This section concurs in BellSouth Telecommunications, LLC's (BST's) Tariff FCC No. 1, Section 6, which can be accessed via the following hypertext link:

<http://cpr.att.com/pdf/fcc/1006.pdf>

Exceptions to this concurrence of BellSouth Telecommunications, LLC's (BST's) Tariff FCC No. 1, Section 6, are as listed below. The following cited exceptions relate to that specific section in the interstate Tariff FCC No. 1.

E6.1 General**E6.1.1 BellSouth SWA Service Arrangements and Manner of Provision****E6.1.1 (A) BellSouth SWA FGA**

The following applies to the intrastate jurisdiction instead of Tariff FCC No 1.

BellSouth SWA FGA provides line side access to Company end office switches with an associated seven digit local telephone number for use in originating communications from or terminating communications to an IC's intrastate service or a Company provided, end office based, intrastate private network switching service. If an IC certifies that it is providing an intrastate, interLATA private network switching function for the end user at its terminal location, the end user may order BellSouth SWA FGA for off network access. Otherwise, the IC may order such access. An end user is restricted to ordering BellSouth SWA FGA for off network access associated with private network switches. Additionally, BellSouth SWA FGA FX/ONAL type service will be billed directly to the end user (subscriber) of these services. ICs are not restricted and in addition to the off network access capability, ICs can order BellSouth SWA FGA in connection with providing interLATA foreign exchange service and MTS like service. When associated with a Company provided, end office based private network switch, end users must order BellSouth SWA FGA for off network access. When BellSouth SWA FGA service is ordered by an end user for use with a Company provided private network switch, the end user must specify the IC that provides the interLATA links of the private network service. A more detailed description of BellSouth SWA FGA is provided in 6.2.1 of Tariff FCC No 1.

E6.1.1 (J) BellSouth Local Number Portability Database Services do not apply to the intrastate jurisdiction.

E6.1.3 Rate Categories**E6.1.3 (A) BellSouth SWA Transport****E6.1.3 (A) (1) Switched Local Channel**

In addition to the language in Tariff FCC No. 1, the following also applies to the intrastate jurisdiction. Switched Local Channel can provide a transmission path between an interstate Switched Expanded Interconnection Arrangement and a Telephone Company end office switch (Intraoffice DS1 or DS3) when a Switched Expanded Interconnection Arrangement is purchased from Tariff FCC No 1. This Switched Local Channel is provided at DS1 and/or DS3 capacity and is assessed a monthly fixed charge based on the capacity ordered by the Interconnecting IC.

E6.1.3 (A) BellSouth SWA Transport**E6.1.3 (A) (6) Interface Group Arrangements**

E6.1.3 (A) (6) (c) Interface Group 3 is not applicable to the intrastate jurisdiction.
