A. General

MTS is an intercity long distance Service available to Residential Customers seven (7) days per week, twenty-four (24) hours per day, 365 days per year. With MTS, calls are originated from other than a public or semipublic coin telephone. The desired telephone number is dialed, the call is completed without the assistance of a live or automated operator, and the call is not billed to a number other than the originating number. Calls originate on switched facilities provided by LECs, CLECs or authorized access providers. MTS is available to Residential Customers that presubscribe to the Company for long distance Service.

Customers may subscribe to MTS service for the provisions of intraLATA only calling (local toll), interLATA only calling (interstate and intrastate), or intraLATA and interLATA calling combined.

If a Customer presubscribes to the Company for the provision of outbound long distance Service and does not select one of the Company's optional price plans, the Company will provision MTS Service on the Customer's initial order for Service. Calls are billed in one (1) minute increments, with minimum call duration of one (1) minute
