Austin, TX 78711-3326

Dear Filing Clerk:

Re: Tariff filing of Southwestern Bell Telephone Company d/b/a AT&T Texas pursuant to PURA § 52.007(d-2)(1)

Attached for filing are the original and five copies of the following tariff sheets for Southwestern Bell Telephone Company d/b/a AT&T Texas. With this filing AT&T Texas is removing content from Section 21 of the General Exchange Tariff. This content is already contained in the AT&T Texas Guidebook, effective November 1, 2014 and was inadvertently not previously removed from the tariff.

<u>Tariff</u>	<u>Section</u>	<u>Sheet/Revision</u>
General Exchange Tariff	21	Index Sheet 1/Revision 12
General Exchange Tariff	21	Sheet 26/Revision 1
General Exchange Tariff	21	Sheet 63/Revision 2
General Exchange Tariff	21	Sheet 64/Revision 2

Acknowledgement and date of receipt of this filing are requested. Attached for this purpose is a duplicate letter with the attachment. Please call me at null if there are any questions regarding this matter.

Sincerely,

Emily Steele

MISCELLANEOUS SERVICE OFFERINGS

Effective November 1, 2014, Sheets 1 through 25.5 were withdrawn and removed (N) in their entirety. Content from these pages can now be found in the AT&T (N) Texas Guidebook (see Alphabetical Subject Index in Part 1, Section 3). (N)

16. Universal Emergency Number Service

16.1 Miscellaneous Basic 911 Features

	Monthly Rate	Installation Charge	USOC
Ringback Feature, per line {1} {2} {4}	\$5.30	\$169.60	91S
Switchhook Status Feature, per line {2} {3} {4}	0.00	63.60	91Z

16.2 8A Key Telephone System

16.2.1 Description

- (A) The 8A Key Telephone System, hereinafter termed 8A system, is designed for use with Universal Emergency Number Service, hereinafter termed "911", and allows for the provision of the following features: Call Transfer, Called Party Hold, Forced Disconnect, Switchhook Status and Emergency Ringback of the 911 calling party.
- (B) The 8A system equipment is arranged so that one wall-mounted cabinet will serve up to five 911 lines, four two-way lines and two attendant positions. The maximum system is composed of four wall-mounted units, accommodating twenty 911 lines, eight two-way lines and eight attendant positions.
- (C) The system permits termination of incoming 911 calls and call transfer to an emergency agency via two-way private lines or central office access lines.
- (D) Attendant positions use 18- or 30-button key sets. The Transfer, Transfer Release and Hold features are located in the pick-up key field of the attendant positions, which reduces the maximum number of line terminations per set to 15 and 27, respectively.

{1} Direct Trunking and Called Party Hold feature required before Ringback feature can be added.
{2} Central office portion only.
{3} Direct Trunking required before Switchhook Status feature can be added.
{4} Obsolete - Applicable to existing installations at existing locations for existing customers.

MISCELLANEOUS SERVICE OFFERINGS

Effective November 1, 2014, Sheets 40 through 62 were withdrawn and removed (N) in their entirety. Content from these pages can now be found in the AT&T (N) Texas Guidebook (see Alphabetical Subject Index in Part 1, Section 3). (N)

29. EMERGENCY WARNING CALL DATABASE

29.1 Service Description

Emergency Warning Call Database provides a county, municipality, or other state or local government units with a file of telephone subscriber data from the Enhanced 9-1-1 Service database solely for the purposes of delivering and assisting in the delivery of emergency services pursuant to P.U.C. SUBST R. 26.272(e)(1)(B)(ii) and 47 U.S.C. §222. Emergency Services means 9-1-1 services and emergency notification services.

29.2 General Regulations

- 29.2.1** Customers of this service must be "911 customers" as referenced in the Texas General Exchange Tariff, Section 34, Sheet 1 or their authorized agents.
- 29.2.2** Telephone subscriber data for all customers served by the requesting 911 customer, regardless of carrier or class of service, will be included in the data file.
- 29.2.3** Telephone subscriber data provided to a 911 customer is confidential and proprietary. Subscriber data is provided for the purposes of delivering or assisting in the delivery of emergency services and may not be used or disclosed by "911 customer" or its agents or employees, for any other purpose. All other uses are prohibited.
- 29.2.4** The Emergency Warning Call Database may not be reproduced in any manner, unless specifically authorized in writing by Southwestern Bell. Upon request, the Customer will promptly return to Southwestern Bell all Emergency Warning Call Database information in a tangible form or certify to Southwestern Bell that such information has been destroyed.
- 29.2.5** Southwestern Bell will provide a copy of the database to the "911 customer". Southwestern Bell may not be held liable under Texas law for providing such database information.
- 29.2.6** Emergency Warning Call Database may be requested, at a maximum, once per month and will be delivered within 21 working days of receipt of a written request.
- 29.2.7** Emergency Warning Call Database will reflect data that exists in the Southwestern Bell 9-1-1 database as of the day the extract is produced.

MISCELLANEOUS SERVICE OFFERINGS

29. EMERGENCY WARNING CALL DATABASE (cont'd)

29.2 General Regulations (cont'd)

29.2.8 Emergency Warning Call Database customers are responsible for maintaining the confidentiality of the data contained within the extract.

29.2.9 To the extent allowed by the law, the customer and participating governmental units and agencies each agree to release, indemnify, defend, and hold harmless the Company from any and all loss, claims, demands, suits or other action, or any liability whatsoever, other than the Company's sole negligence, arising out of the customer's use of the Emergency Warning Call Database service whether suffered, made, instituted or asserted by the customer or by any other party or person, for any personal injury to or death of any person or persons, or for any loss, damage or destruction of any property, whether owned by the customer or others.

29.3 Rates

There is a one time, non-recurring charge for each Emergency Warning Call Database extract requested. Charges will be based upon the per request fee plus the number of records in the extract as shown below. The charge for records will be rounded up to the next 10,000 segment.

<u>Description</u>	<u>Nonrecurring</u>
Emergency Warning Call Database	
- per request plus	\$400.00
- per 10, 000 records	20.00
Data elements will be provided on each file where they exist in the Southwestern Bell 9-1-1 database. Southwestern Bell will provide a list of data elements in the Southwestern Bell 9-1-1 Database to the Customer. The Customer may choose to obtain all data elements or may select the data elements to be included in the Emergency Warning Call Database extract. Data elements commonly selected include:	
Telephone Number	
Pilot Telephone Number	
Customer Name	
Service Address	
Class of Service	
Type of Service	
Exchange Name	
Emergency Service Number	
Company ID	
Local Service Provider ID
