## 6  SWITCHED ACCESS SERVICE

6.1  Except as otherwise provided below, regulations and rates in Section 6 of the Ameritech Operating Companies Tariff F.C.C. No 2 relevant to intrastate service provided in the state of Wisconsin apply to service provided under this tariff.

6.2  Local Exchange Toll Provider Exceptions

  6.2.1  General

      Switched Access Service provided to a local exchange carrier providing intraLATA service as an interexchange carrier is provided between an end user's premises and the point of meeting with the local exchange carrier.

  6.2.2  Switched Access Service Arrangements and Manner of Provision

      Feature Group C Switched Access is available to a local exchange carrier providing intraLATA service as an interexchange carrier. Feature Group A, Feature Group B and Feature Group D Switched Access is not available to a local exchange carrier providing intraLATA as an interexchange carrier.

      When 900 Access is provided to a local exchange carrier providing intraLATA service as an interexchange carrier, service will be provisioned in accordance with the technical characteristics available with Feature Group C.

  6.2.3  Rate Categories – Switched Transport

      Where Switched Transport is provided to a local exchange carrier that is providing intraLATA service as an interexchange carrier, only 50 percent of the Tandem-Switched Termination element applies, except where the switched transport facility termination is provided by Wisconsin Bell, Inc. at both ends.

  6.2.4  Description of Feature Group C Switched Access Service

      Where Feature Group C Switched Access is provided to a local exchange carrier that is providing intraLATA service as an interexchange carrier, NXX codes served by offices subtending an access tandem (Sector tandem) may be accessed through a Principal tandem.

### 6.2.5  Measuring Access Minutes

For originating 900 Access Service provided a local exchange
carrier providing intraLATA service as an interexchange carrier
from an equal access office, chargeable originating access minutes
are derived from recorded minutes in the same manner as 900 Access
minutes from non-equal access offices.

### 6.2.6  Mileage Measurement

Where Switched Access is provided to a local exchange carrier that
is providing intraLATA service as an interexchange carrier, the
Tandem-Switched Facility will be calculated as the airline distance,
using the V&H coordinate method, between the end office switch were
the call carried by the switched transport originates and the end
office switch where the call terminates, times a billing percentage
reflecting the portion of the total switched transport distance
provided by Wisconsin Bell, Inc. and/or another local exchange
carrier associated with Wisconsin Bell, Inc. for purposes of
provision of Switched Access Service.  A single billing percentage
will apply to all traffic, by type, between the same two end
offices.  Separate billing percentages are applicable for direct
distance dialed (DDD), Operator, and WATS traffic.

### 6.2.7  IntraLATA Presubscription Implementation Charge

The IntraLATA Presubscription Implementation Charge is a $0.0022
per minute of use charge that is assessed to recover the Telephone
Company's costs associated with the implementation of IntraLATA
Presubscription as described in Section 4.3 preceding.  The charge
is assessed to the customer based on originating IntraLATA Switched
Access usage.

The IntraLATA Presubscription Implementation Charge becomes
effective July 1, 1997 and will remain in effect for three years.
