A13. MISCELLANEOUS SERVICE ARRANGEMENTS

A13.56 Hot Line Service

A13.56.1 General

- A. Hot Line Service is an automatic dialing feature which provides the customer with the ability to automatically be connected with another predetermined line in the circuit switched network. When the customer's instrument goes off-hook, a switched connection is set up without any further customer action. The predetermined number is selected by the customer at the time service is established and can be changed only via service order.
- B. Hot Line Service may be used only in connection with individual line service.
- C. Hot Line Service is furnished only from central offices which have been arranged to provide this service and is provided subject to the availability of facilities.

A13.56.2 Rates and Charges

A103. OBSOLETE SERVICE OFFERINGS - BASIC LOCAL EXCHANGE SERVICE

A103.38 Back-Up Line

(Obsoleted 11-1-2011, Type D - Not available for new installations, additions to existing installations, or moves to a new location.)

A103.38.1 Terms, Conditions and Rates

- A. Back-Up Line is an optional service which provides individual line business subscribers with an additional line for inward and outward calling.
- B. This service is only available to individual line business subscribers where facilities permit. Back-Up Line service cannot be used as the primary business line and must be located on the same premises as the associated business individual line.
- C. Each Back-Up Line has the same local calling area as the primary line or primary line hunt group with which it is associated.
- D. Each Back-Up Line can receive calls forwarded from one busy primary line or hunt group without incurring an additional charge for rotary line service. This overflow capability will be provided on the forwarding line. The addition of a Back-Up Line will not impact existing charges for rotary line service, e.g. if a customer has two primary lines with rotary line service and adds a Back-Up Line, two charges for rotary line service will continue to apply.
- E. Overflow capability from more than one primary line or hunt group to Back-Up Line service will be provided on the forwarding line at rates as specified for rotary line service in Section A13. When more than one primary line or hunt group overflows to the same Back-Up Line, an additional charge for rotary line service (BUL++) is incurred for each additional (excluding the first) primary line or hunt group that overflows to the same Back-Up Line.

	Monthly Rate	USOC
(a) Per additional line or group that overflows (See A13.8 for rotary line service rate)	-	BULRX

- F. If a customer subscribes to more than one Back-Up Line, these Back-Up Lines may be provisioned in a sequential hunting rotary group at no charge. Rotary line capability may not be provided from a Back-Up Line or group of Back-Up Lines to other lines on the same premises. Call Forward Busy Line provided at rates specified in Section A13, may be used to forward calls from Back-Up Lines to lines located on different premises (e.g., an afterhours answering arrangement).
- G. Back-Up Line service cannot be provisioned with circular hunting.
- H. Rotary line service charges will not apply to a hunt group comprised only of Back-Up Lines. For calls to hunt groups comprised only of Back-Up Lines, only one inward call usage charge (\$.05 per minute) will apply per call terminated on and completed to a Back-Up Line in that hunt group.
- I. A free listing is not furnished with Back-Up Line service. Listings may be purchased at the rates specified in A6.
- J. Usage charges are applied to all incoming (e.g., long distance, expanded service area and basic service area) and outgoing calls associated with Back-Up Line service, as described in L, M and N, with the following exceptions: no usage charges apply to outgoing calls to the Company business office, Repair Service, Directory Assistance, or for 911 Emergency service. No Back-Up Line outward usage charges (\$.05 per minute) apply for calls made on a Back-Up Line to the expanded service area or for calls made to toll areas, but the regular expanded service area usage rates or long distance rates do apply for such calls
- K. The access line rate per Back-Up Line is as shown in 1. The access line rate per Back-Up Line for BellSouth Business Plus service customers is as shown in 2.

A112.17.2 Service Description (Cont'd)

B. Optional Features (Cont'd)

4. Alternate Answering

This feature automatically transfers incoming or intercom calls that encounter a don't answer condition after a preselected number of rings (from 1 to 7) on the subscribing PCP line to an alternate designated line within the PCP system. Because of technical limitations, the actual number of ring cycles before a don't answer call is transferred may vary slightly from the preset value. The number to which calls are transferred and the approximate number of ring cycles before a don't answer call is transferred are specified by the customer at the time the feature is ordered. This feature is in operation on a continuous basis and cannot be activated or deactivated by the customer. Changes to the feature must be requested from the Company by service order.

A112.17.3 Rates and Charges

The following rates and charges are for PCP service only and are in addition to the applicable service charges, monthly rates and nonrecurring charges for exchange access lines and other services or equipment with which they are associated.
