## INTEREXCHANGE 911 SERVICE

### 1. Description of Service

1.1 Interexchange Channels for 911 Service - Interexchange private lines that are used solely for the provision of Universal Emergency Number (911) Service or Private Switch 911 (PS 911) Service. (T)

### 2. Application of Service {1}

2.1 This service applies under the following conditions:

- (a) When interexchange channels are required between a serving office and a Public Safety Answering Point (PSAP).
- (b) When interexchange channels are required between a serving office and a 911 tandem or access tandem that performs a concentration function.
- (c) When interexchange channels are required between a serving office and a 911 tandem or access tandem that performs a concentration function.
- (d) When interexchange channels are required between an access tandem that provides a concentration function and a 911 tandem.
- (e) When interexchange channels are required between a PSAP and a Data Management System (DMS) node or DMS computer.
- (f) When interexchange channels are required between a private switch and a 911 tandem or between a private switch and a PSAP for the purpose of providing PS 911 Service. (N) (N)

### 3. Rates - Interexchange Channels for 911 Service

3.1 In-service 911 customers and 911 customers who have placed firm orders as of the effective date of this tariff may continue with their executed contractual agreements. {2}

	Monthly <u>Rate</u>	Nonrecurring <u>Charge</u>	<u>USOC</u>	Class of <u>Service</u>	(T)
3.2 Interexchange channel, each	\$ 39.00	\$ 165.00	N9N1X	PVCVS	(T)

{1} For SWBT's provision of 911 Service, please see Section 34 of SWBT's General Exchange Tariff. For SWBT's provision of Private Switch 911 Service please see Section 6 of this tariff. (N)

{2} Customers cannot add to, cannot outside move and cannot supersede.
