**E3. CARRIER COMMON LINE ACCESS****E3.5 Payment Arrangements**

- A. The Company will bill the Carrier Common Line Access. The bill day (i.e., the billing date of the bill) in a month for each IC account will be established by the Company. Payment is due from the IC thirty-one days after the bill day date (payment date) or by the next bill date (i.e., same date in the following month as the bill date), whichever is the shortest interval, and is payable in immediately available funds. If such payment date is a Saturday, Sunday or Holiday (i.e., New Year's Day, Independence Day, Labor Day, Thanksgiving Day, Christmas Day, the second Tuesday in November, and a day when Washington's Birthday, Memorial Day or Columbus Day is legally Observed), payment will be due from the IC as follows:
  - 1. If such payment date falls on a Sunday or on a Holiday which is observed on a Monday, the payment date shall be the first non-Holiday day following such Sunday or Holiday. If the billing dispute is resolved in favor of the IC, no late payment will apply to the disputed amount. In addition, if the IC disputes the billed amount and pays the total amount (i.e., the non-disputed amount and the disputed amount) on or before the payment date and the billing dispute is resolved in the favor of the IC, the IC will receive a credit for a disputed amount penalty from the billing entity if the billing dispute is not resolved within ten working days following the payment date or the date the IC furnishes to the billing entity documentation to support its claim plus ten working days, whichever date is the later date. The monthly period used to determine the minutes of use for resold MTS and/or MTS-type service(s) shall be the most recent monthly period for which the IC has received a bill for such resold service(s). This information shall be delivered to the Company, at a location specified by the Company, no later than fifteen days after the bill date shown on the resold MTS and/or MTS-type service bill. When the customer is provided with more than one access group in a LATA in association with the resale of MTS and/or MTS-type services, the resold minutes of use will be apportioned as follows:

1. The Company will apportion the resold originating MTS or MTS-type services and originating minutes of use for which resale credit adjustment applies, among the access groups. Such apportionment will be based on the relationship of the originating usage for each access group to the total originating usage for all access groups in the LATA.   - b. The resale credit adjustment shall apply for resold originating MTS and /or MTS-type services and minutes of use, provided Carrier Common Line and **BellSouth SWA** charges have been assessed on such services.
2. The Company will apportion the resold terminating MTS and/or MTS-type services and terminating minutes of use for which resale credit applies, among the access groups. Such apportionment will be based on the relationship of the terminating usage for each access group to the total terminating usage for all access groups in the LATA. For purposes of administering this provision:
  - a. Resold terminating MTS and/or MTS-type services minutes shall be only those attributable to intrastate terminating MTS and/or MTS-type (i.e., collect calls, third number calls, and credit card calls) and shall not include interstate minutes of use or MTS and/or MTS-type minutes of use paid for by another party.
  - b. The resale credit adjustment shall apply for resold terminating MTS and MTS-type services and minutes of use, provided Carrier Common Line and **BellSouth SWA** charges have been assessed on such services.
3. In order for the rate regulations to apply as set forth following, the access groups and the resold MTS and/or MTS-type services must be provided in the same state (except when the same extended area service arrangement is provided in two different states by the same company) in the same exchange, provided by the same Company and connected directly or indirectly. For those exchanges that encompass more than one state, the IC shall report the information by state within the exchange.
4. Each of the access group arrangements used by the IC in association with the resold MTS and/or MTS-type services must be connected either directly or indirectly to the IC designated premises at which the resold MTS and/or MTS-type services are terminated. Direct connections are those arrangements where the access groups and resold MTS and/or MTS-type services are terminated at the same IC designated premises.

Indirect originating connections are those arrangements where the access groups and the resold originating MTS and/or MTS-type services are physically located at different IC designated premises in the same exchange. Such different IC

## E3. CARRIER COMMON LINE ACCESS

### E3.9 Rate Regulations

- A. The Carrier Common Line Charges will be billed per access minute to each IC BellSouth SWA service provided under this Tariff in accordance with the regulations as set forth following except as set forth in E.3.7.D. preceding and D. following.
- B. **(DELETE)** (D)
- C. When Carrier Common Line Access service is provided in association with BellSouth SWA FGA, BellSouth SWA FGB, BellSouth SWA LSBSA and BellSouth SWA TSBSA 1 service in Company end offices that are not equipped for measurement capabilities, an assumed average access minutes will be used to determine the Carrier Common Line charges. The assumed average access minutes are as set forth in E6.7.8 following.
- D. When the IC reports interstate and intrastate use of in service BellSouth SWA service, the Carrier Common Line Access Charges will be billed only to intrastate BellSouth SWA service access minutes based on the data reported by the IC as set forth in E2.3.14, except where the Company is billing according to actuals by jurisdiction. The intrastate BellSouth SWA service, access minutes will, after adjustment as set forth in E.3.7.D. preceding, when necessary, be used to determine the Carrier Common Line Charges as set forth in E. following.
- E. After the adjustments as set forth in E3.7.D. and D. preceding have been applied, when necessary, to the BellSouth SWA service access minutes, charges for the involved IC account will be determined as follows:
  1. Access minutes for all premium rated BellSouth SWA service subject to Carrier Common Line charges will be multiplied by the Premium Access per minute rate as set forth in E3.10 following.
  2. As ordered by the Commission in Docket No. 90-626-C, Order No. 92-89, no usage rates apply to access minutes (measured or assumed) generated by BellSouth SWA FGA FX/ONAL services.
  3. When an IC is provided BellSouth SWA FGA or BellSouth SWA FGB service to an entry switch (i.e., the dial tone office for BellSouth SWA FGA and access tandem for BellSouth SWA FGB), and any end office which has access to or from that entry switch is equipped with equal access capabilities, the premium and non premium rates for the BellSouth SWA FGA or BellSouth SWA FGB service will apply in the following manner:
    - a. All access minutes that originate from or terminate at the equal access end office(s) will be billed at premium rates. Access minutes that originate from or terminate at end offices not equipped with equal access capabilities will be billed non premium rates. Non premium usage rates will apply as follows depending on the type of service.
    - b. The number of access minutes to be rated as premium access minutes is determined as follows:
      - (1) Where end office specific usage data is available, premium rates apply to the measured access minutes originating from or terminating at the equal access end office(s).
      - (2) Where end office specific usage data is not available, the total usage measured at the entry switch will be apportioned between premium and non premium access minutes in the following manner. First, develop the ratio of the number of subscriber lines (i.e., exchange service lines and ESSX® service lines) in the local calling area of the entry switch, (as defined in the local and/or general exchange service tariff), that are served by the equal access end office(s) to the total number of subscriber lines in that local calling area. Then apply this percentage to the total number of originating access minutes to determine the usage to be billed at premium rates, unless adjusted as set forth in (3) following.

Note 1: Except where indicated herein, references to BellSouth SWA FGs will also include the applicable BellSouth SWA Basic Serving Arrangement as detailed in the matrix in E6.1.3.A. (e.g., the term BellSouth SWA FGA represents both BellSouth SWA FGA and BellSouth SWA LSBSA).

(3) Where **BellSouth SWA** FGD service is provided to an IC in an end office(s) where **BellSouth SWA** FGA or **BellSouth SWA** FGB premium access minutes have been determined in accordance with (2) preceding, such premium access minutes will be adjusted in the following manner. For each **BellSouth SWA** FGD access minute originating from or terminating at that end office, the originating or terminating **BellSouth SWA** FGA or **BellSouth SWA** FGB premium access minutes determined as set forth in (2) preceding will be reduced on a one for one basis, but in no event shall the reduction exceed the total number of **BellSouth SWA** FGA of **BellSouth SWA** FGB premium access minutes originating from or terminating at that end office. The IC will be billed for the revised number of premium access minutes.

F. Carrier Common Line Access Charges shall not be reduced as set forth in E3.7 preceding unless **BellSouth SWA** charges as set forth in Section 6 of Tariff FCC No. 1 are applied to the IC's **BellSouth SWA** services. (T)

G. Terminating premium access per minute charge(s) apply to:

- all terminating access minutes of use;
- all originating access minutes of use associated with calls placed to 700, 800, and 900 numbers, less the percentage of originating access minutes of use reported by the IC, as set forth following, that are associated with calls placed to 700, 800, and 900 numbers that terminate in a **BellSouth SWA** service that is assessed Carrier Common Line Access service charges.

For originating access minutes of use associated with calls placed to 700, 800, and 900 numbers which terminate on a **BellSouth SWA** service assessed Carrier Common Line Access Service charges, the IC shall report as follows: On or before the fifteenth day of each March, June, September and December the IC shall provide the Company a report of the percentage of total intrastate 700, 800, and 900 originating minutes of use that will terminate in a **BellSouth SWA** service that is assessed Carrier Common Line Access Service charges for the forthcoming quarter. The reported percentage will be used by the Company to determine the IC's current monthly bill for the originating minutes of use for which the report was provided as set forth in I. following. The IC reported percentage should reflect any under or over estimate in the prior quarter. In the event the IC does not supply a report, the Company will assume the percentage to be the same as that provided in the previous quarterly report.

If a dispute arises concerning the IC provided quarterly percentage report, the Company may request the IC to provide the data the IC used to determine the percentage. The IC shall keep records from which the reported percentage credit can be ascertained. Upon request of the Company, the IC shall make records available for inspection as reasonably necessary for purposes of verification of the percentages and shall supply the data within thirty days of the Company's request. The Company will not request such data more than twice a year.

H. The originating premium access, per minute charge(s) apply to all originating access minutes of use: (D)

- less all originating access minutes of use associated with calls placed to 700, 800, and 900 numbers;
- plus all originating access minutes of use associated with calls placed to 700, 800, and 900 numbers for which the customer furnishes a report of the percentage of minutes that terminate in a **BellSouth SWA** service that is assessed Carrier Common Line Access service charges, and for which a corresponding reduction in the number of terminating access minutes of use has been made as set forth in G. preceding.

**Note 1:** Except where indicated herein, references to **BellSouth SWA FGs** will also include the applicable **BellSouth SWA** Basic Serving Arrangement as detailed in the matrix of Section 6.1.3 of Tariff FCC No. 1, (e.g., the term **BellSouth SWA** FGA represents both **BellSouth SWA** FGA and **BellSouth SWA** LSBSA).
