal Communications Commission.

**A112. OBSOLETE CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS****A112.6 (DELETED) (Cont'd)**

(D)

**A112.7 Reserved for Future Use****A112.8 ESSX-1 Service**

(Obsoleted 08-02-96, Type 4) Service rates and charges in this section are not available for new installations, moves, transfers of service or replacements or additions to existing service.

**Obsolescence Rules**

1. ESSX-1 service subscribers under a month-to-month payment option will be allowed to maintain their ESSX-1 service at month-to-month rates until 10-02-97.  
On or prior to 10-02-97 ESSX-1 service month-to-month subscribers must; 1) convert their entire ESSX-1 service account to MultiServ service or MultiServ PLUS service as described in A12.20 and A12.21 respectively; or 2) subscribe to an alternate service.
2. ESSX-1 service subscribers under contract will be allowed to maintain their ESSX-1 service until the expiration date of their contract or until 10-02-97 if the contract expires prior to that date. Upon expiration of their contract or by 10-02-97, ESSX-1 service subscribers must disconnect their ESSX-1 service and either; 1) convert their entire ESSX-1 service account to MultiServ service or MultiServ PLUS service as described in A12.20 and A12.21 respectively; or 2) subscribe to an alternate service.

(T)

(Obsoleted 08-28-85, Type 4). Provided only to those systems already in service or to those systems for which firm orders were received by the Company prior to this date. Additions, deletions and/or rearrangements to an existing system can be made subject to the capacity of the central office from which it is provided.

Note 1: Charges apply to each 100 number group per central office regardless of the amount of numbers in use.

Note 2: Inward access lines used in connection with the provision of In-Dialing Arrangements to the TAS Bureau shall be provided at rates equivalent to Flat Rate inward PBX trunks.
